

Noah's Car Park Ark: A Multi Storey Story

Ali Bobrow is an otherworldly single parent with an overwrought nine-year-old daughter, a malevolent ex and his grabby new wife, and an underused artistic talent. A pushover when it comes to needy neighbors and uninvited children, she allows her house to be the local drop-in center, until she collides with Noah Glazer, who falls for her pale red hair. A solid man of science, Noah walks into her over-populated life bringing good sense, order, and security. But ten years later, Ali is drawn back into the complexities of her past; an old lover, two ex-spouses, a colleague from clown school, and a small smuggled cat all help to rock the boat. "Why did it take me so long to discover the singular joys of Barbara Trapido's novels? Why, for so many years, had I missed these witty, soulful, heartbreaking, expansive, brilliant tales? I have become a literary evangelist on her behalf." --Elizabeth Gilbert

Born in Brussels and trained by his grandmother, Jan Brueghel the Elder (1568-1625) was called "Velvet Brueghel" for his skill at painting rich and delicate textures. The story of Noah's ark provided a subject well suited to Brueghel's abilities. In his painting, a few curious villagers stand beside a stream, which foreshadows the coming deluge, and watch as Noah herds ostriches, goats, camels, and other exotic animals toward the ark. Next to a prancing white stallion, a lion and lioness chase each other's tails, while a pair of leopards frolic under the watchful eye of a bull. Brueghel has created a delightful scene

celebrating the beauty and variety of creation. This monograph takes an interdisciplinary approach to the study of Brueghel's fascinating paradise landscape, exploring Renaissance zoology, religious views on nature, and the culture of collecting and cataloguing animals and natural specimens. The volume is brilliantly illustrated with paintings of landscapes and animals by artists such as Albrecht Dürer, Peter Paul Rubens, and Lucas Cranach the Elder as well as by Brueghel himself. It presents an overview of the tradition of this type of painting and discusses both the cultural context and the artist's background, crucial to understanding Brueghel's approach to nature.

This worldwide study examines how religion gets into theme parks – as mission, as an aspect of culture, as fable, and by chance. Gods and Rollercoasters analyses religion in theme parks, looking at how it relates to modernism, popular culture, right-wing politics, nationalism, and the rise of the global middle class. Crispin Paine argues that religion has discovered a major new means of expression through theme parks. From the reconstruction of Biblical Jerusalem at the Holy Land Experience in Orlando, through the world of Chinese mythology at Haw Par Villa in Singapore, to the great temple/theme park Akshardham in New Delhi, this book shows how people are encountering and experiencing religion in the context of fun, thrills and leisure time. Drawing on examples from six of the seven continents, and exploring religious traditions including Christianity, Daoism, Buddhism, Hinduism and Islam, Gods and Rollercoasters provides a significant contribution to the study of religion, sociology, anthropology, and

An idyllic island holds a dark secret . . . - On a hot August day in 1994, 76 holidaymakers travel to an island off the North Norfolk coast. Only 75 return alive - a young man is murdered, the case left unsolved. Twenty years later, using state-of-the-art forensics, the DNA results of a bloodsoaked towel prompts DI Peter Shaw to summon all 75 original suspects to a mass screening, but one of them, the beautiful Marianne Osbourne, is found dead in her bed. Is there a link to the 1994 murder? DI Shaw and DS Valentine become immersed in the dark secrets of an isolated community.

Acclaimed travel writer Rick Antonson sets his adventurous compass on Mount Ararat, exploring the region's long history, religious mysteries, and complex politics. Mount Ararat is the most fabled mountain in the world. For millennia this massif in eastern Turkey has been rumored as the resting place of Noah's Ark following the Great Flood. But it also plays a significant role in the longstanding conflict between Turkey and Armenia. Author Rick Antonson joined a five-member expedition to the mountain's nearly 17,000-foot summit,

trekking alongside a contingent of Armenians, for whom Mount Ararat is the stolen symbol of their country. Antonson weaves vivid historical anecdote with unexpected travel vignettes, whether tracing earlier mountaineering attempts on the peak, recounting the genocide of Armenians and its unresolved debate, or depicting the Kurds' ambitions for their own nation's borders, which some say should include Mount Ararat. What unfolds in Full Moon Over Noah's Ark is one man's odyssey, a tale told through many stories. Starting with the flooding of the Black Sea in 5600 BCE, through to the Epic of Gilgamesh and the contrasting narratives of the Great Flood known to followers of the Judaic, Christian and Islamic religions, Full Moon Over Noah's Ark takes readers along with Antonson through the shadows and broad landscapes of Turkey, Iraq, Iran and Armenia, shedding light on a troubled but fascinating area of the world. Stranded at Schiphol airport, Ben Coates called up a friendly Dutch girl he'd met some months earlier. He stayed for dinner.

Actually, he stayed for good. In the first book to consider the hidden heart and history of the Netherlands from a modern perspective, the author explores the length and breadth of his adopted homeland and discovers why one of the world's smallest countries is also so significant and so fascinating. It is a self-made country, the Dutch national character shaped by the ongoing battle to keep the water out from the love of dairy and beer to the attitude to nature and the famous tolerance. Ben Coates investigates what makes

the Dutch the Dutch, why the Netherlands is much more than Holland and why the color orange is so important. Along the way he reveals why they are the world's tallest people and have the best carnival outside Brazil. He learns why Amsterdam's brothels are going out of business, who really killed Anne Frank, and how the Dutch manage to be richer than almost everyone else despite working far less. He also discovers a country which is changing fast, with the Dutch now questioning many of the liberal policies which made their nation famous.

