Please note: This is a companion version & not the original book. Sample Book Insights: #1 Every business and every industry has people who seem to drip with success. They seem to know all the right people, make all the right decisions, and be in all the right places at the right time. But these successes are not the result of magic or luck. They are the result of hard work and preparation. #2 All you need to invest in real estate is a good deal that makes sense and solid financials. You don't need hundreds of thousands of dollars in the bank to invest in real estate, and you don't need millions. All you need is a good deal that makes sense. #3 There are thousands of people interested in investing in real estate, particularly when other investment vehicles, such as the stock market and bonds, are declining. Just look around at a Rich Dad Seminar. #4 While buying a \$2 million house may seem like a big leap, it is not as risky as it seems. When you buy a house or a condo and rent it out, appreciation of the property depends on the appreciation of the neighborhood. However, when you buy and manage commercial properties, such as apartment buildings, appreciation is based on the cash flow of the property itself.

Many Americans dream of financial freedom, but they're stuck in dead-end jobs and don't know how to get there. You don't need to be one of them. If you invested \$35,000 in the stock market today, it could take 52 years for that investment to grow to \$1 million. But if you invested that same amount into one single-family \$140,000 rental property, it would only take 19 years. With just two rental properties, you could generate \$417,000 in profit in just 10 years. Skeptical? Good, because that's the first sign of a smart investor. This book will tackle that skepticism head on... and give you confidence and a path to financial freedom. **THIS BOOK WILL TEACH YOU HOW TO:**

- Secure your investment money
- Find your ideal market--and a positive-cash-flow property
- Efficiently manage your property
- Handle your record keeping
- Boost revenues and cut costs
- File your taxes using a step-by-step process
- Build your real estate portfolio

Every great team, culture, society, religion or business that has endured time, adversity and challenge has always had one thing in common: a set of simple but powerful rules that govern the internal behaviors and expectations of that group. It is called The Code of Honor. We hear of these Codes when we think of things like The Ten Commandments, the Marine Corps or the Constitution. Yet if sales is the number one skill in business, number two has to be the ability to bring ordinary people together to build a championship team. This does not happen by chance or by the simple accumulation of talent. The Code is the core ingredient to creating winning organizations. The book is a step-by-step guide for any individual, group or company to actually create a Code of Honor specific to their team. The Rich Dad Poor Dad Advisor series was designed as a "how-to" series to empower individuals to succeed in the world of business and finance. "Team Code of Honor" is critical to this series because its processes bridge all facets of business, investment, entrepreneurship and even personal life. The book explains through graphic examples, stories and numerous case studies how a Code or set of rules is created, maintained, enforced and used for rapid and controlled growth of any entity. The book is designed as an operating manual for putting any business team together. It

steps you all the way from properly choosing players, to creating the Code, to increasing performance and to winning. Each chapter gives the team specific assignments and examples so that by the time you have completed the book, your Code is in place and your team is operating at a true championship level.

Many people have million-dollar ideas. They 're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don 't know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person 's social and professional network. In other words, the people around us--our associates, our team, our friends. The people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in *Rich Dad Poor Dad*, if the people around you have a poor person 's mindset, it 's likely that you 'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday.
