*Real estate investing can be very satisfying. It gives you the opportunity to work for yourself and independently make money on a consistent basis. It also gives you financial freedom and peace of mind, because you can work whenever you feel like it. You will never have to clock in or deal with office politics. You are not held responsible by your boss, because you are the boss. However, real estate does require work and the competition is fierce. Nowadays, with information so freely available on the internet and in books, many people do not want to climb the corporate ladder. And who blames them. No one feels like working 30-40 years for companies with only 3 weeks of paid time off, barely making enough money to live off, invest for your future and put a roof over you or your family's head. The new trend is to retire early and enjoy a somewhat stress free life. Real estate can truly fulfill this promise and just keep in mind...if you don't do it, then your next door neighbor will!*

Do you have enough for retirement? Do you want an Investment method that comes with absolutely zero headaches? How does 'making money on auto pilot' sound to you? If you want any of these then you need this book and the best part is that in this book, I'll tell you how to get started with almost nothing! Financial planners usually use the "25 Times Rule" to determine how much a portfolio should be worth for someone to safely retire. If you need \$50,000 a year to live on when you retire, then, using the "25 Times Rule" you should have \$1,250,000 in stocks, bonds and mutual funds in order to retire. If you retire at 65, you better hope you don't live past 90 or you'll be broke. Compared to investors who rely on the stock market to accumulate assets for their retirement, real estate investments take a different approach. If you accumulate \$2,800,000 in income-producing real estate it will pay \$50,000 a year in income and continue to appreciate in value over the years, not only covering you indefinitely but also leaving you something to pass on to your children. Here's the interesting part, it only takes \$700,000 in investment capital to accumulate \$2,800,000 in real estate assets. By comparison, it takes about \$900,000 in stock investments to achieve a \$50,000 per year annual income, assuming that during 30 years of investing both types of investments yield a 4 percent return. There is one final advantage to a residential real estate investment and that it is understandable and easy for most everyone. It's easy to purchase, it's easy to finance and there are no insurmountable financial barriers to enter. It's easy for most investors to improve their properties and it's easy to use the tax advantages. While Wall Street is becoming more and more of a mystery and becoming the game of financiers, real estate investing is looking better and better for average Americans. America is moving away from a home ownership society and towards a "rentership" society. It is a great time for investors to snap up distressed single-family homes and turn them into long-term rental units. Whats Inside this book? Best market to focus on for your portfolio How to Raise money for your First Purchase Even if you're broke How to Analyze deals and bid like a Champ How to Analyze any Rental Market and Know if its Profitable How to Spot Low Cost Properties that will make you a Fortune And many more!!!! Updated for 2015! The recession is over, house prices are heading steadily upwards again, and you're convinced that property could be your key to financial freedom. And it could. But where do you start? Do you invest near where you live, or wherever yields are best? Do you rent to families, or professionals, or students? Should you be trawling through Rightmove or lurking at property auctions? This short book covers the big questions you should be asking yourself before you so much as glance at an estate agent's window. It contains a jargon-free explanation of basic investment principles, summaries of the major post-crunch investment strategies, and advice on developing a mindset that will support your long-term success. The book also includes a curated "further reading" list of recommended books, magazines, forums, blogs and podcasts to help you confidently take your next steps in your property investment journey. You'll learn... How to pick an investment strategy that matches your skills and goals The only three calculations you need to know to size up any deal An overview of every major investment approach, from the most safe and boring to the probably-not-a-good-idea-but-here-you-go-anyway How to (safely and sustainably) stretch a limited pot of cash to build whatever size portfolio you want ...although you will need to endure some pretty shocking jokes along the way. Sorry about that. Praise for "Property Investment For Beginners"... "The book is very easy to read and the explanations are very clear, with some good humour to boot! With a good set of references and online links, this book is a must for anyone interested in property investment." - P Cowley "A property investment book that keeps it simple. I really enjoyed it, and will use it as my main point of reference.

Unlike most of the other books, the reader doesn't have to endure the rags to riches rubbish and the inevitable sales pitch for further training." - Nesser "I stumbled across this book randomly on Amazon and I'm so pleased I did - it has given me an excellent overview of what it is to invest in property and has really helped me to focus on my specific goals. It has also opened my eyes to a world of useful tools and contacts which I may never have found without it. Other books may have been able to do this but I'm not sure they would've been so enjoyable to read. If you are thinking of investing in property, or perhaps already are but want to take it further, this is a must read book." - whatkatythinks "When you buy this book, you are not only getting a property wizard, you are also getting a warm-hearted guy. In his book, Rob mentions several times that you can contact him via email and he'll try to help you out. And HE DID! I tentatively emailed him with some questions and he replied right away! Of course, I know he's probably not able to do this for everybody, but even if he just replied to one question, he has proven that he's genuine and kind. And
