

Thanks For The Mammogram!: Fighting Cancer With Faith, Hope And A Healthy Dose Of Laughter

A FACTUAL, TRUE ACCOUNT OF A CIVIL RIGHTS ACTIVIST'S LIFE STORY TOLD FROM THE FRONT LINES OF THE BATTLEFIELDS IN MISSISSIPPI. WHEN THE BATTLE CHANGES FROM FIGHTING FOR THE RIGHTS OF OTHERS TO FIGHTING TO SAVE HER OWN LIFE AGAINST BREAST CANCER, MEDICAL SCIENCE AND FAITH END UP ON A COLLISION COURSE WITH ONLY ONE OUTCOME: LIFE OR DEATH. Book Reviews I urge everyone who wants an inspired account of God's unending love for his children to read this book. Stephanie has witnessed for justice, and spoken truth to power through many dangers, toils and snares, always trusting God to see her through. Now, she tells how God moves in mysterious ways to see her through another kind of peril. Her strong faith will be a blessing! - Rev. Dr. Joseph E. Lowery "Dean" of the Civil Rights Movement President Emeritus, SCLC Former Chairman, Black Leadership Forum Delivered Benediction at President Barack Obama's Inauguration Stephanie's life is one of courage and commitment. Here is a story of standing your ground and fighting for our future. This book is a gift to all... - Benjamin Todd Jealous President and CEO, NAACP Intense, as well as therapeutic. Stephanie's story puts life in perspective for folks. - Dorothy T. Terry, Ph.D Former High School English Teacher of Author This book goes to the core of the reader's total consciousness about any experience, either personal or vicarious, with any form of cancer. Stephanie Parker-Weaver bares her soul and opens a window for the rest of us to see how a true survivor copes with trauma after trauma. This is a lesson for each of us who reads her book. She is deliberate in writing in such a manner that her own struggle is under-played while she educates the rest of us about the Her2 gene. REBIRTH: A Breast Cancer Journey of Many; Survival of Few, written in Stephanie's own inimitable style, is one more piece of herself—one more gift—that Stephanie shares with others. - Corinne Williams Anderson, Ed.D. Senior Technical Adviser, Liberian Teacher Training Program; former Provost/Vice President for Academic Affairs, Tougaloo College President, American Association of University Women, Jackson Branch President, Central MS Chapter of Nat'l Coalition of 100 Black Women Past President, National Federation of Democratic Women Third Edition

Whether you're a newly diagnosed breast cancer patient, a survivor, or a friend or relative of either, this book offers help. The only text to provide both the patient's and doctor's views, this completely updated second edition of this best-selling book gives you up-to-date, authoritative, practical answers to your questions about breast cancer, including risk factors and prevention, diagnosis and treatment options, post-treatment quality of life, sources of support, and much more. Now including an entire new section on the impact of cancer on sexuality, intimacy and fertility, 100 Questions & Answers About Breast Cancer, Second Edition is written by a prominent breast cancer advocate and survivor and by a cancer surgeon. The book is an invaluable resource for anyone coping with the physical and emotional turmoil of this frightening disease.

This book is not just another book on breast cancer. It is written by a physician who has had the disease twice and candidly relays her experience with the disease. This book also has a thorough and understandable manual on breast cancer diagnosis, a personal health journal, a pictorial monograph of actual breast cancer cases, traditional and alternative treatments and life style changes that you can make to beat the disease.

This book is a wonderful collection of stories from 123 women and men whose lives have been affected by breast cancer. The of stories in this book. I am certain that something here will resonate with every reader. For some of the stories I should pro "tissue warning," and for others a "laughter warning," just Depends - yes, the pun IS intended!! There are stories that will wa heart; make you laugh; cause you to pause for reflection; and others that simply tell a story of a courageous journey through I can now say that I truly understand the meaning of we reap what we sow. You want to predict your future? Pay attention and let go of the past. But when we are so busy with everything else in life and forget to pay attention to how we are actu in the areas that matters the most (physically, emotionally, intellectually, and spiritually), life can be harsh and can teach us : lessons. How to set back and go through those difficult times? How to understand why we have to go through certain thing it? No, you wont find all the answers for those questions in this book, but you will find what I did that helped me to go thro cancer at the age of thirty-five and survive and be stronger than I was before. When I look back and read my journal, I am an much I accomplished during the treatment, considering what I went through. But the only thing that comes to my mind is th have done everything alone. No matter where your faith is, you have to believe that you will make it and rely on those who a help you. I believe that this was what got me to win this battle. Thank you to all who were in my life during that time.

