In 2004, the birth of Strictly Come Dancing changed Camilla's life, with millions of viewers tuning in weekly. However, that same year, Dallerup's relationship with her dance partner and fiance, Brendan Cole, turned sour very publicly, while she also struggled with adjusting to her newfound fame. Now, ten years after first appearing on our TV screens, Dallerup has made a new name for herself as a motivational speaker and life coach. She speaks frankly and honestly about the relentless hard work, burnout and process of finding love again with her husband and Hollyoaks actor Kevin Sacre, and how they have all helped strengthen her desire and determination to make her dreams a reality.**

**How leaders can achieve something meaningful—transform a brand, a workplace, a technology, themselves—beyond holding an influential position. Do you want to do work that is worthy of your time and talent? Do you want to make your mark on your industry, company, or within your community? Are you satisfied with the fact that reengineering, quality improvements, and other changes never really make a lasting impact? Then you need to go beyond the techniques of improvement and learn the skills that it takes to be extraordinary. The power to be extraordinary is not one we are born with. Goss's unique methodology shows how you how you can "put at risk the success you've become for the power of making the impossible happen." She positions executives to take on the future that they dream about. She teaches how to behave differently so that you are free of past constraints. She shows how you can be at home in the environment in which you are constantly surrounded by threats, and how to transcend the ordinary to make the impossible happen. Her work has resulted in many important life changes and organizational reinventions worldwide. "Goss offers powerful information, far above the glib self-help mush that already lines the shelves. She answers the fundamental question of why management fads do not work: the personal work has not yet been done." —Library Journal**

If you feel stuck with no idea what you should do next, lifestyle celebrity and TV pioneer Debbie Travis's new book is for you. Drawing on the tough (sometimes hilarious) lessons Debbie learned in her own leap into a new way of living, and a multitude of stories, tips and ideas to jumpstart your dreams, she's created an inspiring roadmap for change. A few years ago, Debbie Travis realized that she was no longer challenged by her wildly successful TV career and she was so busy she was missing out on the people and things that made her happy. She dared to dream about a whole new direction in life--a plan to turn a 13th-century farmhouse in Tuscany into a unique hotel and retreat for people who need a change as much as she did. And now, after a crazy amount of work, she is not only living that dream but sharing it with others. Her new book draws directly on her own experiences (when she started, Debbie could barely make a bed, let alone run a hotel in a foreign county) and the uplifting stories of personal u-turns shared by women who have come to her retreats. Debbie's "commandments" will inspire women (and men) who have lost track of who they are or what they want to be; who are going through the motions of a career that doesn't satisfy them anymore; who are wondering what to do with themselves now that their kids are gone or their marriage is over. On every page, Debbie shares the tools that helped her transform her life, and her example, her wit and her common sense advice will help motivate anyone who finds themselves standing at a crossroads wondering "What's next for me?"

How companies can adapt in an era of continuous disruption: a guide to responding to such acute crises as COVID-19. When COVID-19 hit, businesses had to respond almost instantaneously--shifting employees to remote work, repairing broken supply chains, keeping pace with dramatically fluctuating customer demand. They were forced to adapt to a confluence of multiple disruptions inextricably linked to a longer-term, ongoing digital disruption. This book shows that companies that use disruption as an opportunity for innovation emerge from it stronger. Companies that merely attempt to "weather the storm" until things go back to normal (or the next normal), on the other hand, miss an opportunity to thrive. The authors, all experts on business and technology strategy, show that transformation is not a one-and-done event, but a continuous process of adapting to a volatile and uncertain environment. Drawing on five years of research into digital disruption--including a series of interviews with business leaders conducted during the COVID-19 crisis--they offer a framework for understanding disruption and tools for navigating it. They outline the leadership traits, business principles, technological infrastructure, and organizational building blocks essential for adapting to disruption, with examples from real-world organizations. Technology, they remind readers, is not an end in itself, but enables the capabilities essential for surviving an uncertain future: nimbleness, scalability, stability, and optionality.

