When Lydia was

wasn't just half her
body weight that she
ended up losing. Her
boyfriend, best

identity were forced
out of her life by the
illness. Then she
came close to losing
life itself. With

devastating honesty,
Lydia exposes what
it's like to live
through anorexia

depression. A
terrifying journey
through darkness,
ending with the
discovery of a life

filled with more light than she ever knew existed. Lydia hopes her true story of trauma, struggle, recovery and healing will prove to others that there is still hope in their suffering. She now dedicates her life to spreading awareness

and helping people through their own struggles through yoga. The proceeds from this book go directly towards these endeavours. Photographs have had an integral and complex role in many anthropological

contexts, from fieldwork to museum exhibitions. This book explores how approaching anthropological photographs as 'history' can offer both theoretical and empirical insights into these roles. Photographs are

thought to make problematic history because of their ambiguity and 'rawness'. In short, they have too many meanings. The author refutes this prejudice by exploring, through a series of case studies, precisely the

potential of this raw
quality to open up
new perspectives.

Taking the nature of
photography as her
starting point, the
author argues that
photographs are not
merely pictures of
things but are part of
a dynamic and fluid
historical dialogue,

Get Free Raw: The Diary Of An

Anorexic

(Harper True Life –

which is active not
only in the creation
of the photograph

but in its subsequent
social biography in
archive and museum
spaces, past and
present. In this
context, the book
challenges any
uniform view of
anthropological

photography and its
resulting archives.

Drawing on a
variety of examples,
largely from the
Pacific, the book
demonstrates how
close readings of
photographs reveal
not only western
agendas, but also
many layers of

differing historical
and cross-cultural
experiences. That is,
photographs can
'spring leaks' to
show an alternative
viewpoint. These
themes are
developed further by
examining the
dynamics of
photographs and
