The sobering truth is that it's very easy for the entrepreneurs who don't know what they're doing to walk away from a sale without the financial freedom they hoped for. In fact, only about 20 percent of businesses for sale will successfully transfer to another owner! In Walk Away Wealthy, Mark Tepper--a leading authority on wealth management and financial planning for entrepreneurs--shows you how to build a strong exit plan, an absolute requirement if you hope to get the full value from a sale. Tepper's twelve secrets debunk myths and deliver practical advice as he walks you through what most people don't know (or refuse to believe) about the process of planning their exit. And although it's best to start planning the exit as early as possible, the book also delivers advice for those who may have waited too long and feel lost in the face of a rapidly approaching sale. *Savvy companies recognize the value of a strong community. Think of Nike and its community of runners, Nike+, and you'll quickly understand that creating and fostering an online community around a product or brand is a powerful way to boost marketing efforts, gain valuable insight into consumers, increase revenue, improve consumer loyalty, and enhance customer service efforts. Companies now have the unprecedented opportunity to integrate their brand's messaging into the everyday lives of their target audiences. But while supporting the growth of online communities should be at the top of every company's priority list, all too often it falls by the wayside. That's why brand strategy expert and digital marketer Lauren Perkins wrote *The Community Manager's Playbook* (#CMplaybook on Twitter), a must-read guide for business and brand builders who need to strengthen their approach to online B2C community management and customer engagement. As Perkins explains, if companies want to create thriving online communities focused on their product or brand, they must do more than simply issue a few tweets a day, create (and then abandon) a Facebook page, and blog every once in a while. Instead, organizations of all sizes must treat community management as a central component of their overall marketing strategy. When they do, they will be rewarded handsomely with greater brand awareness, increased customer use and retention, lower acquisition costs, and a tribe of consumers who can't wait to purchase their next product. Perkins not only teaches readers how to build an engaging community strategy from the ground up, but she also provides them with the tactical community management activities they need to*

acquire and retain customers, create compelling content, and track their results along the way. Distinctive in its comprehensive, step-by-step approach to creating online communities that are fully consistent with a company's existing brand voice, The Community Manager's Playbook: Explains how excellent community management provides a competitive advantage with a large impact on sales Provides an in-depth overview of brand and business alignment Teaches readers how to identify their community's online target audience and influence their needs and wants Details the appropriate online channels through which content should be distributed Champions the use of an agile approach through repeated testing to maximize the return on every company investment Discusses the many diverse metrics that can be used to measure community scope Today, there is no brand strategy without a community strategy. Companies that are not developing communities are losing control of their brands and missing opportunities to optimize their marketing investments. With The Community Manager's Playbook as their guide, however, marketing professionals and the companies and brands they represent will be equipped with the tools they need to manage their online marketing efforts, engage their core customers at every level, leverage community insights into the product development cycle, and ensure that their messaging is heard across all corners of the digital landscape.

"The only way to create great relationships and results is through servant leadership. It's all about putting other people first." – from the foreword by John Maxwell We've all seen the negative impact of self-serving leaders in every sector of our society. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four

renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

Most entrepreneurs have had to learn things the hard way--concepts such as: big ideas rarely make great businesses; laboring on a business plan can be a waste of time; and you will need dramatically more start-up money than you originally thought you did. But Len Green, an experienced investor, entrepreneur, and business professor, has encapsulated together all the inside secrets, proven strategies, and mistakes experienced so that you can learn it all beforehand, rather than when all your capital is on the line. Based on his popular Ultimate Entrepreneurship course, The Entrepreneur's Playbook explains how to:

- Locate sure-bet opportunities for improving products*
- Find funding*
- Take calculated risks and minimize failure*
- Get serious about positioning, distributing, and licensing*
- And more!*

Plus, the invaluable instruction available for readers is now interactive. Dozens of exercises are given throughout the book that can be submitted online for feedback! Why stumble alone on a risky venture on your way to failure when you can tap into the best ideas and minds for increasing your chances for success?
