"A tale of romance set over the course of about one week in 1945 in a Joseph Stalin-era Soviet prison camp."--Amazon.com.

*In reconstructing the birth and development of the notion of 'unconscious', historians of ideas have heavily relied on the Freudian concept of Unbewussten, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany. Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a 'psychoanalytic novel'. Italy's vibrant culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged 'origin' of a pre-made theoretical construct, but rather the stratifications by which that specific construct was assembled. In line with Michel Foucault's *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity, inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints.*

If you read or reread Freud, it is difficult not to find on a single page references to language: from speech to text, from slip of the tongue to word play, from letter to meaning-passing inevitably through the strange notion of literal meaning, that fascinated Freud. In short, the unconscious is linked to language. How could it be otherwise, if psychoanalysis is a cure through speech as indicated as early as 1881, by Fraülein Anna O.? The problem of the relationship between linguistic and psychoanalytic concepts necessarily arises. Until now this question has been examined mainly by psychoanalysts, from their own perspective, but here it is investigated by a linguist, who systematically explores two domains. The first is related to the sign and symbol, where the meeting of Freud, Saussure and Hjelmselv occurred; whereas in the second, that of the signifier, Saussure reappears escorted by Lacan. But Freud is not far away, sine the Lacanian theory of the signifier is rooted not only in Saussure's Cours, but also in the Metapsychology and in Freud's Correspondence with Fliess. To aspire to unravel this knot, in fact corresponds to attempt a reading of the Lacanian aphorism "the unconscious is structured like a language".

Translation: Theory and Practice: A Historical Reader responds to the need for a collection of primary texts on translation, in the English tradition, from the earliest times to the present day. Based on an exhaustive survey of the wealth of available materials, the Reader demonstrates throughout the link between theory and practice, with excerpts not only of significant theoretical writings but of actual translations, as well as excerpts on translation from letters, interviews, autobiographies, and fiction. The collection is intended as a teaching tool, but also as an encyclopaedia for the use of translators and writers on translation. It presents the full panoply of approaches to translation, without necessarily judging between them, but showing clearly what is to be gained or lost in each case. Translations of key texts, such as the Bible and the Homeric epic, are traced through the ages, with the same passages excerpted, making it possible for readers to construct their own map of the evolution of translation and to evaluate, in their historical contexts, the variety of approaches. The passages in question are also accompanied by ad verbum versions, to facilitate comparison. The bibliographies are likewise comprehensive. The editors have drawn on the expertise of leading

scholars in the field, including the late James S. Holmes, Louis Kelly, Jonathan Wilcox, Jane Stevenson, David Hopkins, and many others. In addition, significant non-English texts, such as Martin Luther's "Circular Letter on Translation," which may be said to have inaugurated the Reformation, are included, helping to set the English tradition in a wider context. Related items, such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in "collages," marking particularly important moments or developments in the history of translation. This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature, as well as poets, cultural historians, and professional translators.

Ferdinand de Saussure is most famous for his Course in General Linguistics, reconstructed after his death by his students from notes of lectures he had given at the University of Geneva. He only published two books before his death, the Memoir on the Primitive Vowel System in Indo-European Languages, and the book that we publish here for the first time in English translation, On the Use of the Genitive Absolute in Sanskrit. Originally a doctoral thesis in French written while he was a student at the University of Leipzig, On the Use of the Genitive Absolute in Sanskrit was first published in French in 1881. Here, Saussure explores a neglected area in Sanskrit syntax. Already in this work we find an empirical case of the seminal principle of structural linguistics based on use, a principle for which, after his death, he was to become so famous. Editor and translator Ananta Sukla has at last rescued this book from neglect. Apart from translating the text in collaboration with late Patrick Thomas, Sukla provides an extensive introduction that clarifies several points illuminating foundation of modern linguistics in ancient Sanskrit grammars, particularly in principles of use.

Ferdinand de Saussure (1857-1913) is generally considered one of the main founders of modern linguistics and semiotics. The book that was derived from his teaching, the Course in General Linguistics, had a lasting impact on the intellectual life of the 20th century and remains today an object of debates and controversies. This Guide for the Perplexed introduces the reader to the ways in which Saussure developed his revolutionary insights on language in the context of the linguistics of his time. It also provides clear definitions and explanations of the basic notions that form the substance of his work, with relevant examples of how they apply to the understanding of language and other symbolic systems. The book demonstrates how Saussure's ideas have subsequently been used in the humanities and social sciences. It concludes by pointing to the continuing relevance of the theoretical and practical problems that were articulated by Saussure. This is the ideal book for those studying Saussure, structural linguistics or semantics and semiotics, offering a clear overview and explanation of all the key aspects of this fascinating linguist's work.

