Acclaimed American documentary photographer Mary Ellen Mark made her first iconic photographs when living in Turkey on a Fulbright Fellowship in the mid-1960s. Her pictures of Bombay brothels, shot in the late 1970s, were published in 1981 in Falkland Road, a book that became legendary and confirmed her status as one of the most prominent and provocative documentary photographers working today. This book presents for the first time a selection of the strongest pictures of Mark's forty-year career, drawing from emblematic series such as "Falkland Road," "Indian Circus," and "Twins," as well as many previously unpublished images. The photographs are accompanied by an introduction by Weston Naef and a text by Mark that provides context and behind-the-scene anecdotes. Together her images and words provide intimate insights into the lives of others, presenting compelling stories of human strength and suffering.

Sally Bennett has been a composer, musician, playwright, model, actress, poet, radio & TV personality. In this book the author has put together a spectacular account of the highlights of her life & career.

Classes, Culture, and Politics investigates those fields in British history that have been illustrated by the works of Ross McKibbin, one of the foremost historians of twentieth century Britain. Written by a distinguished team of scholars, it examines McKibbin's life and thought, and explores the implications of his arguments. One of his most important achievements has been to break down the artificial barriers that existed between 'social' and 'political' history, in order to enrich the writing of both; that legacy is reflected throughout this volume. From international football to Liberal internationalism, from the hedonism of the early Labour party to the relationship between London cabbies and Thatcherism, this volume is an ambitious attempt to explore contemporary Britain, endeavouring to be as original, unsycophantic, rebarbative, and diverting as the historian whose work has inspired it.

Lonely Planet Best of Great Britain is your passport to the most relevant, up-to-date advice on Great Britain's top experiences. Ponder the mysteries of Stonehenge, explore the many sides of Edinburgh, or be charmed by the Lake District; all with your trusted travel companion.

Sarah Miles was illegitimate, and of distant royal descent. Her childhood wasn't easy - she was dyslexic with a severe stammer - and rebellion was her means of expression. In London she revealed a talent for acting. This book is the first part of a two-volume autobiography.

As religious fervor grows, Dr. Fishwick, a recipient of the Ray and Pat Browne Award for Lifetime Achievement from The American Culture Association, takes a sweeping look at religion in the United States--the country with the highest church attendance in the Western world. Popular religion can take many shapes and forms. It can wax and wane, but it cannot be eliminated or ignored. That is what prompted him to write Great Awakenings: Popular Religion and Popular Culture. He ponders how religion affects American life and popular culture, and why religion has become a major force in contemporary politics. How has the Electronic Revolution furthered the religious right? What does popular religion tell us about popular culture? And about our faith? He identifies and explores five great religious revivals or "Great Awakenings:" the Atlantic Seaboard Awakening the Urban Awakening the Modernist Awakening the Celebrity Preacher Awakening the Electronic Awakening Fishwick explores the current events preceding and during each awakening, its leaders, followers, and critics. Great Awakenings gives a new understanding of the American religious past and leaves us with an anticipation for the next great awakening.

The international bestselling Russian fantasy author continues the adventures of Sir Max, the lazy gumshoe of the enchanted Echo. The tales of Sir Max, who was a daydreaming loser before he discovered the parallel world of Echo, have become an international literary sensation. In the second novel of the Labyrinths of Echoes series, Max is still a hardened smoker, glutton around loafer. But once again, he finds himself travelling to an alternate universe where he must root out illegal magic as an agent of the Secret Investigative Force. This time, Sir Max is called upon to handle a peculiar political dispute, investigate strange happenings at the cemetery, and when Echo's police captain is poisoned, he must lead a team of magicians in pursuit of magical outlaws. "Echo is a world of all sorts of plots, a sort of Krypton with tobacco and the counter-universe's equivalent of vodka." —Kirkus Reviews. Nothing embodies triumphant British spirit and tradition like the Royal Family. In the last few years we have enjoyed a vintage which saw Britain celebrate a Royal wedding, the Queen's Diamond Jubilee and the wildly successful Olympic opening ceremony whilst the birth of a child to Prince William and the Duchess of Cambridge heralds a new dawn for the family. Arthur Edwards documents all these moments and more with this beautiful follow-up to Magic Moments. The unique blend of jubilation and nostalgia that only the Royals can inspire is chronicled in a stunning collection of photographs capturing some of the most poignant and memorable events of the last few years. As royal photographer for the Sun since 1977, Arthur Edwards has managed to establish a rapport with the Royals, and his popularity with the family is reflected in the MBE he has since received at Buckingham Palace. Arthur's privileged position has not only yielded a trove of magnificent colour photographs but has given him access to exclusive and fascinating stories about the monarchy. Filled with stunning glossy pictures and illuminating inside information, Magical Moments is a wonderful keepsake and an essential piece of memorabilia for those who want to relive the most special moments in recent British history.

Arthur Edwards has been Royal Photographer for Britain's best-selling daily newspaper, The Sun, for more than 30 years. He has captured the most poignant and memorable moments in the recent history of the monarchy, including such happy and loving occasions as the start of Charles and Diana's marriage, Prince William's first steps, and Prince Harry's first day at Eton. His images range from candid shots to intimate portraits of rare moments when protocol is put aside and the mask of duty slips to reveal the true person behind the public figures. Arthur's tremendous career has made him a most familiar face on the Royal circuit. Princess Diana called him "our Arthur" and Prince Charles introduces him to world leaders when they are on royal tours. Arthur also has some of the most fascinating stories to go with his years' worth of magical and momentous pictures. He was there when Patti Palmer-Tomkins announced to the assembled press that her "Uncle Harry" would be joining her party—and out stepped Prince Charles wearing glasses, nose, and moustache. Assembled here is a comprehensive collection of photographs and images, accompanied by Arthur's words, which together provide a valuable insider's account of the history of the British royal family.

