An Affair with Stamps

When Dave Roberts relocates to the USA, his wife informs him that they can only take what is 'absolutely essential'. Packing his collection of football programmes (1,134 of them - football fans are sticklers for statistics), Dave is aghast to be informed that the programmes do not fall into that category. He must whittle down his treasured archive to only what will fit inside a Tupperware container the size of a Dan Brown hardback. 32 Programmes tells the story of how Dave made the selection of his most important programmes, and how the process brought back a flood of nostalgia for simpler times. As the sights, sounds and smells of those 1,134 football matches return, the choices Dave makes reflect the twists and turns that life takes. Finally, with just hours to go before the flight, the container is full to the brim. One more programme will be added to the collection - one that Dave never thought he would see and which means more to him than any other. 32 Programmes is the story of youthful football obsession, crushes on disinterested girls, rubbish jobs and trying to impress skinheads. But most of all, it is the story of a man's life and loves, of family, friends and football.

This four-volume set introduces, on the management side, principles and procedures of economics, budgeting and finance; leadership; governance; communication; business law and ethics; and human resources practices; all in the sports context. On the marketing side this reference resource explores two broad streams: marketing of sport and of sport-related products (promoting a particular team or selling team- and sport-related merchandise, for example), and using sports as a platform for marketing non-sports products, such as celebrity endorsements of a particular brand of watch or the corporate sponsorship of a tennis tournament. Together, these four volumes offer a comprehensive and authoritative overview of the state of sports management and marketing today, providing an invaluable print or online resource for student researchers.

Chet Fisher wasn't going to be like everyone else. He was going to be creative, an underground writer or meaningful musician. Unfortunately, as a victim of his own lazy infatuations, he becomes the worst wine salesman in the entire state of New York. At twenty-eight, Chet Fisher is easily the youngest among the winery representative crowd and already the most disillusioned. Smothered at the bottom of the sales heap, he receives an ultimatum to improve or else be fired. Faced with impending unemployment, Chet sets out on a journey to discover what lies within his job and himself. Rumbling through New York State in a fog of booze, drugs, and indecision, Chet spends endless hours at wine shops, hotel bars, sales meetings, and wine tastings. As he gradually learns how to sell, he sinks deeper into the very world he despises—a world of chronic greed, stale corporate mentalities, and unfettered competition. Growing further away from his friends, his youth, and his own personality, Chet awakens to the reality that his life is a façade. Selling a Good Time ultimately ponders the question: how important is keeping a job if it robs you of everything else in life?

An obsessively readable memoir about the passions—and perils—of collecting, from the New York Times–bestselling author of Just My Type. From the Penny Red to the Blue Mauritius, generations of collectors have been drawn to the mystique of rare stamps. Once a widespread pastime of schoolboys, philately has increasingly become the province of older men obsessed with the shrewd investment, the once-in-a-lifetime find, the one elusive beauty that will complete a collection and satisfy an unquenchable thirst. As a boy, Simon Garfield collected errors—rare pigment misprints that create ghostly absences in certain stamps. Then, in his mid-forties, this passion reigned—and it began to consume him. In the span of a couple of years, he amassed a collection of errors worth upwards of forty thousand British pounds. But as he was pursuing this secret passion, he was also pursuing a romantic one—while his marriage disintegrated. In this unique memoir, Simon Garfield twines the story of his philatelic obsession with an honest, engrossing exploration of the rarities and absences that both limit and define us. The end result is a thoughtful, funny, and enticing meditation on the impulse to possess.

Hope and Healing For All Who Have Been Touched by War "Made in America, Sold in the Nam" brings together the writings of more than two dozen Vietnam-era veterans who have never before had the chance to speak their peace. Through diaries, essays, and poems, each contributor brings a unique first-person perspective that will be appreciated by veterans, their families, and historians. Taken together, this book represents the conscience of a nation: patriotic, duty-bound, and mired in a swamp of confusion and pain. New Second Edition includes material by the spouses, adult children, and other survivors of the war. "Made in America, Sold in the Nam" is Book #2 in the Reflections of History Series from Modern History Press. For Viet Nam Vets: an opportunity to verify their experiences against experiences of others leading to validation and perhaps even an airing of their suspicions and fears about themselves. No matter how long it has been, healing is possible. For Families of the KIA: peace and understanding about the experiences of their loved one and if they have letters from their loved ones, perhaps a way to fill in what could never be spoken. For Adult Children and Spouses of Vets empathy for their war experience, in spite of whether or not there has been communication about how it really went down. For Vets of Recent Conflicts: a shortcut to understanding the overall experience of war and how one copes with its indelible marks. Discover the commonality of those who have endured their time as warriors. For Society and Generations to come: . Learn what really happens during a modern military conflict. . A plea for wisdom in how we deal with other peoples on Earth. . A chance to break the cycle of doing the same things and hoping for magically different outcomes. "That there is conflict and confusion over how we are to view the Viet Nam War and how we are to feel about those who sacrificed for this effort, makes this book all the more important. These pieces give the average person insight into what really happened to those that served and what they thought that they were trying to accomplish. There is some personal truth, buried emotion, and a few heroes in their own right." -Tami Brady, TCM Reviews Modern History Press is an imprint of Loving Healing Press (www.LovingHealing.com)

The Sunday Times Bestseller 'A tribute to a rallying call' - Guardian Three and half weeks. Three hundred miles. I saw roaring arterial highway and silent lanes, candlelit cathedrals and angry men in bad pubs. The Britain of 1936 was a land of beef paste sandwiches and drill halls. Now we are nation of vaping and nail salons, pulled pork and salted caramel. In the autumn of 1936, some 200 men from the Tyneside town of Jarrow marched 300 miles to London in protest against the destruction of their towns and industries. Precisely 80 years on, Stuart Maconie, walks from north to south retracing the route of the emblematic Jarrow Crusade. Travelling down the country's spine, Maconie moves through a land that is, in some ways, very much the same as the England of the 30s with its political turbulence, austerity, north/south divide, food banks and of course, football mania. Yet in other ways, it is completely unrecognisable. Maconie visits the great cities as well as the sleepy hamlets, quiet lanes and roaring motorways. He meets those with stories to tell and whose voices build a funny, complex and entertaining tale of Britain, then and now.