There's no backing down this time Lucy Everhart expected her opposing counsel to be a slick, soulless corporate lawyer. Who represent developers intent on turning Chicago's Safe Haven women's shelter into condos? But she never imagined it would l Clearly, he's no longer the idealistic young man she fell for in law school. This is Dylan 2.0. The man who let her go without a years ago—along with his passion for social justice, apparently. He may have compromised what he believed in, but Lucy has no idea what kind of fight he's in for. But then again, neither does she.

The Failure and Success of Current Mammography Practice

A Celebration of Life

There is no available information at this time.

Natalie Moore is about to lose what little cleavage she had. She'll shave her head, leave her church, fall for a man in scrubs, learn to tap, and flash a roomful of women. Natalie needs to know with or without her breasts she is more than the sum of her parts.

'This book gives plenty of examples of ad hominem attacks, intimidation, slander, threats of litigation, deception, dishonesty, lies and other violations of good scientific practice. For some years I kept a folder labeled Dishonesty in breast cancer screening on top of my filing cabinet, storing articles and letters to the editor that contained statements I knew were dishonest. Eventually I gave up on the idea of writing a paper about this collection, as the number of examples quickly exceeded what could be contained in a single article.' From the Introduction The most effective way to decrease women's risk of becoming a breast cancer patient is to avoid attending screening. Mammography screening is one of the greatest controversies in healthcare, and the extent to which some scientists have sacrificed sound scientific principles in order to arrive at politically acceptable results in their research is extraordinary. In contrast, neutral observers increasingly find that the benefit has been much oversold and that the harms are much greater than previously believed. This groundbreaking book takes an evidence-based, critical look at the scientific disputes and the information provided to women by governments and cancer charities. It also explains why mammography screening is unlikely to be effective today. All health professionals and members of the public will find these revelations disturbingly illuminating. It will radically transform the way healthcare policy makers view mammography screening in the future. 'If Peter Gotzsche did not exist, there would be a need to invent him ...It may still take time for the limitations and harms of screening to be properly acknowledged and for women to be enabled to make adequately informed decisions. When this happens, it will be almost entirely due to the intellectual rigour and determination of Peter Gotzsche.' From the Foreword by Iona Heath, President, RCGP 'If you care about breast cancer, and we all should, you must read this book. Breast cancer is complex and we cannot afford to rely on the popular media, or on information from marketing campaigns from those who are invested in screening. We need to question and to understand. The story that Peter tells matters very much.' From the Foreword by Fran Visco, President, National Breast Cancer Coalition

Down Through the Years... Aiding the Mentally Challenged Breast Cancer Survivor!

The ultimate book of recommended reading lists, hand-picked by book buyers nationwide! This Parable exclusive includes

recommendations from popular authors and a personal growth library list featuring both classic and contemporary must-reads. Plus, a topical resource list indexes books by subject matter geared for those ministering to others. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

A good mind knows the right answers...but a great mind knows the right questions. And never are the Best Questions more important than after a diagnosis of breast cancer. Drawing on cutting-edge research and original interviews -- including with former surgeon general C. Everett Koop, bestselling author Dr. Susan Love, well-known breast cancer survivors like Betty Rollin, and experts at the top cancer-care centers in the world -- The 10 Best Questions™ for Surviving Breast Cancer is a guide you'll take with you into your doctor's office and keep close to you through every step of your treatment and recovery. In addition to the medical questions, you'll also learn what you need to ask your friends, colleagues, and loved ones so that the rest of your life doesn't take a backseat to your diagnosis: "How many days I can afford to be out?" (p. 211) "What questions are my children likely to ask?" (p. 261) "When will I be comfortable being intimate again with my partner?" (p. 234) With a wealth of resources and up-to-the-minute information, The 10 Best Questions™ for Surviving Breast Cancer shows you how to move past a scary diagnosis and use the power of questions to become your own best advocate for your emotional, mental, physical, and financial health.

