The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film The United States vs. Billie Holiday and the documentary series The Fix. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. Chasing the Scream is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

Her mentor, Dr. Joan Kallas, is the hero of Nell's heart. Nell frequently finds herself standing in the doorway to Joan's office despite herself, mesmerized by Joan's elegance, success, and spiritual force. Surrounded by Nell's ex, her best friend, her best friend's boyfriend, and Joan's buffoonish husband, the two scientists are tangled together at the center of a web of illicit relationships, grudges, and obsessions. All six are burdened by desire and ambition, and as they collide on the university campus, their attractions set in motion a domino effect of affairs and heartbreak. Meanwhile, Nell slowly fills her empty apartment with poisonous plants to study, and she begins to keep a series of notebooks, all dedicated to Joan. She logs her research and how she spends her days, but the notebooks ultimately become a painstaking map of love. In a dazzling and unforgettable voice, Rebecca Dinerstein Knight has written a spellbinding novel of emotional and intellectual intensity.

Olivia always knew her younger sister would get into trouble. but she never realized the undercurrents of disaster would grow to a raging flood.... Olivia was always the sensible one. The responsible sister. She took after their father, a man as cold and driven as the Cape Cod wind, a man possessed by an inner need to be respected and successful. She would be the one to take over his million-dollar businesses. She would become the unwavering compass and resilient caretaker of the Logan family -- whether she wanted to or not. But Belinda belonged only to herself. Flighty, flirtatious, and possessed of a beauty that promised her a privileged life, Belinda was lavished with attention. Mother and Father, family friends, boys from school, they all adored Belinda. And as she matured into a young woman, her beauty became even more haunting. She vowed never to grow up, to remain forever an enchanting little girl to be worshiped and cared for. Then came that fateful night, when Olivia was awakened by the low whistle of the wind off the ocean...a whistle that became an unearthly wail coming from Belinda's bedroom. It was the tragic night that their father would forbid them to speak of ever again. The night they would never forget. The night that would send generations of Logans down an unavoidable path of lies, deceit, and heartbreak.

To get back up sometimes you have to fall down, hard . . . What's the point of pretending nothing has changed when everything has? It's the last summer before college, and Jonas Avery knows he should be excited. Instead, he hides out at home, avoiding his friends, his family, and everything that resembles his old life. Because nothing will be normal again—because of The Accident, when everything started falling apart. Brennan Davis knows she needs to stand up and face her anxiety—the deep, dark, debilitating dread that rules her everyday life. Because what stops her from going out into the world and just living is going to get a whole lot worse. She ’ s leaving for college in the fall, where she ’ ll be confronted with even more to worry about. When Jonas crashes into Brennan—in a harmless, albeit embarrassing fender bender—the two teens connect in ways they never expected. As friends, they help each other overcome their biggest falls and faults, and soon discover that while love can't fix everything, it's sometimes a place to start. Sensitive, wry, and unabashedly authentic, The Opposite of Falling Apart isn't about finding perfection in another person or fixing the things we think are broken. Instead, Micah Good has penned an enchantingly honest novel about accepting the very pieces of ourselves that make us unique, whole, and undeniably human.

Olivia Saves the Circus

A to Zoo: Subject Access to Children's Picture Books, 10th Edition

The Proposal meets Two Weeks Notice in Ann Marie Walker's new standalone romantic comedy, Black Tie Optional, which New York Times bestselling author Jennifer Probst calls, "a fun, sexy romp that will keep every reader entertained!" Everything about billionaire Coleman Grant III oozes power and sex. And not the perfunctory kind either, but the sheet clawing, heart stopping, gasping for air after you've screamed so loud you can't breathe kind. From his dark wavy hair that stands in an artfully rumpled mess, to the blue eyes that sear your skin, to his full, sensual lips - on the surface he's pure perfection. Too bad he's an asshole. An arrogant, uptight corporate raider hell bent on destroying the environment one species at a time. Everything about Olivia Ramsey screams hippie humanitarian. From her blond hair tied in a sloppy bun, to her faded jeans with the Bonnaroo patch sewn on the thigh, to her combat boots still splattered with mud from the previous day's site visit. So it makes perfect sense that they would get married. In Vegas. Stone-cold sober. Cole needs a wife. Olivia needs to save an endangered species. But what starts as a marriage of convenience soon turns into a battle of wills and sexual tension. Love is a game, and Olivia and Cole are ready to win.

“The ideal time to begin sharing books with children is during babyhood, even with children as young as six weeks.” —Starting Out Right National Research Council All parents hope to give their children the best possible start in life. Many of them know it’s a good idea to read to their children at a very young age, not with the goal of teaching their kids to read, but with the joy of having special time together looking at pictures and playing with words. Carefully chosen books that introduce children to the pleasures of language, simple story structure, and wonderful artwork are the foundation for a future love of books. Great Books for Babies and Toddlers is the first book of its kind—a guide to the best age appropriate children’s books available. Compiled by Kathleen Odean, former Chair of the Newbery Award Committee, Great Books for Babies and Toddlers provides lively annotations for more than five hundred books, divided into two helpful categories: Nursery Rhymes, Fingerplays, and Songs; and Picture-Story Books for the Very Young. With story selections ranging from such classics of children’s literature as Goodnight Moon and Where’s Spot? to excellent new books like How Does a Dinosaur Say Good Night? and Buzz!, Great Books for Babies and Toddlers will be more than a cherished guide for parents—it will also be a child’s first step in the lifelong adventure of reading.