Programmes! Programmes! Football and Life from Wartime to Lockdown is a fascinating archaeological dig through a collection of 2,000 programmes. There are unforgettable games, World Cup winners, schoolboy internationals destined for stardom and others whose glimpse of glory proved fleeting. The stories play out against a backdrop of technological, economic and social change in Britain and beyond, rekindling the memories of generations of fans. Programmes! Kovels' Guide to Selling Your Antiques and Collectibles

Complete Guide to Football, Basketball & Hockey Memorabilia

Encyclopedia of Ephemera

The Definitive Reference for NFL, NBA, and NHL Collectibles

Explains how to sell a valuable collection or a common collectible, with information on appraising and advice on selling more than seventy-five specific categories of collectibles

The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The Encyclopedia of Ephemera is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs, and taboos, revealing the very roots of popular culture. Andy Bollen has created a fantasy football museum to collect together a treasure trove of Scottish football exhibits that ranges from Jimmy Johnstone's oar to Aggie the tea lady's trolley. Learn why Puskas and Socrates should've been Scottish, the versatility of the pie and Napoleon's links to Bovril and explore all the wonders of the game north of the Border -- from Arthur Montford to the phone-in, Think Tanks, Buckfast, vanishing cream for referees, Twitter, VAR technology and flares (pyrotechnics, not 1970s attire). These exhibits distill the beauty of Scottish football into an entertaining volume that will make the perfect gift for any fan. Taking a satirical swipe at the beautifully flamed game, A History of Scottish Football in 100 Objects covers the mayhem, mavericks and bric-a-brac from the magic sponge, to the pie, hair weaves to tattoos. Bollen is the perfect curator: impeccably informed, passionate and insightful.

Adventures at the fringes of the beautiful game

Jumpers For Goalposts is a fascinating reflection on the history of British soccer, which examines why the charm, innocence, and good humor has disappeared from today's game, compared to the golden days of yesteryear.

Smyth considers everything from the huge wage bills, to players' lack of loyalty to their clubs, and their escapades off the pitch. He concludes that the true beauty of football is when it's at its simplest. Including anecdotes from players, past and present, and other sporting insiders, Jumpers For Goalposts is an exhaustive study of whether football has lost its charm—and, perhaps more importantly, whether it can ever get it back.

The Defining Line takes you through the story of Charles "Chuck" Bennis's Greek immigrant heritage, his childhood in Lincoln, Illinois, and his rise to All-American football player at the University of Illinois. Amidst stories of his first fight, his first love, and difficult moments that truly defined him, you follow Chuck through his struggles and successes in his college football career (which led to a role in the movie The Big Game), and you see Chuck transform to a courageous and compassionate man through glimpses of the other defining period of his life — serving in World War II.

"A penetrating examination of how the elite college football programs have become 'giant entertainment businesses that happened to do a little education on the side.'"—Mark Kram, The New York Times Two-time Pulitzer-Prize-winning journalist Gilbert M. Gaul offers a riveting and sometimes shocking look inside the money culture of college football and how it has come to dominate a surprising number of colleges and universities. Over the past decade college football has not only doubled in size, but its elite programs have become a \$2.5-billion-a-year entertainment business, with lavishly paid coaches, lucrative television deals, and corporate sponsors eager to slap their logos on everything from scoreboards to footballs and uniforms. Profit margins among the top football schools range from 60% to 75%—results that dwarf those of such high-profile companies as Apple, Facebook, and Microsoft—yet thanks to the support of their football-mad representatives in Congress, teams aren't required to pay taxes. In most cases, those windfalls are not passed on to the universities themselves, but flow directly back into their athletic departments. College presidents have been unwilling or powerless to stop a system that has spawned a wildly profligate infrastructure of coaches, trainers, marketing gurus, and a growing cadre of bureaucrats whose sole purpose is to ensure that players remain academically eligible to play. From the University of Oregon's lavish \$42 million academic center for athletes to Alabama coach Nick Saban's \$7 million paycheck—ten times what the school pays its president, and 70 times what a full-time professor there earns—Gaul examines in depth the extraordinary financial model that supports college football and the effect it

has had not only on other athletic programs but on academic ones as well. What are the consequences when college football coaches are the highest paid public employees in over half the states in an economically troubled country, or when football players at some schools receive ten times the amount of scholarship awards that academically gifted students do? Billion-Dollar Ball considers these and many other issues in a compelling account of how an astonishingly wealthy sports franchise has begun to reframe campus values and distort the fundamental academic mission of our universities.

Following his first book, Another Bloody Saturday: A Journey to the Heart and Soul of Football, Mat Guy continues his exploration of the 'beautiful game' in Minnows United; an ode to the unsung heroes of football matches taking place out of the limelight, all over the world. From little known teams within the UK, to teams representing countries that, to most of the world, don't even exist, Mat Guy travels to remote parts of the globe to experience football not only on the fringes of the pitch, but on the fringes of the world. On his travels, he watches matches in Iceland, interviews members of the Tibetan Women's Football team, explores the impact of football in war-torn Palestine and explores the unsung heroes in the football clubs present throughout the length of the UK. What he finds is countries transcending the game itself and instead building communities, lifelines and friendship with football at the centre.