I've reinvented my career, my interests, my life, many times over the past twenty years. This is the book I wish I had at the beginning of that long and often volatile journey. I found when I outsourced my self-esteem to only one outcome, disaster resulted. Reinvention was the key to ensuring that the outcomes in life were positive ones. And now the entire world: technology, governments, the shifting landscapes of opportunity and success, are all turning upside down, forcing us to reinvent as individuals and as a culture. Along my own journey I have read and encountered dozens of other successful leaders, artists, entrepreneurs, and mentors who I have learned the art of reinvention from. The journey has been intense. The obstacles were hard fought. And the adventures that led to me now finally sharing it all in this book has been both painful and exhilarating. I describe specific techniques, share stories, tell the stories of others, and give the ultimate guide to not only how but why it is critical for people to master the skills of reinvention. What I've learned: change is the only constant. Companies decay, technologies disappear, governments change, relationships change and opportunity is a shifting landscape. Reading the stories and learning the critical skills taught in Reinvent Yourself is how I found my own way through the chaos of change and onto the path of new opportunity and success. Again, this is the book I wish I had in my hands twenty years ago although I am glad that I am writing it now.

2020 has made us all re-examine our relationship with our homes and family. Sometimes, it's easy to leave. But how do you make it work where you are? As the world around us rapidly shifts, Reinvention explores the darker side of growing up. Can we preserve our identity, while building a family? What sacrifices do we have to make for success? Can we have it all- and keep it? Natasha wrote Reinvention after moving back to India after ten years. Her popular first poetry book, Boundless, captured the author's search for her own identity, as she experimented with geographies, and built her career. Here, she tries to reconnect with her roots. Boundless was about finding your voice. Reinvention is about making it heard. The sharpness and honesty of the poems will resonate with you. In a post-pandemic world, change is the only constant.

Named a Top 10 Business Strategy Book of 2018 by Inc. magazine In his pioneering book *Seizing the White Space*, Mark W. Johnson argued that business model innovation is the most proven path to transformational growth. Since then, Uber, Airbnb, and other startups have disrupted whole industries; incumbents such as Blockbuster, Sears, Toys "R" Us, and BlackBerry have fallen by the wayside; and digital transformation has become one of the business world's hottest (and least understood) slogans. Nearly a decade later, the art and science of business model innovation is more relevant than ever. In this revised, updated, and newly titled edition, Johnson provides an eminently practical framework for understanding how a business model actually works. Identifying its four fundamental building blocks, he lays out a

structured and repeatable process for reinventing an existing business model or creating a new one and then incubating and scaling it into a profitable and thriving enterprise. In a new chapter on digital transformation, he shows how serial transformers like Amazon leverage business model innovation so successfully. With rich new case studies of companies that have achieved new success and postmortems of those that haven't, Reinvent Your Business Model will show you how to: Determine if and when your organization needs a new business model Identify powerful new opportunities to serve your existing customers in existing markets Reach entirely new customers and create new markets through disruptive business models and products Seize opportunities for growth opened up by tectonic shifts in market demand, government policy, and technologies Make business model innovation a more predictable discipline inside your organization Business model innovation has the power to reshape whole industries—including retail, aviation, media, and technology—redistributing billions of dollars of value. This book gives you the tools to reshape your own company for enduring success. Reinvent Your Business Model is the strategic innovation playbook you need now and in the future.

Seize the chance to be extraordinary. Who has made the biggest difference in your life? Whose words and actions have uplifted and motivated you to excel? Chances are it was someone like Fred the Postman -- so outstanding in his service that Mark Sanborn realized this mail carrier could be an example for any person wanting to be extraordinary. The "Fred Factor" is summarized by four principles that will release fresh energy, enthusiasm, and creativity in your career and life: • Make a Difference • Build Relationships • Create Value • Reinvent Yourself You, too, can apply The Fred Factor to enrich the lives of customers, co-workers, friends, and family members, as well as reach new levels of personal success yourself. Sanborn also shows how to discover and develop other Freds. Why not become a "Fred" yourself? You will turn the ordinary moments of life into extraordinary opportunities to make a difference in the world.