"Thirty-four-year-old marine biologist Kyra Winthrop remembers nothing about the diving accident that left her with a complex form of memory loss. With only brief flashes of the last few years of her life, her world has narrowed to a few close friendships on the island where she lives with her devoted husband Jacob. But all is not what it seems. Kyra begins to have visions--or are they memories?--of a rocky marriage, broken promises, and cryptic relationships with the island residents, whom she believes to be her friends. As Kyra races to uncover her past, the truth becomes a terrifying nightmare"--

Benveniste's lectures had a shaping influence on a generation of scholars that includes Barthes, Deleuze, Foucault, Derrida, Kristeva and Todorov and here, for the first time, these are made available in English for a new generation of linguists and philosophers of language. This book includes the full course of fifteen lectures which Benveniste gave in the Collège de France on the rue des Coles in Paris between December 1968 and December 1969. Benveniste's work as offered here presents the first serious attempt at reconciling the sign theories of Saussure and Peirce and draws together, language, writing and society into a comprehensive theory of signifying. Benveniste's philosophy of language considers key concepts such as utterance, enunciation, speaker, discourse, subjectivity and as such is central to the areas of discourse analysis, text linguistics, pragmatics, semantics, conversational analysis, stylistics and semiotics.

This book establishes an analytical model for the description of existing translations in their historical context within a framework suggested by systemic concepts of literature. It argues against mainstream 20th-century translation theory and, by proposing a socio-cultural model of translation, takes into account how a translation functions in the receiving culture. The case studies of successive translations of "Hamlet" in France from the eighteenth century neoclassical version of Jean-François Ducis to the 20th-century Lacanian, post-structuralist stage production of Daniel Mesguich show the translator at work. Each chapter focuses on a different aspect of the changing theatrical and literary norms to which translators through the ages have been bound by the expectations both of their audiences and the literary establishment.

Winner of the AIA Book Prize for a research monograph in the field of English Language and Linguistics (2016) Common patterns of interactions are altered in the digital world and new patterns of communication have emerged, challenging previous notions of what communication actually is in the contemporary age. Online configurations of interaction, such as video chats, blogging, and social networking practices demand profound rethinking of the categories of linguistic analysis, given the blurring of traditional distinctions between oral and written discourse in digital texts. This volume reconsiders underlying linguistic and semiotic frameworks of analysis of spoken and written discourse in the light of the new paradigms of online communication, in keeping with a multimodal corpus linguistics theoretical framework. Typical modes of online interaction encompass speech, writing, gesture, movement, gaze, and social distance. This is nothing new, but here Sindoni asserts that all these modes are integrated in unprecedented ways, enacting new interactional patterns and new systems of interpretation among web users. These "non verbal" modes have been sidelined by mainstream linguistics, whereas accounting for the complexity of new genres and making sense of their educational impact is high on this volume's agenda. Sindoni analyzes other new phenomena, ranging from the intimate sphere (i.e. video chats, personal blogs or journals on social networking websites) to the public arena (i.e. global-scale transmission of information and knowledge in public blogs or media-sharing communities), shedding light on the rapidly changing global web scenario.

This interdisciplinary volume gathers essays by leading international scholars in the fields of Italian Renaissance literature, music, history and history of art to address the fertile question of the relationship between religious change and shifting cultural forms in sixteenth-century Italy. Each contribution examines the effects of the profound religious changes that took place in the period on cultural forms, seeking to establish an 'aesthetics of reform' for the sixteenth century.

In Translation and Rewriting in the Age of Post-Translation Studies, Edwin Gentzler argues that rewritings of literary works have taken translation to a new level: literary texts no longer simply originate, but rather circulate, moving internationally and intersemiotically into new media and forms. Drawing on traditional translations, post-translation rewritings and other forms of creative adaptation, he examines the different translational cultures from which literary works emerge, and the translational elements within them. In this revealing study, four concise chapters give detailed analyses of the following classic works and their rewritings: A Midsummer Night's Dream in Germany Postcolonial Faust Proust for Everyday Readers Hamlet in China. With examples from a variety of genres including music, film, ballet, comics, and video games, this book will be of special interest for all

students and scholars of translation studies and contemporary literature.