This is the story of a journey following the Silk Road, from Europe to China, beginning in London. The real journey starts in Istanbul, winding through the history and countryside of Turkey and over the border into Iran, to experience its rich history and architecture. There are bizarre experiences of the beautiful, modern but empty city of Ashgabat, and much more. A trip to the disappearing Aral Sea, is followed by immense architecture and history, across a land fought over by Alexander the Great, Tamarind and Genghis Khan. There is the enchanting mountains of Kyrgyzstan, with its beautiful mountains and lakes, known as Asia's little Switzerland. The scene slowly changes as the Muslim influence gives way to Han Chinese dominance, the Great Wall of China and the end of the Silk Road.

Historian Anna Bennett has a book to write. She also has an insomniac toddler, a precocious, death-obsessed seven-year-old, and a frequently absent ecologist husband who has brought them all to Colsay, a desolate island in the Hebrides, so he can count the puffins. Ferociously sleep-deprived, torn between mothering and her desire for the pleasures of work and

solitude, Anna becomes haunted by the discovery of a baby's skeleton in the garden of their house. Her narrative is punctuated by letters home, written 200 years before, by May, a young, middle-class midwife desperately trying to introduce modern medicine to the suspicious, insular islanders. The lives of these two characters intersect unexpectedly in this deeply moving but also at times blackly funny story about maternal ambivalence, the way we try to control children, and about women's vexed and passionate relationship with work. Moss's second novel displays an exciting expansion of her range - showing her to be both an excellent comic writer and a novelist of great emotional depth.

This guidebook offers 20 sportive cycling routes in the best cycling areas of south east England. A Story about Love

I Fail to Miss Your Point

"Morning's Glory" is a novel: 55 000 words of sex, politics, and religion in, of all places, a suburban church. It's written for educated women aged 30 and over, and will fascinate men and teenagers. It's fiction that breaks new ground - there has never been a sexy Christian romance before. For all its passion, it's entirely moral."--Dust-jacket.

London 2012 Olympic and Paralympic Games sailing events, the profile of the area will be raised considerably in the years leading up to the Games. Weymouth's seaside history and heritage will be a focus of attention and will contribute significantly to the regeneration of the town in the coming years. Weymouth has been a popular seaside resort for over 250 years. Likened to Montpelier and Naples for its natural beauty and healthy climate, it received the endorsement of King George III. His presence helped the town to expand rapidly in the late 18th and early 19th centuries, resulting in a stunning legacy of seafront terraces that continue to provide accommodation for thousands of holidaymakers each year. Weymouth boasts an eclectic mix of medieval town planning, harbour-side industry and former military sites that have had an impact on the town's development as a seaside resort. Many of the buildings associated with declining brewing and maritime industries have now been redeveloped and serve as amenities and accommodation for residents and visitors. An English Heritage opinion poll in 2007 found that seventy-five per cent of respondents felt that 'the historic character of seaside towns is what makes

them beautiful and enjoyable'. This book describes the colourful story of Weymouth's seaside history and the buildings and open spaces that survive to tell this story. It also demonstrates how the historic environment can play an important part in the future development of the town.

Now in a revised and updated second edition, Early Listening Skills is a practical manual for use with children and young people with underdeveloped listening skills related to hearing loss. Thirteen clear and easy to follow sections focus on skills such as auditory detection, discrimination, recognition, sequencing and memory. Each one is filled with a series of carefully designed activities to stimulate and develop auditory awareness and discrimination skills in children with a range of developmental levels and abilities. Features include: A wide range of activities suited to both the early years and home settings Links to the Early Years Foundation Stage (EYFS) framework and topics reflecting the EYFS and Key Stage 1 curriculum

Photocopiable material designed to document the child's development over time As most of the activities are non-verbal, they are well suited for children with limited spoken language as well as children with special educational needs and disability and English as an additional language (EAL) learners.

Whilst primarily designed for early years practitioners, special educational needs co-ordinators (SENCOs), specialist teachers, therapists and other professionals, the activity sheets and guidance also make it an invaluable tool for parents and caregivers looking to stimulate listening skills at home.

From the Great Depression through the early postwar years, any postcard sent in America was more than likely a "linen" card. Colorized in vivid, often exaggerated hues and printed on card stock embossed with a linen-like texture, linen postcards celebrated the American scene with views of majestic landscapes, modern cityscapes, roadside attractions, and other notable features. These colorful images portrayed the United States as shimmering with promise, quite unlike the black-and-white worlds

of documentary photography or Life magazine. Linen postcards were enormously popular, with close to a billion printed and sold. Postcard America offers the first comprehensive study of these cards and their cultural significance. Drawing on the production files of Curt Teich & Co. of Chicago, the originator of linen postcards, Jeffrey L. Meikle reveals how photographic views were transformed into colorized postcard images, often by means of manipulation—adding and deleting details or collaging bits and pieces from several photos. He presents two extensive portfolios of postcards—landscapes and cityscapes—that comprise a representative iconography of linen postcard views. For each image, Meikle explains the postcard’s subject, describes aspects of its production, and places it in social and cultural contexts. In the concluding chapter, he shifts from historical interpretation to a contemporary viewpoint, considering nostalgia as a motive for collectors and others who are fascinated today by these striking images.

This book explores imaginative ways to expand children's experience through play. It incorporates ideas using role play corners to develop language skills and cross-curricular work.
