"Dachy wears a hearing aid. But sometimes, when his friends get too noisy, he likes to turn it off to get some peace and quiet. One day, when his hearing aid is off, Dachy falls asleep and ends up floating down the river towards a waterfall and a hungry crocodile. Can his friends rescue him in time?--

The story of Alice the Aspiesaurus draws on the author's personal experiences to give children a positive message about autism. An autistic dinosaur called Alice is finding it hard to make friends at her school, and we learn about some of the difficulties that Alice has, such as finding busy places scary, but also about some of the positives of having autism, like having a good memory. Along the way, Alice meets an older Aspiesaurus called Alvin, who helps her to see her differences as a good thing. Alice then has the confidence to befriend the other dinosaurs and use her amazing brain to help them. Different is Good will appeal to all children with its relevant message, easy to read story, and fun, colourful illustrations of dinosaurs. Children who have autism themselves can greatly benefit from this book, which explains why they may feel different, and reassures them that differences are a good thing.

This book shows you how to draw 18 different types of dinosaurs in a clear, easy-to-follow steps, including the best drawing tools to use, basic construction techniques, inking and coloring, and landscapes and scenery. Includes dinosaur facts!

What would happen if a Tyrannosaurus Rex and a Velociraptor had a fight? Who do you think would win? This nonfiction reader compares and contrasts the two species. Students will learn about the animals' anatomies, behaviors, and more. Includes charts, illustrations, and fascinating facts.

"What would the world be like if the dinosaurs hadn't gone extinct? As this very funny book shows, for one thing, L.A. would be even weirder than it is now." --Dave Barry Vincent Rubio, a Los Angeles private investigator, is down on his luck: He's out of work. His car's been repossessed. His partner has died under mysterious circumstances. And his tail just won't stay put. Vincent is a dinosaur--a Velociraptor, to be precise. It seems the dinosaurs faked their extinction 65 million years ago and still roam the earth, disguised in convincing latex costumes that help them blend perfectly into human society. A heightened sense of smell allows the dinos to detect one another--Vincent's got an odor like a tasty Cuban cigar. When Vincent is called to investigate a two-bit case of arson at a hip dino nightclub, he discovers something much more sinister, which lures him back to New York City--the scene of his partner's death and a dangerous nexus of dinosaur and human intermingling. Will Vincent solve the mystery of his partner's death? Will a gorgeous blond chanteuse discover his true identity, jeopardizing both their lives? Will Vincent be able to conquer his dangerous addiction to basil, or will he wind up in Herba-holics Anonymous? Will he find true love, or resort to crumpled issues of Trickleicious? Somewhere between Jurassic Park and L.A. Confidential lies Eric Garcia's Anonymous Rex, one of the smartest, wittiest, and most entertaining debuts this side of the Ice Age.

"Gualicho takes a bite out of the ornithopod's back as it runs away from her, causing it to stumble and fall. She jumps on top of the body and rips open its neck with her teeth. The ornithopod becomes still and limp. Satisfied, Gualicho begins to feast. But, after only two bites, she senses something is wrong. She lifts her head and sees a Mapusaurus making its way toward her." Blending fiction with fact, 50 Dinosaur Tales imagines the way 50 newly described dinosaurs from the Triassic, Jurassic, and Cretaceous lived in their natural habitats. Also included is a list of fun facts for each dinosaur story, and facts about 108 additional dinosaurs. If you want to hear more about new dinosaurs as soon as they are discovered, listen to the weekly podcast I Know Dino. "50 Dinosaur Tales: And 108 More Discoveries From the Golden Age of Dinos is the perfect blend of education and entertainment, as both young and old readers are invited to see the world through a very different set of eyes. Authors Sabrina Ricci and Garret Kruger bring to life some lesser-known dinosaurs from Earth's prehistory, weaving unique facts into simple stories. At times, this book reads like Aesop's Fables, if they had been set in the Mesozoic Era, while the post-story bullet points and reference materials give the book significant authority and impact."—SPR

An illustrated picture book offering a playful introduction to yoga through dinosaurs. The latest yoga picture book from bestselling author Mariam Gates introduces children to the joys and benefits of yoga—through dinosaurs! Triceratops, Pterodactyl, T-Rex, and others learn to bend, stretch, and breathe through a yoga flow. Instead of being sad, mad, or frustrated when things aren't going their way, the dinosaurs practice yoga to feel better. The book features a parents' guide to the depicted postures and a glossary of dinosaurs at the back. As the creator of the celebrated Kid Power Yoga, Gates knows that teaching children yoga sets them up for better habits of flexibility, fitness, and self-soothing. With Dinosaur Yoga, kids can stomp, stretch, and snort their way to skills that will serve them for a lifetime.

An illustrated record book of theropod facts and figures—from the biggest to the fastest to the smartest! The theropod dinosaurs ruled the planet for millions of years, with species ranging from the mighty Tyrannosaurus rex to feathered raptors no bigger than turkeys. Dinosaur Facts and Figures is a stunningly illustrated book of records for these marvelous creatures—such as the biggest, the smallest, and the fastest theropods, as well as the ones with the most powerful bite. This one-of-a-kind compendium features more than 3,000 records, covers some 750 theropod species, and includes a wealth of illustrations ranging from diagrams and technical drawings to full-color reconstructions of specimens. The book is divided into sections that put numerous amazing theropod facts at your fingertips.

"Comparing Species" is organized by taxonomic group and gives comparisons of the size of species, how long ago they lived, and when they were discovered. "Mesozoic Calendar" includes spreads showing the positions of the continents at different geological time periods and reconstructions of creatures from each period. "Prehistoric Puzzle" compares bones, teeth, and feathers while "Theropod Life" uses vivid, user-friendly graphics to answer questions such as which dinosaur was the smartest and which had the most powerful bite. Other sections chart theropod distribution on the contemporary world map, provide comprehensive illustrated listings of footprints, compile the physical specifications of all known theropods and Mesozoic birds, and much more. The essential illustrated record book for anyone interested in dinosaurs Features thousands of records on everything from the smartest and fastest theropods to the largest theropod eggs Includes more than 2,000 diagrams and drawings and more than 300 digital reconstructions Covers more than 750 theropod species, including Mesozoic birds and other dinosauromorphs Provides detailed listings of footprints, biometric specifications, and scholarly and popular references
