The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a–520a) to compare "the effect of education (?????????) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b–509c) and the analogy of the divided line (509d–511e). All three are characterized in Plato as dialectic at the end of Books VII and VIII (518d–519c). Plato has Socrates describe a group of people who have lived chained to the wall of one of his caves, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

I'd always been different. I saw objects in the night where others saw emptiness. Large, human shaped shadows, fierce yet beautiful, melting into the darkness. I collected secrets like other women collected bells; afraid to fully trust lest my oddities be exposed. Until I saw him. He'd been gliding down the street, unshakable confidence in every step. It wasn't just that he was breathtakingly handsome with perfect features. Something about him drew me. Sucked my focus to him and then tugged at my body. As his eyes met mine, I was entrapped. No one had noticed him. He'd been right there, just beyond the light, but only I had perceived. I had to know if he was real. Or maybe I really was crazy. And even when my secret box was blasted wide open, dangers hurled at me like throwing knives, I couldn't stop until I unraveled his true identity. I just had to know.

"I first read about the 1955 Le Mans Disaster over twenty years ago, but I knew at once there was a story to tell. When I learned there'd been newsreel footage of the aftermath, footage so appalling it never saw daylight, I also knew what kind of story: a story about how many of us want to see things we aren't supposed to, even when we insist we don't. What I didn't know was who would tell that story. It took me two decades to realise that it was also the story of two lovers who weren't lovers, in a world that was falling apart. So finally I began to write, following Ash and Danie into a shadow land of grief, obsession and things worse than death. Now the story's written. Open this book, and I'll tell it to you. And the film will start to play."

For centuries, the Oshan Empire has ruled the New World with terror and blood. The Watchers have been eradicated, and their sorcery is but a whispered myth. But the heart of magic beats on, and as it surges back to life, three young people will determine the fate of the world. . . . Tori Burudai, a strong-willed slave girl. Her magic could ignite a revolution, but only if she resists the ruler who wants to use her powers to restore the empire to its former glory. Darien Redvar, the idealistic soldier she loves. His rage leads him down a dark path to power that could turn him against the one person he cares for. Kalia Andovier, a longing rebel with a torurous past. His quest for a weapon of dark sorcery will thrust him into a twisted game of power that could change the world forever. Will the return of magic transform the New World, or bring it to ruin? From #1 New York Times bestselling author Brandon Sanderson, the Mistborn series is a heist story of political intrigue and magical, martial-arts action. The impossible has been accomplished. The Lord Ruler—the man who claimed to be god incarnate and brutally ruled the world for a thousand years—has been vanquished. But Kelsier, the hero who masterminded that triumph, is dead too, and now the awesome task of building a new world has been left to his young protégé, Vin, the former street urchin who is now the most powerful Mistborn in the land, and to the idealistic young nobleman she loves. As Kelsier's protégé and slayer of the Lord Ruler she is now venerated by a budding new religion, a distinction that makes her intensely uncomfortable. Even more worrying, the mists have begun behaving strangely since the Lord Ruler died, and seem to harbor a strange vaporous entity that haunts her. Stopping assassins may keep Vin's Mistborn skills sharp, but it's the least of her problems. Luthadel, the largest city of the former empire, doesn't run itself, and Vin and the other members of Kelsier's crew, who led the revolution, must learn a whole new set of practical and political skills to help. It certainly won't get easier with three armies—one of them composed of ferocious giants—now vying to conquer the city, and no sign of the Lord Ruler's hidden cache of atoms, the rarest and most powerful alchemical metal.