Understand the barriers to change and cultivate a reinvention mindset that will make you impervious to disruption In our world of incessant change, we are all threatened by volatility, uncertainty, complexity, and ambiguity—at the individual and organizational levels. Undisruptable will give you a new lens through which to consider change as an opportunity rather than an obstacle. You'll be inspired to consider the big questions of today: What does the future hold? What does the exponential growth of technology mean for the world of work? What does a changing job market mean for future generations? What do waves of disruption mean for business leaders? Society is evolving at breakneck speed. What does this mean for all of us? Read Undisruptable to bridge the chaos and build the resilience you need to move forward. While we cannot see into the future, there are repeatable patterns that we can understand. Undisruptable demystifies the principles of change through a blend of analogies, innovation frameworks and exemplars of change such as Fujifilm and Arnold Schwarzenegger. The first step to becoming undisputable is to realize that evolution is a natural part of life, and nature provides many examples. Undisruptable will help you to: Understand the principles of change Overcome the barriers to change See change as an opportunity and not an obstacle Utilize simple frameworks and examples to guide you on your transformation By the end of this book, you will have the essential tools and techniques to foster a reinvention mindset that will help you and your organization to become Undisruptable. This book is part of a 3-part series. Part 2 looks at the biases and mental obstacles that prevent change. Part 3 examines the best ways to communicate change within an organization.

PRAISE FOR UNDISRUPTABLE "Aidan McCullen has lived a fascinating life of major change. In his book, 'Undisruptable'; he brings us a method for making sense of the external world, and an accessible and visual approach to letting go of the past, and welcoming the future with a mindset of permanent reinvention. It is a timely, thoughtful book, well worth reading." – Dee Hock, founder and CEO Emeritus of VISA and author of One from Many: VISA and the Rise of Chaordic Organization "As the poet Paul Valery said, 'the future is not what is used to be'. Organizations across the board must come to grips with permanent reinvention as their needed way of being. Aidan McCullen's gifted storytelling will inspire you and get you on your way to permanent reinvention." – Mark Johnson, co-founder Innosight and author Lead from the Future "This book teaches the mindset—the lens of clarity—that we all must develop in order to be undisruptable in a future of chilling disruption." – Bob Johansen author Full-Spectrum Thinking, Distinguished Fellow, Institute for the Future "The snake may slough off its tail, but there's nothing to be sloughed off with this book. Former professional rugby player Aidan McCullen knows how not to be defeated by victory. He knows how to disrupt himself. He knows what it means to be Undisruptable." – Whitney Johnson, author of Disrupt Yourself "Aidan McCullen shows us how to embrace a mindset of permanent reinvention. By reading this book, you will learn how to shed o

"This is the management book of the year. Clear, powerful and urgent, it's a must read for anyone who cares about where they work and how they work." —Seth Godin, author of This is Marketing "This book is a breath of fresh air. Read it now, and make sure your boss does too."

—Adam Grant, New York Times bestselling author of Give and Take, Originals, and Option B with Sheryl Sandberg When fast-scaling startups and global organizations get stuck, they call Aaron Dignan. In this book, he reveals his proven approach for eliminating red tape, dissolving bureaucracy, and doing the best work of your life. He's found that nearly everyone, from Wall Street to Silicon Valley, points to the same frustrations: lack of trust, bottlenecks in decision making, siloed functions and teams, meeting and email overload, tiresome budgeting, short-term thinking, and more. Is there any hope for a solution? Haven't countless business gurus promised the answer, yet changed almost nothing about the way we work? That's because we fail to recognize that organizations aren't machines to be predicted and controlled. They're complex human systems full of potential waiting to be released. Dignan says you can't fix a team, department, or organization by tinkering around the edges. Over the years, he has helped his clients completely reinvent their operating systems—the fundamental principles and practices that shape their culture—with extraordinary success. Imagine a bank that abandoned traditional budgeting, only to outperform its competition for decades. An appliance manufacturer that divided itself into 2,000 autonomous teams, resulting not in chaos but rapid growth. A healthcare provider with an HQ of just 50 people supporting over 14,000 people in the field—that is named the "best place to work" year after year. And even a team that saved \$3 million per year by cancelling one monthly meeting. Their stories may sound improbable, but in Brave New Work you'll learn exactly how they and other organizations are inventing a smarter, healthier, and more effective way to work. Not through top down mandates, but through a groundswell of autonomy, trust, and transparency. Whether you lead a team of ten or ten thousand, improving your operating system is the single most powerful thing you can do. The only question is, are you ready?

