A delightful introduction to plant life and nature, as little ones get hands-on to grow their own sunflowers. Includes sunflower seeds, a sunflower height chart, and exciting flaps. RHS I Can Grow a Sunflower is a friendly approach to plant science and a great gift for little gardeners. Sixteen bright board ebook pages reveal the life cycle of a sunflower, and the excitement of growing a plant from seed. Little children follow the journey of a mystery seed, learning how to plant it, and what it needs to grow. Could it magically become the tallest of all the garden flowers? RHS I Can Grow a Sunflower includes facts about garden creatures, from the helpful ladybird to busy worms, and the visiting bees and butterflies who spread pollen. Children will enjoy read-aloud text, easy-to-follow pictures that show the life cycle of a sunflower - underground, above ground, and through the year - and flaps that show plants growing and creatures hiding. RHS I Can Grow a Sunflower includes a packet of sunflower seeds and a height chart that reinforces how tall a sunflower grows, making this the perfect book for getting young gardeners hands-on

optimize your own garden for well-being. Explore the fascinating science behind how green spaces and gardening-the design, the plants, and the physical activity of gardening-can impact positively on your well-being. Then use this newfound knowledge to evolve your own outdoor space into a mind- and body-nurturing environment. Don't have a garden? The same principles also apply to a small balcony, a large suburban or country garden, or a shared community garden. No matter your at-home capacity for greenery, Your Well-Being Garden will help you to make the most of your plants and maximize wellness. Colors and scents stimulate our senses, but do you know why, and how you can maximize the impact in your planting? We know that it's good to attract pollinators to the garden, but did you know that certain birdsong calls reduce human stress levels, so it's worth planting to attract those birds too? That plants absorb different levels of pollutants, so your well-chosen hedging plants could combat air pollution? For example, one well-chosen, medium-sized shrub can capture 30 diesel vehicles' worth of particulate pollution every year. The way you design your garden, and the plant choices you make, can impact your psyche: your well-being and stress levels; your immune and cardiovascular systems; and your engagement and contact with nature at a primal level. It can help neutralize pollution from noise, pollens, exhaust fumes, particles, and gases, and help reduce your household energy and water consumption. Research in recent years
