Also included are games that develop thinking skills in which children must compare, orient, find the pattern series of pictures, find what is missing in a picture, and match the stickers with the pictures shown in gray. These are very educational tasks. Packed with over 250 reusable stickers each, these books take children on a visual journey and enables them to play while learning.

Children are already stuck on dinosaurs--that's why they'll love sticking with this entertaining and informative activity book, created in association with the British Natural History Museum. Packed with 100 colorful and reusable stickers to choose from, as well as a fabulous pull-out

landscape, it introduces dinos big and small, fierce and gentle. Kids will enjoy learning dinosaur names; unearthing fossils; building dinos by matching bones and skin--just like a paleontologist; helping T-Rex find his dinner; and filling in fun and challenging puzzles. There are lots of bite-sized facts about what these extinct but always compelling creatures ate, how they moved around, where they lived, and why they all disappeared. Everything is fully checked and approved by the British Natural History Museum dinosaur experts Angela Milner and Richard Butler.

Following the wild success of The Big Book of Bugs and The Big Book of Beasts, The Big Book of the Blue is the third instalment in Yuval Zommer's beloved series. Alongside everything the young oceanographer needs to know, Zommer's charming illustrations bring to life some of the slipperiest, scaliest, strangest, and most monstrous underwater animals. The book opens by explaining how different types of animals are able to breathe and survive underwater, and the different families to which they belong. Subsequent pages are dedicated to specific creatures, including sea turtles, whales, sharks, stingrays, and seahorses, and show varied life in specific habitats, such as a coral reef or deep sea bed. The Big Book of the Blue also explores the underwater world thematically, looking at animals in danger, learning how to spot creatures at the beach, and discovering how

to do our part to save sea life. Beautiful and filled with fascinating facts, young, curious readers won't be able to tear their eyes away from the page.
