*The classic book on the development of human language by the world's leading expert on language and the mind. In this classic, the world's expert on language and mind lucidly explains everything you always wanted to know about language: how it works, how children learn it, how it changes, how the brain computes it, and how it evolved. With deft use of examples of humor and wordplay, Steven Pinker weaves our vast knowledge of language into a compelling story: language is a human instinct, wired into our brains by evolution. The Language Instinct received the William James Book Prize from the American Psychological Association and the Public Interest Award from the Linguistics Society of America. *From renowned Newbery-winning author Jerry Spinelli comes a powerful story about how not fitting in just might lead to an incredible life. This classic book is perfect for fans of Gordon Korman and Carl Hiaasen. Just like other kids, Zinkoff rides his bike, hopes for snow days, and wants to be like his dad when he grows up. But Zinkoff also raises his hand with all the wrong answers, trips over his own feet, and falls down with laughter over a word like "Jabip." Other kids have their own word to describe him, but Zinkoff is too busy to hear it. He doesn't know he's not like everyone else. And one winter night, Zinkoff's differences show that any name can someday become "hero." With some of his finest writing to date and great wit and humor, Jerry Spinelli creates a story about a boy's individuality surpassing the need to fit in and the genuine importance of failure. As readers follow Zinkoff from first through sixth grade, it becomes impossible not to identify with and root for him through failures and triumphs. The perfect classroom read.*