Thanks for the Mammogram!

In many ways, the history of domestic humor writing is also a history of domestic life in the twentieth century. For many years, domestic humor was written primarily by females; significant contributions from male writers began as times and family structures changed. It remains timeless because of its basis on the relationships between husbands and wives, parents and children, houses and inhabitants, pets and their owners, chores and their doers, and neighbors. This work is a historical and literary survey of humorists who wrote about home. It begins with a chapter on the social context of and attitudes toward traditional domestic roles and housewives. The following chapters, beginning with the 1920s and continuing through today, cover the different time periods and the foremost American domestic humorists, and the humor written by surrogate parents, grown children about their childhood families, husbands, and Canadian and English writers. Also covered are the differences among various writers toward traditional domestic roles--some, like Erma Bombeck and Judith Viorst, embraced them, while others, like Caryl Kristenson and Marilyn Kentz, resisted them. Common themes, such as the isolation and competitiveness of housework, home as an idealized metaphysical goal and ongoing physical challenge, and the urban, suburban, and rural life, are also explored.

"Containing the public messages, speeches, and statements of the President", 1956-1992.

Is this your baseline or first mammogram? Are you getting a screening or diagnostic mammogram? Do you know someone with breast cancer or are you a breast cancer survivor? This book is a collection of mammogram patients' writings and poems. You will relate to their fears and their faith, appreciate the humor, revealing their strengths, as they lead you through the mammogram experience. A variety of subjects relevant to any mammogram patient are covered within these pages along with ideas on getting involved with worthy organizations and/or helping breast cancer patients. The message is clear: Get your mammogram for early detection of breast cancer. Also included is an informational glossary and a helpful description of how to get the most out of your mammogram from beginning to end. You will laugh, you may cry, but you definitely will leave uplifted and hopeful.

The Hardest Fight

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

In 2009, an influential panel of medical experts ignited a controversy when they recommended that most women should not begin routine mammograms to screen for breast cancer until the age of fifty, reversing guidelines they had issued just seven years before when they recommended forty as the optimal age to start getting mammograms. While some praised the new recommendation as sensible given the smaller benefit women under fifty derive from mammography, many women's groups, health care advocates, and individual women saw the guidelines as privileging financial considerations over women's health and a setback to decades-long efforts to reduce the mortality rate of breast cancer. In The Big Squeeze, Dr. Handel Reynolds, a practicing radiologist, notes that this episode was only the most recent

controversy in the turbulent history of mammography since its introduction in the early 1970s. In a book written for the millions of women who face the decision about whether to get a mammogram, health professionals interested in cancer screening, and public health policymakers, Reynolds shows how pivotal decisions made during mammography's initial launch made it all but inevitable that the test would be contentious. He describes how, at several key points in its history, the emphasis on mammography screening as a fundamental aspect of women's preventive health care coincided with social and political developments, from the women's movement in the early 1970s to breast cancer activism in the 1980s and '90s. At the same time, aggressive promotion of mammography made the screening tool the cornerstone of a huge new industry. Taking a balanced approach to this much-disputed issue, Reynolds addresses both the benefits and risks of mammography, charting debates, for example, that have weighed the early detection of aggressively malignant tumors against unnecessary treatments resulting from the identification of slow-growing and non-life-threatening cancers. *The Big Squeeze*, ultimately, helps to evaluate the ongoing public health controversies surrounding mammography and provides a clear understanding of how mammography achieved its current primacy in cancer screening.

A History of Domestic Humor Writing

Thank G-d for Big Boobs!

When Laura Jensen Walker was diagnosed with breast cancer on her first wedding anniversary, she found humor to be healing in the midst of terrifying circumstances. In this energetic and hope-filled book, she draws on her faith and her sense of humor to encourage others going through the same thing. From discovering that "bald is beautiful" to navigating the world of saline breast implants, Walker recounts the highs and lows of coping with cancer. Infused with strength and dignity, this classic book has now been revised and updated for a new generation, showing women confronting the disease--and those who love them--that faith, hope, and a healthy dose of laughter can make all the difference.

Contains the papers and speeches of the 42d President of the United States that were issued by the Office of the Press Secretary during he period July 1 to December 31, 1997.