Mr Blue: Memoirs of a Renegade

Edward Bunker's life is beyond the imaginings of most fiction writers. He was born in Hollywood, California, the son of a stagehand and Busby Berkeley chorus girl, whose early divorce propelled him into a series of boarding homes and military schools. From the age of five he repeatedly ran away, roaming the city streets at night. A proud character, combined with an IQ of 152, resulted in a series of altercations with the authorities. He became the youngest ever inmate of San Quentin at the age of seventeen, and there he learned survival skills and faced down the toughest prisoners in the system. He was befriended by Mrs Louise Wallis, a former star of the silent screen and wife of movie mogul, Hal Wallis, who produced films starring Bogart, Cagney, Edward G. Robinson and George Raft. She introduced Bunker to her circle of friends, including Jack Dempsey, Tennessee Williams, Aldous Huxley and William Randolph Hearst, whose guest he was at San Simeon. A parole violation resulted in a spell crossing America as a fugitive on the FBI's most wanted list. His eventual capture led to Folsom prison. Encouraged by the example of Dostoevsky, Cervantes and Caryl Chessman, and by the kindness of Mrs Wallis, he determined to write his way out of prison. Bunker's first published novel, *No Beast So Fierce*, viewed by many including Quentin Tarantino as the finest crime novel ever written, changed his fortunes. It was filmed as *Straight Time*, starring Dustin Hoffman. He has written three other novels, *The Animal Factory*, *Little Boy Blue* and *Dog Eat Dog*, (all published by No Exit) admired by writers as diverse as William Styron and James Ellroy. He received an Oscar nomination for the screenplay of *Runaway Train*, and has appeared in a score of films, most notably his legendary role as Mr Blue in *Reservoir Dogs*. This blistering narrative is a memoir like no other.

This exploration of the territory between theory and practice in contemporary theatre features essays by academics from theatre and translation studies, and delineates a new space for the discussion of translation in the theatre that is international, critical and scholarly, while rooted in experience and understanding of theatre practices.

A Novel

Saussure's *Cours de linguistique gnrale* has been one of the seminal books of the twentieth century, having shaped modern linguistics and semiology, and having importantly affected anthropology, philosophy and literary studies. Yet the book was written by Saussure's colleagues, based on student notes taken during the three occasions when Saussure gave his lectures on general linguistics. For Saussure's first course, the notebooks of Albert Riedlinger are certainly the best and the most detailed. They have loomed large in our knowledge of Saussurean linguistics, but a number of Saussure's statements, as recorded by Riedlinger, have never been known to a larger public. Until now, those notes themselves have been unavailable, except in fragmented and incomplete form in Engler's unwieldy and hard-to-find edition of the *Cours*. Now, the best of the student notes to all three courses will be available for the first time as they were taken down in French, and have been provided with a facing translation, an introduction, and a full analytical index of terminology. With their publication, Saussurean scholars as well as students of linguistics and related disciplines will have at their disposal the most reliable source material for Saussure's thinking on language. It is hoped that this work will encourage those who take Saussure's principal ideas to be sufficiently known from the CLG to reconsider Saussure's

ideas in their greater immediacy and in their development, so as to appreciate nuances of his thinking generally unknown until now. This edition presents Riedlinger's notes intact and in their original order.

The notes are accompanied by an introduction and a full English translation of the text. Together with the other two volumes, it offers the best insight yet into the evolution of Saussure's thinking.

In this exhilarating coming-of-age tale set in the late 19th century, a daring young woman braves the wilds of the mountainous Austrian-Italian border—and the dangerous men who conspired with her missing father to smuggle tobacco—in order to save her family. Jole de Boer is just fifteen years old the first time she accompanies her father—a tobacco grower named Augusto—as he smuggles his product across the Italian border into Austria. She knows the dangers of the treacherous high mountain passes—border guards, brigands, wild animals, ferocious weather—but she is proud that her father has asked her to join him. After all, without the extra money Augusto's smuggling brings in, their family would starve. But when Augusto mysteriously disappears during one of his trips, Jole must retrace the route he took to both find a buyer for her family's tobacco—and the truth behind her father's disappearance. An epic tale of revenge, corruption, and salvation, *The Soul of the Border* is an unforgettable journey into the wild.

A sweeping, ambitious study of the Virgin Mary's emergence and role throughout Western history—How did the Virgin Mary, about whom very little is said in the Gospels, become one of the most powerful and complex religious figures in the world? To arrive at the answers to this far-reaching question, one of our foremost medieval historians, Miri Rubin, investigates the ideas, practices, and images that have developed around the figure of Mary from the earliest decades of Christianity to around the year 1600. Drawing on an extraordinarily wide range of sources—including music, poetry, theology, art, scripture, and miracle tales—Rubin reveals how Mary became so embedded in our culture that it is impossible to conceive of Western history without her. In her rise to global prominence, Mary was continually remade and reimagined by wave after wave of devotees. Rubin shows how early Christians endowed Mary with a fine ancestry; why in early medieval Europe her roles as mother, bride, and companion came to the fore; and how the focus later shifted to her humanity and unparalleled purity. She also explores how indigenous people in Central America, Africa, and Asia remade Mary and so fit her into their own cultures. Beautifully written and finely illustrated, this book is a triumph of sympathy and intelligence. It demonstrates Mary's endless capacity to inspire and her profound presence in Christian cultures and beyond.