This book finds itself being part of the rising tide of interest and investigation into the nature of relationship experience for siblings, same sex twins, and opposite sex twins. It illuminates adult opposite sex twinship that has been undervalued and even hidden.

So You Know WTF Is Going On in the World Today

Black Tie Optional

The instant New York Times bestseller and publishing phenomenon: Marina Keegan’s posthumous collection of award-winning essays and stories “sparkles with talent, humanity, and youth” (O, The Oprah Magazine). Marina Keegan’s star was on the rise when she graduated magna cum laude from Yale in May 2012. She had a play that was to be produced at the New York Fringe Festival and a job waiting for her at The New Yorker. Tragically, five days after graduation, Marina died in a car crash. Marina left behind a rich, deeply expansive trove of writing that, like her title essay, captures the hope, uncertainty, and possibility of her generation. Her short story “Cold Pastoral” was published on NewYorker.com. Her essay “Even Artichokes Have Doubts” was excerpted in the Financial Times, and her book was the focus of a Nicholas Kristof column in The New York Times. Millions of her contemporaries have responded to her work on social media. As Marina wrote: “We can still do anything. We can change our minds. We can start over...We’re so young. We can’t, we MUST not lose this sense of possibility because in the end, it’s all we have.” The Opposite of Loneliness is an unforgettable collection of Marina’s essays and stories that articulates the universal struggle all of us face as we figure out what we aspire to be and how we can harness our talents to impact the world. “How do you mourn the loss of a fiery talent that was barely a tendril before it was snuffed out? Answer: Read this book. A clear-eyed observer of human nature, Keegan could take a clever idea...and make it something beautiful” (People).

Resolving Money Conflicts in Your Life and Relationships

Heather There are two things in life that you can't outrun: death and taxes. The Factory sent me to Brazil to investigate a nun's questionable tax returns. But instead of finding simple tax fraud, I discovered a human trafficking ring. Great. Now I'm running from mercenaries intent on keeping their dirty little enterprise a secret. I'm in a world of trouble. My escape plane was shot down and now I'm on foot. All I have to do is escape the Amazon rainforest. Escape from giant anacondas ready to coil and squeeze me to death. Avoid fuzzy spiders with venomous fangs. Evade poison dart frogs with skin so toxic that one tiny frog can kill ten people. And keep my hands off the most dangerous animal of all: Trent. He's hotter than the afternoon humidity. Wilder than the jaguars that hunt us at dusk. More dangerous than the armed men on our heels. Now is not the time to fall in love. But I may not have a choice. He's stolen my heart, and the only way to get it back is to make it out alive. Trent Just my luck! I picked up a crazy woman who thinks someone's after her. She's clearly paranoid, and probably delusional. She keeps ranting about a secret group called "The Factory." I don't believe a word of it. Besides, I've got bigger problems. I need to keep us alive long enough to prove that she's nuts. I shouldn't be drawn to her, but I am. Maybe I'm going crazy too. Keeping her safe in the jungle is the honorable thing to do. But what I'm feeling right now is anything but honorable. I want to kiss her luscious mouth. I want to stroke her irresistible curves. We may not live to see daylight, but in darkness, anything can happen. I just hope we live long enough to figure out what's happening between us.

Documents the story of a girl who grew up the daughter of a maid at the side of her mother's employer's children, drawing on 20 years of research to describe how she worked to resolve identity issues pertaining to her Mexican heritage and the privileged culture of her peers, in an account that also offers insight into the hidden costs of paid domestic labor in private households. By the author of Challenging Fronteras.

In her latest adventure, Olivia, everyone's favourite little pig, is off the Venice, the place of fine art, carnival and gondolas for a family holiday to remember. With her very own discerning eye for style, Olivia takes the beautiful city of Venice by storm. From dodging pigeons in the Piazza San Marco, to eating an abundance of the most delicious Italian gelato at Carneval, and barelystaying afloat in a gondola, Olivia uncovers the wonderful delights of Venice with that very special 'Olivia' style and flair!

Better Together FDR and Eleanor. Mick and Keith. Jobs and Woz. There are countless examples of introvert-extrovert partnerships who make brilliant products, create great works of art, and even change history together. But these partnerships don't just happen. They demand wise nurturing. The key, says bestselling author Jennifer Kahnweiler, is for opposites to stop emphasizing their differences and use approaches that focus them both on moving toward results. Kahnweiler's first-of-its-kind practical five-step process helps introverts and extroverts understand and appreciate each other's wiring, use conflicts to spur creativity, enrich their own skills by learning from the other, and see and act on things neither would have separately. Kahnweiler shows how to perform the delicate balancing act required to create a whole that is exponentially greater than the sum of its parts.
