

Koi And The Kola Nuts: A Tale From Liberia

From the minds of Scieszka and Shannon comes a tale of a quixotic robot determined to conquer the earth. The only problem is that the earth he lands on is a suburban kitchen and he is three inches tall. Robot Zot, the fearless and unstoppable warrior, leaves a trail of destruction as he encounters blenders, toasters, and televisions. But when he discovers the princess...a pink cell phone...his mission takes a new course. Robot Zot must learn how to be a hero - in the name of true love.

When a crocodile captures Mrs. Chicken and takes her to an island to fatten her up, clever Mrs. Chicken claims that she can prove they are sisters and that, therefore, the crocodile shouldn't eat her.

The Tale of Mr. Jeremy Fisher endures as one of Beatrix Potter's most popular and well-loved tales. It tells of an optimistic and slightly accident-prone frog, who sets off on a fishing expedition across the pond, only to find himself bitten on the toe by a water-beetle, fighting with a stickleback, and eventually nearly eaten by a trout! The goals of the second volume of the AHDR – Arctic Human Development Report: Regional Processes and Global Linkages – are to provide an update to the first AHDR (2004) in terms of an assessment of the state of Arctic human development; to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade; and, based on this assessment, to identify policy relevant conclusions and key gaps in knowledge, new and emerging Arctic success stories. The production of AHDR-II on the tenth anniversary of the first AHDR makes

it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North. It addresses critical issues and emerging challenges in Arctic living conditions, quality of life in the North, global change impacts and adaptation, and Indigenous livelihoods. The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents' quality of life, at both the regional and global scales. It shows that the Arctic is not a homogenous region. Impacts of globalization and environmental change differ within and between regions, between Indigenous and non-Indigenous northerners, between genders and along other axes.
