

La Guerra Di Charley: 2

This book collects for the first time a compendium of poems written in English by brigadists, sanitary personnel and journalists that participated or were involved in the Spanish Civil War, as well as by intellectuals, writers and journalists that supported the republican cause from the outside. The anthology starts from a previous historical framework in which this poetic legacy has been contextualized, to know where, when, how and why these poems were written, and who wrote them or who were their protagonists. All these analyses have served to understand the causes of why this poetic legacy has been denied and has not received the recognition it deserves

This twentieth-century history of Guatemala begins with an analysis of the Grand Tikal Futura, a postmodern shopping mall with a faux-Mayan facade that is surrounded by a landscape of gated subdivisions, evangelical churches, motels, Kaqchikel-speaking villages, and some of the most poverty-stricken ghettos in the hemisphere.

written in the US and Europe on this subject. Because all wars in the twenty-first century are potentially global wars, the centenary of the first global war is the occasion for reflection. This volume offers an unprecedented account of the lives, stories, letters, games, schools, institutions (such as the Boy Scouts and YMCA), and toys of children in Europe, North America, and the Global South during the First World War and surrounding years. By engaging with developments in Children's Literature, War Studies, and Education, and mining newly available archival resources (including letters written by children), the contributors to this volume demonstrate how

perceptions of childhood changed in the period. Children who had been constructed as Romantic innocents playing safely in secure gardens were transformed into socially responsible children actively committing themselves to the war effort. In order to foreground cross-cultural connections across what had been perceived as 'enemy' lines, perspectives on German, American, British, Australian, and Canadian children's literature and culture are situated so that they work in conversation with each other. The multidisciplinary, multinational range of contributors to this volume make it distinctive and a particularly valuable contribution to emerging studies on the

War is the culmination of fifty years of dedicated and painstaking research and is the most exhaustive study on the subject in any language. It has been regarded as the authoritative political history of the war and an indispensable encyclopedic guide to Republican affairs during the Spanish conflict. This new edition includes a new introduction by Spanish Civil War scholar George Esenwein, an updated bibliography featuring books on the Spanish Civil War published since 1987, and seventy-three photos of the war's participants.

as they call to our attention an important and neglected part of U.S. history. Gathered from many little-known sources, the works reflect both the soldiers' experience and the antiwar movement at home. Taken together, they illustrate the contradictions faced by the traditionally patriotic Mexican American community, and show us the war and the grassroots opposition to it from a new perspective—one that goes beyond the familiar dichotomy of black and white America. George Mariscal offers critical introductions and provides historical background by identifying specific issues which have not been widely discussed in relation to the war, noting, for example, the potential for Chicano soldiers to recognize their own ethnic and class identities in those of the Vietnamese people. Drawing upon interviews with key

participants in the National Chicano Moratorium Committee, Mariscal analyzes the antiwar movement, the Catholic Church, traditional Mexican American groups, and an emerging feminist consciousness among Chicanas. Also included are personal accounts: Norma Elia Cantú's remembrance of her brother who died in combat, Bárbara Renaud González's evocative poem about Chicanas on the homefront, Alberto Ríos's and Naomi Helena Quiñonez's moving poetry about the Wall, and the recollections of Abelardo Delgado and others on the August 29, 1970 Moratorium.

Encounters with Jazz on Television in Cold War Era

Portugal: 1954–1974 explores the relationship between jazz and television by investigating the experiences of performers and producers in one of the last European colonial states (Portugal) during a period of political and social repression and global isolation. This new model of systemic analysis reveals a paradoxical interrelationship between state-controlled television and international media industries, highlighting the space where these two forces collide and locating television jazz production within an important cultural milieu with a lasting impact on Portuguese society. From the days of the first feasibility studies for a proposed public television service in 1954, to the military coup that overthrew the far-right

Estado Novo regime in 1974, this book maps the institutionalization of jazz in Portugal as a social and musical practice, one that played a significant role in fostering cultural diversity. It looks at the musicians, repertoires, production processes, broadcasts, policies and strategies that fuelled the launch of Radiotevisão Portuguesa (RTP) and the rise of television, an indispensable new medium that granted Portuguese people access to the wider world – a world curated by public television producers with individual cultural, political and aesthetic attitudes to influence the dissemination of jazz. In exploring the connections between these national and international jazz scenes,

Si alguien puede hablar de música con la documentación de un investigador, la pasión de un novelista y el amor por la anécdota de un fan, ése es Ted Gioia. Tras su monumental Historia del Jazz (1977), ahora invita al lector a un viaje desde las plantaciones del Mississippi, donde nació el blues, para irse “a husmear un tiempo por Memphis y establecerse al fin en Chicago” (Peter Guralnick). Veremos cómo el blues “tuvo un hijo al que le llamaron rock and roll” (Muddy Waters), y cómo dejó sentir su influencia sobre varias generaciones de músicos, empezando por Elvis Presley. El meticuloso trabajo de campo del autor (“para entender no sólo a los músicos, sino a su música”, Boston Globe) le

permite además trazar con pulso firme el entorno económico, social y racial de unos músicos que conquistaron el mundo desde el peldaño más bajo. Ted Gioia, músico, compositor, crítico, historiador, profesor, pianista y productor de jazz, se crió en California, y comenzó a dar clases de jazz en la Universidad de Stanford antes incluso de licenciarse. Es autor de más libros sobre este género: "The Imperfect Art: Reflections on Jazz and Modern Culture", ganador del premio ASCAP-Deems Taylor, y West Coast Jazz, publicado en 1998. Flying and the pilot were significant metaphors of fascism's mythical modernity. Fernando Esposito traces the changing meanings of these highly

charged symbols from the 1909 air show in Brescia, to the sky above the trenches of the First World War to the violent ideological clashes of the interwar period. The book analyzes a multitude of speakers in the aviation discourse ranging from Aby Warburg and Gabriele D'Annunzio, over the Futurists and Ernst Jünger to the Fascists proper. Esposito shows how the flyer came to symbolize not only New Man and the new eternal time the Fascists were striving for but also the conflicts underlying modernity itself.