Out in the midst of the ocean, rising out of the rough seas, lies a mysterious island. It has seen visitors over the years, and has learned to fear them. Humans have done nothing but take, stealing the island's magic and enslaving its spirits. Caliban, born to a great sorceress who was marooned on the island's shores, grew up half-wild with its creatures. Having escaped the island to live amongst kingdoms and courtiers for many years, he now finds himself returning with his young charge Chiara, a girl who has a power within her that no one suspected. Once back on the island they are joined by Calypso, a magical young woman with ties to them all. Inspired by *The Tempest*, Shakespeare's famous play of love, loyalty, and magic, it is the island and its power that draws them all back. But this time the dragon who lives at the bottom of the sea has been awakened and must be satisfied. It will be up to the humans to strike a balance between their power and the natural world.

This is a book about the long cultural shadow cast by a single bestselling novel, Anthony Hope's *The Prisoner of Zenda* (1894), which introduced Ruritania, a colourful pocket kingdom. In this swashbuckling tale, Englishman Rudolf Rassendyll impersonates the king of Ruritania to foil a coup, but faces a dilemma when he falls for the lovely Princess Flavia. Hope's novel inspired stage and screen adaptations, place names, and even a board game, but it also launched a whole new subgenre, the "Ruritanian romance". The new form offered swordplay, royal romance, and splendid uniforms and gowns in such settings as Alasia, Balaria, and Cadonia. This study explores both the original appeal of *The Prisoner of Zenda*, and the extraordinary longevity and adaptability of the Ruritanian formula, which, it is argued, has been rooted in a lingering fascination with royalty, and the pocket kingdom's capacity to hold a looking glass up to Britain and later the United States. Individual chapters look at Hope's novel and its stage and film adaptations; at the forgotten American versions of Ruritania; at the chocolate-box principalities of the musical stage; at Cold War reworkings of the formula; and at Ruritania's recent reappearance in young adult fiction and made-for-television Christmas movies. The adventures of Ruritania have involved a diverse list of contributors, including John Buchan, P.G. Wodehouse, Agatha Christie, Vladimir Nabokov, and Ian Fleming among the writers; Sigmund Romberg and Ivor Novello among the composers; Erich Von Stroheim and David O. Selznick among the film-makers; and Robert Donat, Madeleine Carroll, Peter Ustinov, Peter Sellers, and Anne Hathaway among the performers.

First published in 1976. This title brings the Victorian era to life with stories of its spectacular leading magicians, conjurers, illusionists, escapologists, scientific experimenters and tricksters. Geoffrey Lamb describes the kind of people they were and the kind of things they did, whilst keeping intact the mystery surrounding their feats. This skilful reconstruction of this branch of nineteenth-century entertainment gives us a fascinating insight into Victorians and how they liked to be amused. This title will be of interest to students of history.

This multidisciplinary collection of essays explores the functions, meanings and use of images and objects in various late Medieval and Early Modern social practices, which were linked by their ritual character. The book approaches 'ritual' as an action which is discussed under the general umbrella term "performative practice", and is characterised by a synthesis between the repetitive and the extraordinary that carries an intense symbolic meaning and is emotionally charged. Images, spaces and rituals were closely interconnected in both the religious and the secular spheres, and played a relevant role in the symbolic communication of the time. The essays in this volume are devoted to a complex study of these phenomena in Northern and Central Europe, including regions which, due to linguistic or cultural barriers, have thus far received comparatively little attention in Anglo-American scholarship, including Scandinavia, Poland and the Baltic states.

On a very usual day, on a very usual school trip to Hampton Court Maze, there is a very unusually named girl called Victoriana Elizabeth Alice Royal. At least she can concentrate on history today and learn new facts as she wanders the maze. But little does Victoriana know that history will come alive for her in a way it never has before...

A fascinating exploration of the role that magic has played in the history of Buddhism As
far back as we can see in the historical record, Buddhist monks and nuns have offered
services including healing, divination, rain making, aggressive magic, and love magic to
local clients. Studying this history, scholar Sam van Schaik concludes that magic and
healing have played a key role in Buddhism's flourishing, yet they have rarely been
studied in academic circles or by Western practitioners. The exclusion of magical
practices and powers from most discussions of Buddhism in the modern era can be seen as
part of the appropriation of Buddhism by Westerners, as well as an effect of
modernization movements within Asian Buddhism. However, if we are to understand the way
Buddhism has worked in the past, the way it still works now in many societies, and the
way it can work in the future, we need to examine these overlooked aspects of Buddhist
practice. In Buddhist Magic, van Schaik takes a book of spells and rituals--one of the
earliest that has survived--from the Silk Road site of Dunhuang as the key reference
point for discussing Buddhist magic in Tibet and beyond. After situating Buddhist magic
within a cross-cultural history of world magic, he discusses sources of magic in Buddhist
scripture, early Buddhist rituals of protection, medicine and the spread of Buddhism, and
magic users. Including material from across the vast array of Buddhist traditions, van
Schaik offers readers a fascinating, nuanced view of a topic that has too long been
ignored.
