**As a genre situated at the crossroad of rhetoric and fiction, declamatio offers the freedom to experiment with new forms of discourse. Placing the literariness of (Ps)Quintilian's oeuvre into the spotlight, this volume showcases declamation as a realm of genuine literary creation with its own theoretical underpinning, literary technique and generic conventions. It is of interest to students and scholars of rhetoric and Roman Literature.**

This book studies the nature of Venetian rule over the Slavs of Dalmatia during the eighteenth century, focusing on the cultural elaboration of an ideology of empire that was based on a civilizing mission toward the Slavs. The book argues that the Enlightenment within the Adriatic Empire of Venice was deeply concerned with exploring the economic and social dimensions of backwardness in Dalmatia, in accordance with the evolving distinction between Western Europe and Eastern Europe across the continent. It further argues that the primitivism attributed to Dalmatians by the Venetian Enlightenment was fundamental to the European intellectual discovery of the Slavs. The book begins by discussing Venetian literary perspectives on Dalmatia, notably the drama of Carlo Goldoni and the memoirs of Carlo Gozzi. It then studies the work that brought the subject of Dalmatia to the attention of the European Enlightenment: the travel account of the Paduan philosopher Alberto Fortis, which was translated from Italian into English, French, and German. The next two chapters focus on the Dalmatian inland mountain people called the Morlacchi, famous as savages throughout Europe in the eighteenth century. The Morlacchi are considered first as a concern of Venetian administration and then in relation to the problem of the noble savage, anthropologically studied and poetically celebrated. The book then describes the meeting of these administrative and philosophical discourses concerning Dalmatia during the final decades of the Venetian Republic. It concludes by assessing the legacy of the Venetian Enlightenment for later perspectives on Dalmatia and the South Slavs from Napoleonic Illyria to twentieth-century Yugoslavia.

Da quando Agatha e Sophie sono fuggite dall'Accademia del Bene e del Male sono diventate autentiche celebrità: hanno infranto le regole e vissuto la Fiaba fino in fondo, si sono conquistate il Lieto Fine che volevano e sono tornate, cosa mai successa. E ora fanno ciò che ci si aspetta da loro. Agatha si lascia imbellettare e vestire di rosa da Sophie che, ormai incapace di tenere a freno la cattiveria, è sempre più insopportabile. Finché l'amica, esasperata, si pente di avere scelto quel Lieto Fine e si rende conto di volere un principe per la sua storia. Basta quel piccolo momento di debolezza perché tutto ricominci da capo. Agatha e Sophie si ritrovano all'Accademia, dove per tutto è cambiato. Che fine hanno fatto le due scuole del Bene e del Male? E dove sono finiti tutti gli eroi, i principi, i maschi? *Poetry. Bilingual Edition. Translated from the Italian by Luigi Bonaffini. THE BEDROOM [La camera da letto] is Bertolucci's best-known work, so popular that the poet once read it to television viewers on a seven-hour program. It is a narrative poem that traces the history of the poet's family across seven generations with directness, precision and attention to everyday details, major events and fantastic surprises. Paolo Lagazzi writes in his introduction: "THE BEDROOM is a sort of a multi-novel, or a distillation of very diverse narrative forms and intuitions: a Bildungsroman and fairytale, an epoch novel, a novel-chronicle, a dramatic novel and a picaresque novel. An experimental work in the most authentic sense of the word..." "Nothing of time's essence escapes or is neglected by the author's ravenous sensibility, no less active in recording the multiple places in which existence rests (the city and the countryside, the sea and the plane, the Po river and the Maremma) in an exuberant display of forms, lights, perspectives, tonalities."—Luigi Ferrara*

*Based on the true history of the uncrowned kings of Sicily: the story of a family, restless and ambitious, shrewd and determined to be richer and more powerful than anybody else. In this grand, sweeping epic inspired by the real lives of history-making titans, international best-selling author Stefania Auci brings to life the dark secrets, the loves and betrayals, and the cruel acts of revenge that marked the Florio family's century of influence. The Florios arrive in Sicily, with nothing but the clothes on their back after an earthquake destroys their hometown. Against all odds, the family begins anew despite the looming Napoleonic wars and devastating plagues. But when Vincenzo is spurned by his aristocratic lover, he vows to avenge his honor by becoming the wealthiest man in Italy. Sacrificing love and family, he strives to buy what cannot be his by birth. Not to be outdone by the men, the Florio women unapologetically demand their place outside the restraints of caring mothers, alluring lovers, or wounded wives. Giulia, though only a mistress, is fiercely intelligent and runs the empire from the shadows. Angelina, born a bastard, charts her own future against the wishes of her father. In this epic yet intimate tale of power, passion, and revenge, the rise and fall of a family taps into the universal desire to become more than who we are born as. Recently, technology and aging have been key research areas in human cognition. The Research Topic “ Digital Skills and Life-long Learning: Digital Learning as a New Insight of Enhanced Learning by the Innovative Approach Joining Technology and Cognition ” investigated technology's impact on cognitive and intellectual processes, highlighting how intensively technology can change and/or enhance the cognitive functioning throughout one ' s lifespan. The aim of this Research Topic was to provide an outlook through multidisciplinary research and development while addressing the dynamic intersection of cognition, mind, and technology. Our scope was 1) to favor the cognitive technology debate, 2) to overcome the dichotomies of technology and psychology, 3) to emphasize the advances in knowledge and well-being. This Research Topic comprises review studies and original articles, focused on digital skills that enhance human potential. Transversal approaches and cross-sectorial analysis were encouraged, leading to investigation areas related to cognitive and mental processing—in educational, rehabilitation, clinical settings—across aging. Articles of high relevance to the Research Topic were submitted on the subjects of a) research in human performance and human factors, b) new research and technologies addressing the needs of a growing populace, and c) cognitive aging and cognitive rehabilitation research.

Twentieth-century Italian poetry is haunted by countless ghosts and shadows from opera. Echoes of Opera in Modern Italian Poetry reveals their presence and sheds light on their role in shaping that great poetic tradition. This is the first work in English to analyze the influence of opera on modern Italian poetry, uncovering a fundamental but neglected relationship between the two art forms. A group of Italian poets, from Gabriele D ' Annunzio to Giorgio Caproni, by way of Umberto Saba and Eugenio Montale, made opera a cornerstone of their artistic craft. More than an occasional stylistic influence, opera is rather analyzed as a fundamental facet of these poets ' intellectual quest to overcome the expressive limitations of lyrical poetry. This book reframes modern Italian poetry in a truly interdisciplinary perspective, broadening our understanding of its prominence within the humanities, in the twentieth century and beyond.

*"This is the first published English translation of Francesco Alfieri's fencing treatise: "La Scherma", first published in Padua in 1640. Alfieri was the Master at Arms at the Accademia Delia in Padua, Italy from 1632. The Delia was a school attached to the University of Padua teaching young gentlemen military skills, mathematics and the martial arts of self defence. It is not widely appreciated that Europe has martial arts traditions that are centuries old. Contained within this book is a description of one of these European combat systems ~ the art of fighting with the Rapier ~ a long, slender, civilian sword designed for self defence and dueling. The ability to wield such a weapon with skill was a matter of vital importance in an age when the defence of honour and, by definition, the immortal soul, could be more important than life itself. Alfieri's concise system is a very practical and effective way to address this need. It is an excellent resource for all students of historical swordplay and anyone interested in the martial arts of Renaissance Europe." -- Amazon.com*
