Secrets of the Millionaire Mind

Influence And Income Online: Three Millennial Millionaires Share Their Secrets Only six to eight years ago, most people who wanted to take a message or product to the world had to ask permission (from the authorities, associations, and governing bodies that centralized content distribution). But now, because of technology (particularly social media and video), decentralization is everywhere (technology inherently decentralizes). This has empowered everyone with a phone to reach the masses without ever worrying about asking for permission again. This book reveals how three millennial influencers did just that and took their message to hundreds of thousands (and sometimes millions) of followers-all without ever asking for "permission." This is the day when kids make \$1000s doing things adults once mocked with statements like: "keep making that face and it will become permanent""when are you going to stop dancing and go get a job""stop playing those video games, like someone's really going to pay you for that" As more Fortune 500 brands fall by the waste side, people like Steve Larsen, Josh Forti, me, and many other entrepreneurs, many of which are featured in this book, are taking up the baton and running without looking back. We are the ones Steve Jobs envisioned when he ran the most famous technology commercial of all-time in 1997: Here's to the crazy ones. The misfits. The rebels. The troublemakers. The round pegs in the square holes. The ones who see things differently. They're not fond of rules. And they

have no respect for the status quo. You can quote them, disagree with them, glorify or vilify them. About the only thing you can't do is ignore them. Because they change things. They push the human race forward. While some may see them as the crazy ones, we see genius. Because the people who are crazy enough to think they can change the world, are the ones who do. Thank you Mr. Jobs! and now to the crazy ones, let's go get it! James Smiley (and remember, it's all about attitude!)

Use These Powerful Passive Income Secrets To Get Your Passive Income Today. Don't Work For The Money, Let The Money Work For You Imagine, rather than you working for money you instead made every dollar work for you 40hrs a week. Better still, imagine each and every dollar working for you 24/7 i.e. 168hrs/week. Figuring out the best ways you can make money work for you is an important step on the road to wealth creation. Passive income is income generated from a trade or business, which does not require the earner to participate. It is often investment income (i.e. income that is not obtained through working) but not exclusively. The central tenet of this type of income is that it can expect to continue whether you continue working or not. As you near retirement you are most definitely seeking to replace earned income with passive, unearned income. The secret to wealth creation earlier on in life is passive income; positive cash-flow generated by assets that you control or own. One of the reasons people find it difficult to make the leap from earned income to more passive sources of income is that the entire education system is actually pretty much designed to teach us to do a job and hence rely largely on earned income. This works for governments as this kind of income generates large volumes of tax but will not work for you if your focus is on how to become rich and wealth building. However, to become rich and create wealth you will be required to cross the chasm from relying on earned income only. So find yourself some time and build your empire, and to do just that, you need this book. Here is Just A Preview Of What You Will Learn... Why A Passive Income Business Should Always Be The Additional Income Source Top 10 Online Passive Income Ideas 2019 Strategies Of Increasing Online Passive Income Earnings How to Create Online Passive Income Using BUM Marketing FAP Turbo and Forex Trading - Great Source of Extra Passive Income Passive Income Online Mistakes You Must Avoid Much, much, more! Forget About Exchanging Time for Money... Start a Passive Income Stream TODAY! Many people think that passive income isn't real. And honestly - you can't blame them. Thousands of "get rich quick schemes" have been sold since humanity started using money, people got scammed for trying to build the lives of their dreams, and it always sounds too good to be true. Those who gave up on the idea can be found in dull offices all over the world, dragging themselves to work every morning, staring at the clock constantly to go home already, and then do it again the next day.