Little changes can make a big difference. When some of the world's biggest corporations need to revive their brands, innovate products, and rethink their images, they call Peter Arnell. Now in his fourth decade of branding and marketing for such companies as Samsung, Reebok, DKNY, GNC, and Pepsi, Arnell explains how you can use some of the same strategies that famous brands do, in order to improve your own image, life, and career. Arnell knows this firsthand because he applied many of these same strategies to transform his own life by losing 256 pounds. How did he do it? Arnell created an idea he calls Shift. With Shift, you'll discover the steps you need to take in order to become the best you. Creating and revitalizing brands happens every day in business. Shift shows how you can make it happen for yourself and your personal brand. Innovative insights such as "go helium" are used by Arnell to explain how he reached his ultimate goal of 150 pounds—you can apply his techniques to reach for your own goals. You will see—through Arnell's description of how he "went tiger"—how to exercise your own discipline and commitment, without apology, even if that

means bucking the norm. And by learning to reach out to your brand audience, you will come to understand the importance of your network of friends, acquaintances, colleagues, and family—your fan club— in keeping you motivated and providing the feedback you need for success. Weaving together personal stories of his own transformation with stories about how he created transformative change for brands such as Reebok and Pepsi, Arnell shares his unique vision on how each of us can rebrand and transform ourselves, both personally and professionally, to achieve the success we desire. PETER ARNELL, founder of Arnell, is one of the foremost branding and design experts in the world. Among the companies he and his team have worked with are DKNY, Samsung, Chanel, Reebok, Mars, Pepsi, Home Depot, GNC, De Tomaso, Fendi, Mikimoto, Special Olympics and Con Edison. He and his family live in Westchester County, New York.

FROM ONE OF TODAY'S FOREMOST INNOVATION LEADERS, AN INSPIRING, PERSONAL APPROACH TO MASTERING CHANGE IN THE FACE OF UNCERTAINTY. NAMED A 2018 BEST BUSINESS BOOK PICK BY FAST COMPANY AND WIRED UK. Confronting change is incredibly hard, both organizationally and personally. People become resistant. They are afraid. Yet the pace of change in our world will never be slower than it is right now, says Beth Comstock, the former Vice Chair and head of marketing and innovation at GE. Imagine It Forward is an inspiring, fresh, candid, and deeply personal book about how to grapple with the challenges to change we face every day. It is a different kind of narrative, a big picture book that combines Comstock's personal story in leading change with vital lessons on overcoming the inevitable roadblocks. One of the most successful women in business, Comstock shares her own transformation story from introverted publicist to GE's first woman Vice Chair, and her hard-won lessons in shifting GE, a 125 year old American institution, toward a new digital future and a more innovative culture. As the woman who initiated GE's Ecomagination clean-energy and its (and NBC's) digital transformations, Comstock challenged a global organization to not wait for perfection, but to seek out emerging trends,

embrace smart risks and test ideas boldly, and often. She shows how each one of us can become a “change maker” by leading with imagination. “Ideas are rarely the problem,” writes Comstock. “What holds all of us back, really—is fear. It’s the attachment to the old, to ‘What We Know.’” As Comstock makes clear, transforming the mindset and culture of a company is messy. There is no easy checklist. It is fraught with uncertainty, tension and too often failure. It calls for the courage to defy convention, go around corporate gatekeepers when necessary, and reinvent what is possible. For all those looking to spearhead change in their companies and careers, and reinvent “the way things are done,” *Imagine It Forward* masterfully points the way.

