There are a lot of Christians who really do want to fulfill the Great Commission and go make disciples. The problem is, many of them have no idea what that looks like or where to start. The Green Book is a discipleship tool and curriculum that was created to help beginners as well as long time disciple-makers alike make disciples who can then go make disciples.

Phil Gordon plays poker with the best players in the world. He has won -- and lost -- in tournaments and cash games around the globe, all the while studying the game and learning from every hand dealt. As the resident expert and cohost of Celebrity Poker Showdown, Phil has quickly become one of the most sought-after teachers of No Limit Texas Hold'em. It's a tough game. But anyone can become a winning player with the right amount of courage, patience, aggression, observation, and, perhaps most important, dedication to becoming a better player. After fifteen years of keeping notes on the things he's learned, the greats he's played with, and the celebrities he's taught, Phil Gordon has poured every single thing he knows about No Limit Texas Hold'em into this little green book. Taking a page from Harvey Penick's bestselling book of golf wisdom, Phil plays the role of both teacher and student, offering up insightful tips on how to think

about poker and how to develop a singular style of play. Through philosophy, psychology, strategy, math, and the knowledge gleaned from playing poker with everyone from T. J. Cloutier and Phil Ivey to Hank Azaria and Ben Affleck, Phil breaks down the game into enlightening instructional tidbits and illustrative anecdotes that inspire the kind of persistence and motivation necessary to improve your game. A book to rank with Doyle Brunson's Super System and David Sklansky's The Theory of Poker, Phil Gordon's Little Green Book deserves a spot on the shelf of every serious student of the game.

Depth Psychology and Climate Change offers a sensitive and insightful look at how ideas from depth psychology can move us beyond psychological overwhelm when facing the ecological disaster of climate change and its denial. Integrating ideas from disciplines including

Where To Download Little Green Book Of Getting Your Way: How To Speak, Write, Present, Persuade, Influence, And Sell Your Point Of View To Others (Jeffrey Gitomer's Little Books)

anthropology, politics, spirituality, mythology and philosophy, contributors consider how climate change affects psychological well-being and how we can place hope and radical uncertainty alongside rage and despair. The book explores symbols of transformation, myths and futures; and is structured to encourage regular reflection. Each contributor brings their own perspective – green politics, change and loss, climate change denial, consumerism and our connection to nature – suggesting responses to mental suffering arising from an unstable and uncertain international outlook. They examine how subsequent changes in consciousness can develop. This book will be essential reading for analytical psychologists, Jungian analysts and psychotherapists, as well as academics and students of Jungian and post-Jungian studies. It will also be of great interest to academics and students of the politics and policy of climate change, anthropology, myth and symbolism and ecopsychology, and to anyone seeking a new perspective on the climate emergency.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are

thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. Wit, craic, and maxims from the Emerald Isle's most famous descendents including JFK, Ronald Reagan, St. Patrick, William Butler Yeats, Oscar Wilde, George Carlin, Brendan Behan, Michael Collins, de Valera, Tug McGraw, and many more! In this lively and wide-reaching collection Dermot McEvoy gathers together some of Ireland's most famous lines from its most famous (and infamous) residents. But just who are the Irish, exactly? They are freedom fighters (the British call them "terrorists"), slave-owners, master politicians, relentless defenders of their religions, gay, straight, liberal, reactionary, victims of a famine, and mercenaries in the name of imperialism. They are expert businessmen, singers, outlaws, movie stars, writers, poets, priests, highwaymen, beggars, gypsies, gangsters and athletes. They are drunkards, teetotalers, modest, extravagant, and always

shocked by the whole thing. They are inspirational and infuriating. They are funny and they are cynical. They are extraordinarily talented and remarkably venal. They are tough, adaptable, and the ultimate survivors. They are bewildering. They are infuriating. And whatever they are, there is a certain wisdom to it all. So dive in and discover new lines and classic quotes from your favorite Irish men and women!

