The untold story of the Ya'mas, Israel's special forces undercover team that infiltrated Palestinian terrorist strongholds during the Second Intifada. It was the deadliest terror campaign ever mounted against a nation in modern times: the al-Aqsa, or Second, Intifada. This is the untold story of how Israel fought back with an elite force of undercover operatives, drawn from the nation's diverse backgrounds and ethnicities--and united in their ability to walk among the enemy as no one else dared. Beginning in late 2000, as black smoke rose from burning tires and rioters threw rocks in the streets, Hamas, Islamic Jihad, and Arafat's Palestinian Authority embarked on a strategy of sending their terrorists to slip undetected into Israel's towns and cities to set the country ablaze, unleashing suicide attacks at bus stops, discos, pizzerias--wherever people gathered. But Israel fielded some of the most capable and cunning special operations forces in the world. The Ya'mas, Israel National Police Border Guard undercover counterterrorists special operations units, became Israel's eyes-on-target response. Launched on intelligence provided by the Shin Bet, indigenous Arabic-speaking Dovrim, or "Speakers," operating in the West Bank, Jerusalem, and Gaza infiltrated the treacherous confines where the terrorists lived hidden in plain sight, and set the stage for the intrepid tactical specialists who often found themselves under fire and outnumbered in their effort to apprehend those responsible for the carnage inside Israel. This is their compelling true story: a tale of daring and deception that could happen only in the powder keg of the modern Middle East. INCLUDES PHOTOGRAPHS AND MAPS

rundown tech, lots of rules, and not much to do. His worrywart Uncle Moti and bionic lioness Besa are his only family friends. Often in trouble for his thrill-seeking antics and wisecracking sense of humor, those same qualities make Yared a star of the underground augmented reality game, The Hunt for Kaleb's Obelisk. But when a change in the game rules prompts Yared to log in with his real name, it triggers an attack that rocks the city. In the chaos, Uncle Moti disappears. Suddenly, all the legends Yared's uncle told him as a young boy are coming to life, of kingdoms in the sky and city-raiding monsters. And some of them are the center of them. Together with Besa and the Ibis -- a game rival turned reluctant ally -- Yared must search for his answers to his place in a forgotten, galaxy-spanning war.

influential women we thought we knew well—Jane Jacobs, Rachel Carson, Jane Goodall, and Alice Waters—and how they spearheaded the modern progressive movement This is the story of four visionaries who profoundly shaped the world we live in today. Together, these women—linked not by friendship or field, but by their choice to break with

convention—showed what one person speaking truth to power can do. Jane Jacobs fought for livable cities and strong

communities; Rachel Carson warned us about poisoning the environment; Jane Goodall demonstrated the indelible kinship between humans and animals; and Alice Waters urged us to reconsider what and how we eat. With a keen eye for historical detail, Andrea Barnet traces the arc of each woman's career and explores how their work collectively changed the course of history. While they hailed from different generations, Carson, Jacobs, Goodall, and Waters found their voices in the early sixties. At a time of enormous upheaval, all four stood as bulwarks against 1950s corporate culture and its war on nature. Consummate outsiders, each prevailed against powerful and mostly male adversaries while also anticipating the disaffections of the emerging counterculture. All told, their efforts ignited a transformative progressive movement while offering people a new way to think about the world and a more positive way of living in it. "This beautifully illustrated book is a collection of quotes from 50 inspirational Black women who have shaped the world we live in, from Toni Morrison to Angela Davis, from Solange and Beyonce Knowles to Meghan, the Duchess of Sussex"--

The Power of Little Ideas

Conventional wisdom today says that to survive, companies must move beyond incremental, sustaining innovation and invest in some innovation. "Disrupt yourself or be disrupted!" is the relentless message company leaders hear. The Power of Little Ideas argues there that is neither sustaining nor disruptive. This low-risk, high-reward strategy is an approach to innovation that all company leaders should so that they recognize it when their competitors practice it, and apply it when it will give them a competitive advantage. This distinctive three key elements: It consists of creating a family of complementary innovations around a product or service, all of which work together to make the product more appealing and competitive. The complementary innovations work together as a system to carry out a single strategy or unlike disruptive or radical innovation, innovating around a key product does not change the central product in any fundamental way. In this practical book, Wharton professor David Robertson illustrates how many well-known companies, including CarMax, GoPro, LEGO, Gatorade, USAA, Novo Nordisk, and many others, used this approach to stave off competitive threats and achieve great success. He outlines the practices that unintentionally torpedo this approach to innovation in many companies and shows how organizations can overcome them. Aimed at leaders seeking strategies for sustained innovation, and at the quickly growing numbers of managers involved with creating it, The Power of Little Ideas provides a logical, organic, and enduring third way to innovate.

Digital technology is now so pervasive that it's very hard to escape its influence, and with that growth comes fear. But whatever the fear about data and technology, think again. Data expert and tech insider Sam Gilbert shows that, actually, this data revolution could be the best that has ever happened to us.
