My First Money Book is an awesome read for all ages! it is filled with catchy rhymes and fun pictures, but the message it presents is truly valuable. This book serves as a parent's and children's guide to saving, spending, sharing and investing money. The road to rearing money smart children begins here!

People don't give to church because we don't offer them a compelling vision of the good their giving will achieve. Hearing a young attorney speak of the faithbased reasons for which he had just made a substantial monetary gift to a community youth center, Clif Christopher asked the speaker if he would consider making a similar contribution to the congregation of which he was an active member. “Lord, no they would not know what to do with it” was the answer. That, in a nutshell, describes the problem churches are facing in their stewardship efforts, says Christopher. Unlike leading nonprofit agencies and institutions, we too often fail to convince potential givers that their gifts will have impact and significance. In this book, Christopher lays out the main reasons for this failure to capture the imagination of potential givers, including our frequent failure simply to ask. Written with the needs of pastors and stewardship teams in mind, Not Your Parents' Offering Plate provides immediate, practical guidance to all who seek to help God's people be better stewards of their resources.

Winning Strategies to Make Your Money Last a Lifetime

The Gardener and the Carpenter

Every year, millions of Americans transfer their finances to their children or other family members because they reach a point at which they can no longer manage them alone. For those who are about to start managing the finances of their parents, it is important to know exactly how to protect their assets, manage their taxes, and live up to their wishes. This book has been written to do just that, providing a comprehensive walkthrough of what you can expect and how to successfully handle your parents finances. To start, you must learn the basics of managing money that is not your own. You will be provided with a step-by-step chapter on how to keep track of funds, maintain the same accounting methods your parents have used for decades, and keep everything organized and separate from your own. You will learn how to evaluate sources of income including how to receive and manage Social Security, 401(k), and other retirement plans as payments are made. Additionally, you will learn how to balance their expenses, including a budgeting sheet to help you maintain the same level of expense they expect. You will learn how to budget accordingly, depending on where your parents are living and what their medical expenses might be. A chapter on insurance and medical coverage is included to help you understand how much money you can expect to set aside for these expenses and how much should be covered by programs such as Medicaid. Learn how to maintain housing for your parents as well, whether they are in assisted living or staying with you. A guide on how to talk to your parents about fraud and keep them away from potentially dangerous opportunities will make it easier for you to keep a handle on their finances without taking away their freedom. Dozens of men and women who have gone through this same situation, and also professional finance managers, have added their expertise to this book, providing firsthand accounts of how they were able to manage their own parents accounts and what you can expect. You will learn the difference in tax laws for the retired and what you will be required and not required to pay as a result of their age. It can be daunting when you first take control of your parents finances, but with this book in your hands, you should be able to quickly and efficiently take the reins and maintain the quality of life they have grown accustomed to. Not Your Parents' Money Book Making, Saving, and Spending Your Money Simon and Schuster

Doepke and Zilibotti investigate how economic forces shape how parents raise their children. They show that in countries with increasing economic inequality, such as the United States, parents push harder to ensure their children have a path to security and success. Economics has transformed the hands-off parenting of the 1960s and '70s into a frantic, overscheduled activity. Growing inequality has also resulted in an increasing 'parenting gap' between richer and poorer families, raising the disturbing prospect of diminished social mobility and fewer opportunities for children from disadvantaged backgrounds. The authors discuss how investments in early childhood development and the design of education systems factor into the parenting equation, and how economics can help shape policies that will contribute to the ideal of equal opportunity for all. --From publisher description.

As *The Giving Tree* turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio*, the *Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half*, *Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Rabbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic*!

What the New Science of Child Development Tells Us About the Relationship Between Parents and Children

Get a Financial Life

New York Times Bestseller "We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents." —Gretchen Rubin, author of *The Happiness Project* In the spirit of Wendy Mogel's *The Blessing of a Skinned Knee* and Po Bronson and Ashley Merryman's *Nurture Shock*, New York Times "Your Money" columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from families with a range of incomes, *The Opposite of Spoiled* is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled, and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But *The Opposite of Spoiled* is also a promise to our kids that we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don't know how and when to start.

Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of *Debt-Free U*—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, *Really Broke Housewives*, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

My First Money Book

#1 NEW YORK TIMES BESTSELLER #1 INTERNATIONAL BESTSELLER A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother's dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called "calorie restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, "Your eyelashes are invisible, okay? You think Dakota Fanning doesn't tint hers?" She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I'm Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called *iCarly*, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi ("Hi Gale!"), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the *iCarly* spinoff *Sam & Cat* alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

Jean Chatzky offers advice to middle schoolers about their personal finances, describing ways to make, save, and spend money responsibly. Thousands of books have examined the effects of parents on their children. In *All Joy and No Fun*, award-winning journalist Jennifer Senior now asks: what are the effects of children on their parents? In *All Joy and No Fun*, award-winning journalist Jennifer Senior tries to tackle this question, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their internal senses of self. She argues that changes in the last half century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources—in history, sociology, economics, psychology, philosophy, and anthropology—she dissects both the timeless strains of parenting and the ones that are brand new, and then brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations—and luxuriate in some of its finest rewards. Meticulously researched yet imbued with emotional intelligence, *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. By focusing on parenthood, rather than parenting, the book is original and essential reading for mothers and fathers of today—and tomorrow.

Thinking small, being obedient, and coloring within the lines are considered virtues in the classroom and for anyone looking to get a job in a cubicle. And they do not move out of their parents' house after high school graduation. Perfect Mexican daughters never abandon their family. But Julia is not your perfect Mexican daughter. That was Olga's role. Then a tragic accident on the busiest street in Chicago leaves Olga dead and Julia left behind to reassemble the shattered pieces of her family. And no one seems to acknowledge that Julia is broken, too. Instead, her mother seems to channel her grief into pointing out every possible way Julia has failed. But it's not long before Julia discovers that Olga might not have been as perfect as everyone thought. With the help of her best friend Lorena, and her first love, first everything boyfriend Connor, Julia is determined to find out. Was Olga really what she seemed? Or was there more to her sister's story? And either way, how can Julia even attempt to live up to a seemingly impossible ideal?

"Alison Gopnik, a ... developmental psychologist, [examines] the paradoxes of parenthood from a scientific perspective"-- This completely revised and updated edition of *Don't Tell Me What To Do, Just Send Money* prepares parents for the issues that they will encounter during their children's college years. Since our original publication over ten years ago, there has been a dramatic increase in the use of cell phone and internet technology. The birth of the term "helicopter parent" is, in part, due to the instant and frequent connectivity that parents have with their children today. Parents are struggling with the appropriate use of communicative technology and aren't aware of its impact on their child's development, both personally and academically. With straightforward practicality and using humorous and helpful case examples and dialogues, *Don't Tell Me What To Do, Just Send Money* helps parents lay the groundwork for a new kind

of relationship so that they can help their child more effectively handle everything they'll encounter during their college years.

"Dr Philip Dembo presents in his new book, THE PARENT COACH, a model of parenting that finally addresses our nations ongoing crisis...We are raising children with little or no character or conscience. The generations of young people have little work ethic, little worry about how their actions affect others, and seem to want it all with little sacrifice. The book looks at the current parenting strategies as a contributor to the underdevelopment of children today. Parents, in all their effort to gain compliance from their children, are actually interfering with their development. What do we do now? How do we undo what we have been doing? THE PARENT COACH gives us a model that links the development of a child's "true voice" with his/her actual experience to the strategies of parents and their important role in "coaching" their child's journey through their own growth. A Parents' Guide for Kids 3 to 23

This is a parenting book for people who don't buy parenting books With straight-talking advice from renowned Psychotherapist Philippa Perry, How to be a Parent is the definitive guide for any parent looking to navigate their past, avoid repeating mistakes, and ensure they don't land their own kids in therapy. Through the combination of case studies, and therapeutic insight gained from over 20 years of working directly with clients, Perry tackles the wider issues of what it actually means to be a parent, rather than getting bogged down in the little details. This isn't a book about meeting developmental milestones, training your child to have enviable manners, or how to get the much idealised 'perfect' family, it's about creating functional relationships with your children so that they grow up feeling secure, knowing who they are and what they want - giving both them and you a shot at real happiness. Full of refreshing, sage and sane advice on the bigger picture of parenthood, How to be a Parent is the only book you'll ever really need to ensure you don't mess your kids up.