“An invaluable guide for both professionals in the health field and the general public.” —Deepak Chopra, MD The evidence is in: you can reduce cancer risk and support treatment by focusing on six key areas of health and wellness. The scientific data on the link between lifestyle, environmental factors, and

cancer risk has been accumulating at an accelerated rate over the past decade: Every week we learn something more that we can do as individuals to decrease the risk of cancer and improve the likelihood of long-term survival. Many of us—patients and doctors included—do not realize that changes in our daily choices and habits can improve quality of life, increase the chances of survival, and aid in the healing process for those with a diagnosis. These ideas were pioneered in David Servan-Schreiber’s Anticancer: A New Way of Life, and became the basis for a research study developed by Lorenzo Cohen and Servan-Schreiber at The University of Texas MD Anderson Cancer Center. Introducing the concept of the “Mix of Six,” Cohen and Alison Jefferies make an informed case that building social and emotional support; managing stress; improving sleep, exercise, and diet; and minimizing exposure to environmental toxins work together to promote an optimal environment for health and well-being. While each plays an independent role, the synergy created by all six factors can radically transform health; delay or prevent many cancers;

What really goes on inside a sentence? What is your subject, and where is your verb, and what is its tense, and where is your modifier, and why does it matter? Where do you need a comma, and where do you not? Why are dashes and semicolons so misunderstood? When is it which and when is it that? In The Little Green Grammar Book, Mark Tredinnick asks and answers the tough grammar questions - big and small - with the same verve and authority readers encountered in The Little Red Writing Book. The Little Green Grammar Book does for grammar what The Little Red Writing Book did for style. It will have you writing like a writer in no time.

The Little Green Book is a collection of fatawah handed down

by the most prominent and arguably one of the most influential Muslim clerics in modern history; the Grand Ayatollah Seyyed Ruhollah Mosavi Khomeini, commonly known as the Ayatollah Khomeini. Fatawah (the plural of fatwah) are Islamic religious decrees sent down by Muslim religious leaders. Since Islam demands that Muslims abide by Sharia - Islamic law as individuals and as a society, these fatawah are not simply religious insights or advice. They are legal pronouncements, and define the law of the land in an Islamic country. In his unrivaled role as Iran's Supreme Leader and the highest-ranking cleric for Shi'a Muslims, the Ayatollah Khomeini's fatawah guided the lives of more Shi'a Muslims than did any other Islamic leader throughout history

Personal finances are part of life and need to be properly understood and controlled. People's personal finances are in disarray because they were never taught a better way. Many people find themselves struggling financially even though they have been working their entire lives. They live paycheck to paycheck and feel abandoned by the greater financial system. The Little Green Book of Financial Happiness is based on a class that the author has taught for more than a decade. It provides a simple way of looking at personal finances. Everything we need or want is measured in terms of money. Money and material life in general place many pressures on all members of society. Why? We tend to measure everything, even our sense of happiness, in dollars. The ability to understand and manage a personal budget gives one a fighting chance at obtaining financial

Lessons and Teachings in No Limit Texas Hold'em

In 1994, Christopher Buckley published one of the most acclaimed and successful comic novels of the decade, Thank You for Smoking. Now Buckley returns to the strange land of Washington, D.C., in Little Green Men, a millennial comedy of manners about aliens and pundits . . . and how much they have in common. The reluctant hero of this hilarious novel is John Oliver Banion, a stuffy Washington talk-show host, whose privileged life is thrown into upheaval when aliens abduct him from his exclusive country-club golf course. But were his gray-skinned captors aliens . . . or something far more sinister? After Banion is abducted again--this time in Palm Springs--he

believes he has been chosen by the extraterrestrials to champion the most important cause of the millennium, and he embarks on a crusade, appearing before a convention of UFO believers and demanding that Congress and the White House seriously investigate UFOs. His friends and family suspect that Banion is having some kind of manic-depressive midlife crisis and urge him to seek therapy before his credibility as a pillar of the punditocracy is ruined. So John Oliver Banion must choose: keep his establishment status or become the leader of millions of impassioned and somewhat scruffy new friends who want to expose the government's secret alien agenda. Little Green Men proves once and for all that the truth is out there. Way out there. And it reaffirms Christopher Buckley's status as the funniest humanoid writer in the universe. Coming soon from Christopher Buckley: One of Our Whales Is Missing "Hungry? Check the Green Book. Tired? Check the Green Book. Sick? Check the Green Book." In the late 1930s when segregation was legal and Black Americans couldn't visit every establishment or travel everywhere they wanted to safely, a New Yorker named Victor Hugo Green decided to do something about it. Green wrote and published a guide that listed places where his fellow Black Americans could be safe in New York City. The guide sold like hot cakes! Soon customers started asking Green to make a guide to help them travel and vacation safely across the nation too. With the help of his mail

carrier co-workers and the African American business community, Green's guide allowed millions of African Americans to travel safely and enjoy traveling across the nation. In the first picture book about the creation and distribution of The Green Book, author Keila Dawson and illustrator Alleanna Harris tell the story of the man behind it and how this travel guide opened the road for a safer, more equitable America.

