""The Protectors Diaries provide page-turning reads, but these books are much more than a great fantasy/thriller series. They say there is truth in fiction, and amidst the action, Selbie manages to weave in an uplifting and compelling vision of our own high spiritual potentials. The first in series, The Fifth Force, gets off to a rocketing start and is continued in the second, The Six. The series skillfully combines leading-edge science, ancient history, contemporary issues, telepathy, levitation, great characters, love, and loyalty. Engaging and inspiring.