From Beth Kobliner, the author of the bestselling personal finance bible "Get a Financial Life" a new, must-have guide showing parents how to teach their children (from toddlers to young adults) to manage money in a smart way.

Personal finance is the bane of many people's existence but fear not. Leveling Up is a simple financial step-by-step system that will help you get your personal finances organized and, aim to make your life easier. It's more than just a budgeting book... It goes beyond trying to simply help you become debt-free. The goal is understanding your financial 'bigger picture'; spending habits, debt, credit, and showing you how to stay the course with strong, tested, and proven wealth-building habits. In this easy-to-understand financial literacy workbook, you'll discover: Ideas to identify and overcome any spending problems How to better manage money, and take control of your spending habits How to understand your credit and interest debts Straight forward strategies to pay off debt fast Simple financial exercises to build good financial habits A 90-day personal finance challenge with a detailed financial workout And so much more! Don't ignore your bank statements because the numbers aren't in your favor...yet. Do the work necessary to change your financial situation for the better and take control of your money once and for all. Leveling Up offers a straight no-nonsense approach to making your "cents" work for you, for a change.

Your Good Life Starts Now Live beyond your means but spend within them. Take your steady out for that \$350 dinner after the big promotion. You might just have to eat PB&J for a week to make it happen. Splurge when it makes sense. Buy the designer jeans you can't live without in your size, at full price. But you better walk away from last season's must-have sweater, even if it is 75 percent off! Make more money with your money. Invest in stocks to make the big bucks and start saving for retirement now. You want to be debt-free in your swinging sixties. Have it all . . . just not all at once. Want a Mercedes more than anything in the world? You can make it happen . . .but probably not while sharing a summer beach house with your friends. Finally a savvy, realistic finance book for those of us who love our Starbucks mocha lattes and Razr cell phones but don't want our Jimmy Choo shoes or Bose headphones buried under a pile of burgeoning debt. Twenty-something financial reporter Farnoosh Torabi tells you that you can satisfy your sophisticated tastes and achieve financial bliss. The key: prioritizing your expenses according to what you want the most—splurging when you can and saving on other things. From sensible grocery shopping (yes, you can have your organic yogurt and eat it, too!) to cyberbanking, empower yourself to live a guilt-free, Gucci- and gadget-clad good life without sacrificing financial security.

How to be a Parent

In this era of the Boomerang Generation, here at last is a full and frank guide to avoiding the need to move back in with your parents. Rob Carrick of The Globe and Mail is one of Canada's most trusted and widely read financial experts. His latest book is the first by anyone to target financial advice specifically at young adults graduating from university or college and moving into the workforce, into the housing market and into family life. Financial beginners, in other words. Carrick offers what can only be described as a wealth of information, on the full life cycle of financial challenges and opportunities young people face, including saving for a post-secondary education and paying off student debts, establishing a credit rating, basic banking and budgeting, car and home buying, marriage and raising children of their own, and insurance. The book is mindful throughout that parents have a big role to play in all this. It addresses young readers throughout but regularly asks them to see things from their parents' perspective. In that way, Rob Carrick is able

to offer advice to both generations. He even recognizes that in these difficult times, moving back in with the folks is sometimes a short-term necessity. So there is a section devoted to such important questions as: Should your parents be charging you rent? For that and many thousands of dollars' worth of other reasons, this is a book that every parent needs to buy for each of their kids, plus one for themselves.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right reasons—but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I go to college,” he replied, “I'm going to be rich.”

*Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.*