As we confront the challenges of climate change, author James George calls us to wake up and stop our careless treatment of our planet before it's too late. At the same time, he shares his own practice towards waking up-the practice of Presence, known to all spiritual paths and simply and eloquently presented in this book. From [i]The Little Green book on Awakening[/i]: To become aware of the omnipresence of Consciousness may be the next great leap in human evolution and the foundation of the new paradigm in which both science and spirituality can find common ground. For consciousness is the field that connects-not separates-everything with everything, at all levels, and everything with the All, in one Wholeness.

classic roots of the drink as well as its new iterations. Readers will be entertained with nuggets of absinthe history and trivia, including the tradition of the green fairy, famous devotees of the drink, and the myths (or facts) of its hallucinatory properties. Readers will learn that:

- America's most famous early cocktail, the sazerac, was a New Orleans creation that called for a dash of absinthe
- When the absinthe backlash started in the 1890s, Edgar Degas' masterpiece L'Absinthe was booed off the auction block at Christie's in London
- An experienced absintheur can identify a brand from across the room just by watching how it louches-the way the herbs' oils cloud the drink as the bartender adds water

African Americans could afford to buy cars, so this would be an adventure. But she soon found out that black travelers weren't treated very well in some towns. Many hotels and gas stations refused service to black people. Daddy was upset about something called Jim Crow laws . . . Finally, a friendly attendant at a gas station showed Ruth's family The Green Book. It listed all of the places that would welcome black travelers. With this guidebook—and the kindness of strangers—Ruth could finally make a safe journey from Chicago to her grandma's house in Alabama. Ruth's story is fiction, but The Green Book and its role in helping a generation of African American travelers avoid some of the indignities of Jim Crow are historical fact.

This historical exploration of the Green Book offers “a fascinating [and] sweeping story of black travel within Jim Crow America across four decades” (The New York Times Book Review). Published from 1936 to 1966, the Green Book was hailed as the “black travel guide to America.” At that time, it was very dangerous and difficult for African-Americans to travel because they couldn’t eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. The Little Green Book of Breastfeeding Management for Physicians and Other Healthcare Providers, now in its 7th edition, is a pocket-sized reference manual for the most commonly asked questions that breastfeeding families have throughout the course of lactation. The book covers a broad range of topics including components of breastmilk and prenatal support, optimal breastfeeding management early postpartum, followed by problems and special conditions encountered by most primary care providers who care for breastfeeding dyads. This newly revised edition is based on The Milk Mob's One Day Basic Breastfeeding Medicine for Physicians and Other Healthcare Providers, which is now online. This course, in addition to the book's bibliography and other free breastfeeding resources, may be found by visiting www.themilkmob.org. Ellen DeGeneres, Robert Redford, Will Ferrell, Jennifer Aniston, Faith Hill, Tim McGraw, Martha Stewart, Tyra Banks, Dale Earnhardt, Jr., Tiki Barber, Owen Wilson, and Justin Timberlake tell you how they make a difference to the environment. Inside The Green Book, find out how you can too: - Don't ask for ATM receipts. If everyone in the United States refused their receipts, it would save a roll of paper more than two billion feet long, or enough to circle the equator fifteen times! - Turn off the tap while you brush your teeth. You'll conserve up to five gallons of water per day. Throughout the entire United States, the daily savings could add up to more water than is consumed every day in all of New York City. - Get a voice-mail service for your home

The Little Green Book of Breastfeeding Management for Physicians and Other Healthcare Providers

How do you relate to marijuana? Are you happy with your life and with your use of cannabis? This book offers a thorough exploration, allowing the reader to look into their life without judgment or blame. Part memoir, part 'how to', The Little Green Book will assist marijuana users, their loved ones and those working with them in considering change. Michael Stratton is a therapist who fell in love with marijuana. Gradually it began to eclipse his goals that he'd set for himself. Eventually he found it necessary to break up with marijuana. He began working with others who had faced the same dilemma, and then became trained by SAMHSA (Substance Abuse and Mental Health Services Administration) in the latest evidence based practices in helping people change. Borrowing from practices as varied as several recent scientific studies, philosophy and the Buddhist metaphor of The Hungry Ghost, the author weaves a rich tapestry for self exploration and the possibility of change. Taking the middle path, not being anti-marijuana and in fact advocating for the legalization of cannabis, The Little Green Book avoids the controversies swirling around the politics of pot. This book is for the dissatisfied or curious user who wonders if their use of marijuana may have come in the way of their satisfaction with what life can offer. It will also assist those who care about cannabis users in their life. And it is an essential tool for therapists, counselors, teachers, doctors and anyone in the helping professions who encounter marijuana users in their work.
