**2018 PLANNER & ORGANIZER | 8.5 x 11 Inches "Think of a ship with the complete voyage mapped out and planned. The captain and crew know exactly where the ship is going and how long it will take - it has a definite goal. And 9,999 times out of 10,000, it will get there. Now let's take another ship and just like the first and only let's not put a crew on it, or a captain at the helm. Let's give it no aiming point, no goal, and no destination. We just start the engines and let it go. I think you'll agree that if it gets out of the harbor at all, it will either sink or wind up on some deserted beach and a derelict. It can't go anyplace because it has no destination and no guidance. It's the same with a human being." ~ Earl Nightingale If you want better time management and organization you're sailing in the right direction. *In the book In Search of Paradise: Gingtong Luha, five gold coins save the lives of Eric "Wake" Palmer and his fiancée, Dr. Kathleen Mercado. This is a story of a couple who fall in love and then, through circumstance, are betrayed by a trusted acquaintance that results in their abduction by pirate-terrorists while on a sailing excursion. What ensues next is a struggle for survival and finding a means of escape from cruel and lethal captors who would not think twice about cutting their heads off and placing them on a bamboo pole if their ransoms are not paid. The story is engrossing and will have readers turning pages to learn of the couple's fate and what events will prompt the story to continue into book 2 of the In Search of Paradise series.*

John Kretschmer is sailing's practical philosopher – as much a doer as a thinker. And that is the overarching theme of this chronicle of a sailing life. Often amusing, sometimes poignant, occasionally terrifying but always inspiring, his deeply personal account is a welcome reminder of the good life waiting at sea. With hundreds of thousands of nautical miles under his keel, John's adventures have taken him several times around the world, with challenging crossings of the Atlantic and the Pacific, a narrow escape from a coup in Yemen, an unlikely deliverance from a coral reef off Belize as well as more serene, introspective passages where trade winds are blowing and stories are flowing. His crew has included CEOs, actors, writers, teachers, kids – in essence, everyone. John's narrative is interwoven with practical tips and advice in seamanship, but also, and just as importantly, his hard-won insights about making the most of our lives. He truly believes we find who we really are, and what we are capable of, far from the shackles of land, when we find a place where time changes shape – days may merge into one another, but minutes are memorable. To live adventurously is to live more fully, and that is the life John Kretschmer continues to live. In this book he shares his simple profundities that will inspire those who live to sail, and those seeking something more rewarding from life.

**2018 PLANNER & ORGANIZER | 8.5 x 11 Inches "Think of a ship with the complete voyage mapped out and planned. The captain and crew know exactly where the ship is going and how long it will take - it has a definite goal. And 9,999 times out of 10,000, it will get there. Now let's take another ship and just like the first and only let's not put a crew on it, or a captain at the helm. Let's give it no aiming point, no goal, and no destination. We just start the engines and let it go. I think you'll agree that if it gets out of the harbor at all, it will either sink or wind up on some deserted beach and a derelict. It can't go anyplace because it has no destination and no guidance. It's the same with a human being." ~ Earl Nightingale If you want better time management and organization you're sailing in the right direction. Crisis and Disaster Management for Sport is the first book to introduce key concepts and best practice in crisis and disaster management in sport and international sports events. The book draws from multiple disciplines to provide insight into the issues and challenges involved in planning for, and managing, crises and disasters in the context of sport. With an initial focus on sports event and venue resilience, the book also explores social, community and individual resilience within sport and examines concepts and issues such as fandom, risk perception, crowd control and management, crisis communication and reputational risk and the growing challenges posed by climate change. The book includes real-world case studies as well as disaster management-related simulation and scenario-building exercises and looks ahead to what might be the most significant threats in future to the safe and sustainable management of sport. With the devastating impacts of COVID-19 illustrating the central importance of resilience and proper preparation for crises and disasters, this book is an essential read for all researchers, students, practitioners and policy-makers working in sport, tourism, entertainment, leisure and critical event studies.

Based on a decade of research by two leading action sports scholars, this book maps the relationship between action sports and the Olympic Movement, from the inclusion of the first action sports to those featuring for the first time in the Tokyo Olympic Games and beyond. In an effort to remain relevant to younger audiences, four new action sports, surfing, skateboarding, sport climbing, and BMX freestyle were included in the Tokyo Olympic program. Drawing upon interviews with Olympic insiders, as well as leaders, athletes, and participants in these action sports communities, the book details the impacts on the action sports industry and cultures, and offers national comparisons to show the uneven effects resulting from Olympic inclusion. It reveals the intricate workings of power and politics in contemporary sports organisations, and maps key trends in this changing sporting landscape. Action Sports and the Olympic Games is a fascinating read for anybody studying the Olympics, the sociology of sport, action sports, or sport policy.