THE INTERNATIONAL BESTSELLER Following on the success of *Reinvent Me*, life coach Camilla Sacre-Dallerup offers a new program on cultivating self-love and practicing self-care. All the challenges we face in our lives present us with an opportunity to learn, evolve, and grow as people. Holding on to patterns from the past creates blocks, which can make us feel stuck and unworthy of love and respect. In *It’s Not You, It’s Me*, Camilla Sacre-Dallerup uses a series of targeted questions followed by exercises, tips, and techniques to help the reader explore and release their old patterns and blocks so that they can move forward in their lives. Camilla explores: □ Perception and projection □ Being enough □ Validating yourself □ Letting go of judgement □ Standing in your power This book is a reminder to us all that we are “enough” and that we do not need outside validation to feel whole and healed within. By taking responsibility for our situation, we can heal the most important relationship—the one we have with ourselves. In doing this, we unlock our true potential and step into our light. Companies, communities, and individuals fail for many reasons, but one of the most common—and easily avoidable—is the failure to reinvent. When people and organizations rest on prior successes rather than driving purposeful transformation, they discover too late that they have lost their market position altogether to competitors and external forces. The most successful companies, brands, and individuals make reinvention a regular part of their business strategies. Transformation demands an ongoing process of discovery and imagination, and *The Road to Reinvention* lays out a systematic approach for continually challenging and reinventing yourself and your business. Venture capitalist and serial entrepreneur Josh Linkner identifies six elements in any business that are ripe for reinvention and shares examples, methods, and step-by-step techniques for creating deliberate, productive disruption. Throughout *The Road to Reinvention*, Linkner also explores the history—the great rise, unprecedented fall, and now rebirth—of his beloved hometown, Detroit. First rising to greatness as the result of breathtaking innovation, Detroit had generations of booming growth before succumbing to apathy, atrophy, and finally bankruptcy. Now, the city is rising from the ashes and driving sustainable success through an intense focus on reinvention. Linkner brings an insider’s view of this incredible story of grit, determination, and creativity, sharing his perspective on Detroit’s successes and setbacks as a profound example of large-scale organizational and personal transformation. Change is inevitable. You need to decide: Will you drive that change, or be driven away by it? Will you disrupt or be disrupted? By choosing to deliberately reimagine your own status quo, you can secure a strong future for both your company and your career.

**The four worlds as we know them today, the North, West, South and East, are out of balance. The West and the North generally dominate on a global scale while the South and the East lag behind. This also happens at individual, societal and organisational levels. It is clear that there is a need to change the way we lead our organisations in business and the way we think about leading in politics. Here is a comprehensive exploration of the Integral Leadership challenges of the twenty-first century. The author combines the African philosophy of Ubuntu or humanness, the cornerstone of African thought and life, with the concept of Integral Leadership, with particular reference to Lessem and Schieffer's combining, in their 2010 book Integral Research and Innovation, of nature and community, culture and spirituality, science and technology, and politics and economies. This connectedness in the new paradigm of wholeness and relatedness goes beyond the relationships of human beings alone and involves experiences with nature and community. Leadership is viewed from an indigenous and exogenous perspective, bringing together a newly Integral approach, which will also introduce industry ecology and knowledge ecology as an evolution of the Ubuntu philosophy. The author offers a unique forum through which to commit to paper the operationalisation of the Integral Ubuntu Leadership model in catalysing development efforts and in CARE-ing for communities and societies.**

**Digital technology is simultaneously friend and foe: highly disruptive, yet it cannot be ignored. Companies that fail to make use of it put themselves in the line of fire for disintermediation or even eradication. But digital technology is also the biggest opportunity to reposition incumbent product-making businesses by thinking about how they conceive, make, distribute and support the next generation of goods in the marketplace. Reinventing the Product looks at the ways traditional products are transforming into smart connected products and ecosystem platforms at a rate much faster than most organizations think. Eric Schaeffer and David Sovie show how this reinvention is made possible: by AI and digital technologies, such as IoT sensors, blockchain, advanced analytics, cloud and edge computing. They show how to deliver truly intelligent, and potentially even autonomous, products with the more personalized and compelling experiences that today's users, consumers and enterprises expect. Reinventing the Product makes a stringent case for companies to rethink their product strategy, their innovation and engineering processes, and the entire culture to build the future generations of successful 'living products'. Featuring case studies from global organizations such as Faurecia, Signify, Symmons and Haier and interviews with thought leaders and business executives from top companies including Amazon, ABB, Tesla, Samsung and Google, this book provides practical advice for product-making companies as they embark on, or accelerate, their digitization journey.**
