Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey

They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life

With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Hogan shows that God's way of managing money really works. Millionaire status doesn't require inheriting a bunch of money or having a high-paying job. The path to becoming a millionaire is paved with tools that you either already have or that you can learn. Take personal responsibility; practice intentionality; be goal-oriented, a hard worker; and

be consistent. If you adopt this mindset, you, too, can become a millionaire. -- adapted from foreword and introduction

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover."

—Lifemaker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect,

Where To Download Millionaire By Thirty: The Quickest Path To Early Financial Independence

incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- * Create profitable side hustles that you can turn into passive income streams or full-time businesses
- * Save money without giving up what makes you happy
- * Negotiate more out of your employer than you thought possible
- * Travel the world for less

Where To Download Millionaire By Thirty: The Quickest Path To Early Financial Independence

Live for free--or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

Pulitzer-Prize-winning journalist Gilbert M. Gaul offers a riveting and sometimes shocking look inside the money culture of college football and how it has come to dominate a surprising number of colleges and universities. Over the past decade college football has not only doubled in size, but its elite programs have become a \$2.5-billion-a-year entertainment business, with lavishly paid coaches, lucrative television deals, and corporate sponsors eager to slap their logos on everything from scoreboards to footballs and uniforms. Profit margins among the top football schools range from 60% to

75%—results that dwarf those of such high-profile companies as Apple, Facebook, and Microsoft—yet thanks to the support of their football-mad representatives in Congress, teams aren't required to pay taxes. In most cases, those windfalls are not passed on to the universities themselves, but flow directly back into their athletic departments. College presidents have been unwilling or powerless to stop a system that has spawned a wildly profligate infrastructure of coaches, trainers, marketing gurus, and a growing cadre of bureaucrats whose sole purpose is to ensure that players remain

academically eligible to play. From the University of Oregon's lavish \$42 million academic center for athletes to Alabama coach Nick Saban's \$7 million paycheck—ten times what the school pays its president, and 70 times what a full-time professor there earns—Gaul examines in depth the extraordinary financial model that supports college football and the effect it has had not only on other athletic programs but on academic ones as well. What are the consequences when college football coaches are the highest paid public employees in over half the states in an economically troubled country,

Talking about money sucks; but so does being broke. Do your eyes glaze over just thinking about the mumbo-jumbo of finance? Do you break out into hives at the thought of money? Well, sister, you are not alone. In RICH BITCH, money expert and financial journalist Nicole Lapin lays out a 12-Step Plan in which she shares her experiences, mistakes and all, of getting her own finances in order. No lecturing, just help

from a friend. And even though money is typically an off-limits conversation, nothing is off-limits here. Lapin rethinks every piece of financial wisdom you've ever heard and puts her own fresh, modern, sassy spin on it. Sure, there are some hard-and-fast rules about finance, but when it comes to your money, the only person who can spend it is you. Should you invest in a 401(k)? Maybe not. Should you splurge on that morning latte? Likely yes. Instead of nickel-and-diming yourself, Nicole's advice focuses on investing in yourself so you don't have to stress over the little things. But in order to do that, you have to be able to speak the language of money. After all, money is a language like anything else, and the sooner you can join the conversation, the sooner you can live the life you want, RICH BITCH rehabs whatever

bad habits you might have and provides a plan you can not only sustain, but thrive with. It's time to go after the rich life you deserve, and confident enough to call yourself a RICH BITCH.
