We make about 35,000 decisions every day. Most of them are mundane and not significant, but about 70 of those decisions are life-changing and life-altering split-second decisions. What are split-second decisions? They are

Download File PDF Split Second (Split Second Book 1)

decisions made when the following factors are involved: time constraint, limited information, and critical consequences. This is also known as the TLC framework. In this book, you will learn: ? Specific strategies to improve and maximize
