

# **The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans**

*Drawing on a long history and an analysis of world economics, a thought-provoking study provides a compelling explanation of why today's white-collar workers are so insecure about their jobs, despite a growing economy, and what can be done about it. Tour.*

*In *The Death of the Grown-Up*, Diana West diagnosed the demise of Western civilization by looking at its chief symptom: our inability to become adults who render judgments of right and wrong. In *American Betrayal*, West digs deeper to discover the root of this malaise and uncovers a body of lies that Americans have been led to regard as the near-sacred history of World War II and its Cold War aftermath. Part real-life thriller, part national tragedy, *American Betrayal* lights up the massive, Moscow-directed penetration of America's most hallowed halls of power, revealing not just the familiar struggle between Communism and the Free World, but the hidden war between those wishing to conceal the truth and those trying to expose the increasingly official web of lies. *American Betrayal* is America's lost history, a chronicle that pits Franklin Delano Roosevelt, Harry Truman, Dwight David Eisenhower, and other American icons who shielded overlapping Communist*

*conspiracies against the investigators, politicians, defectors, and others (including Senator Joseph McCarthy) who tried to tell the American people the truth. American Betrayal shatters the approved histories of an era that begins with FDR's first inauguration, when "happy days" are supposed to be here again, and ends when we "win" the Cold War. It is here, amid the rubble, where Diana West focuses on the World War II--Cold War deal with the devil in which America surrendered her principles in exchange for a series of Big Lies whose preservation soon became the basis of our leaders' own self-preservation. It was this moral surrender to deception and self-deception, West argues, that sent us down the long road to moral relativism, "political correctness," and other cultural ills that have left us unable to ask the hard questions: Does our silence on the crimes of Communism explain our silence on the totalitarianism of Islam? Is Uncle Sam once again betraying America? In American Betrayal, Diana West shakes the historical record to bring down a new understanding of our past, our present, and how we have become a nation unable to know truth from lies.*

*Following its publication in hardcover, the critically acclaimed Betrayal of Work became one of the most influential policy books about economic life in America; it was discussed in the pages of Newsweek, Business Week, Fortune, the Washington Post, Newsday, and USA Today, as well as in public policy journals and in broadcast interviews, including a one-on-one with Bill Moyers on PBS's NOW. The American*

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

*Prospect's James K. Galbraith's praise was typical: "Shulman's slim and graceful book is a model combination of compelling portraiture, common sense, and understated conviction." Beth Shulman's powerfully argued book offers a full program to address the injustice faced by the 30 million Americans who work full time but do not make a living wage. As the influential Harvard Business School newsletter put it, Shulman "specifically outlines how structural changes in the economy may be achieved, thus expanding opportunities for all Americans." This edition includes a new afterword that intervenes in the post-election debate by arguing that low-wage work is an urgent moral issue of our time.*

*Using new technology, recently discovered documents and sophisticated investigative techniques, an international team-led by an obsessed retired FBI agent-has finally solved the mystery that has haunted generations since World War II: Who betrayed Anne Frank and her family? And why? Over thirty million people have read The Diary of a Young Girl, the journal teen-aged Anne Frank kept while living in an attic with her family and four other people in Amsterdam during World War II, until the Nazis arrested them and sent them to a concentration camp. But despite the many works-journalism, books, plays and novels-devoted to Anne's story, none has ever conclusively explained how these eight people managed to live in hiding undetected for over two years-and who or what finally brought the Nazis to their door. With painstaking care, retired FBI agent Vincent Pankoke and a team of*

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

*indefatigable investigators pored over tens of thousands of pages of documents-some never before seen-and interviewed scores of descendants of people familiar with the Franks. Utilizing methods developed by the FBI, the Cold Case Team painstakingly pieced together the months leading to the infamous arrest-and came to a shocking conclusion. The Betrayal of Anne Frank: A Cold Case Investigation is the riveting story of their mission. Rosemary Sullivan introduces us to the investigators, explains the behavior of both the captives and their captors and profiles a group of suspects. All the while, she vividly brings to life wartime Amsterdam: a place where no matter how wealthy, educated, or careful you were, you never knew whom you could trust.*

articles encourage students to think critically about some of the most pressing social policy issues of our time. Classroom discussions will sparkle as a result! About CQ Researcher Readers In the tradition of nonpartisanship and current analysis that is the hallmark of CQ Press, readers investigate important and controversial policy issues. Offer your students the balanced reporting, complete overviews, and engaging writing that has consistently provided for more than 80 years. Each article gives substantial background and analysis of a particular issue as well as useful pedagogical features to inspire critical thinking and to help students grasp and review key material: A Pro/Con box that examines two competing sides of a single question A detailed chronology of key dates and events An annotated bibliography and Web resources Outlook sections that address possible regulation and initiatives from Capitol Hill and the White House over the next 5 to 10 years Photos, charts, graphs, and maps

Some really great books just keep getting better! For seventeen years *The Betrayal Bond* has been the primary source for therapists and patients wrestling the effects of emotional pain and harm caused by exploitation from someone they trusted. Divorce, litigation, incest and child abuse, domestic violence, kidnapping, professional exploitation and religious abuse are all areas of trauma bonding. These are situations and relationships of incredible intensity or importance lend

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

themselves more easily to an exploitation of trust or power. In *The Betrayal Bond*, Dr. Carnes presents an in-depth study of these relationships; why they form, who is most susceptible, and how they become so powerful. Dr. Carnes also gives a clear explanation of the bond that compels people to tolerate the intolerable, and for the first time, maps out the brain connection that makes being with hurtful people comparable to 'a drug of choice.' Most importantly, Carnes provides practical steps to identify compulsive attachment patterns and ultimately to change or end them for good. This new edition includes: New science for understanding how our brains can make a prison of bad relationships New assessments and insights based on 50,000 research participants A new section utilizing the latest findings in attachment research and narrative therapy to concretely rewrite and rescript bad experiences A redefinition of the factors contributing to addictive relationships

Hegel's *Phenomenology of Spirit* exerts a unique influence on contemporary philosophy. Major figures from Jacques Derrida and Luce Irigaray to Jean-Paul Sartre and Judith Butler were shaped in large part through their engagement with Hegel's challenging masterwork. It unfolds a grand narrative of the ways of thinking and acting that comprise human experience. Along the way, Hegel seeks to incorporate all the fundamental structures of human life—from political

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

community to consciousness to selfhood—into a whole that encompasses the total movement of human knowledge and culture. Mary C. Rawlinson offers a critical reading of the Phenomenology of Spirit that exposes three crucial elisions: Hegel's effacements of sexual difference, human mortality, and literary style. In attempting to arrive at an "absolute knowing" that would transcend all differences, Hegel discounts specificity in each of these areas in favor of a generic subject. Rawlinson turns Hegel's critique of abstraction against him, showing how his own phenomenological analysis undermines his attempt to master difference. Rawlinson's critique reveals Hegel's attempt to erase the difference of his own style, highlighting his images, tropes, and rhetorical strategies. Demonstrating how the power of Hegel's phenomenological method goes beyond even Hegel's own project of a pure logic, *The Betrayal of Substance* is a magisterial rereading of the Phenomenology of Spirit that encompasses crucially overlooked sites of complexity and difference.

International Paper, the richest paper company and largest landowner in the United States, enjoyed record profits and gave large bonuses to executives in 1987, that same year the company demanded that employees take a substantial paycut, sacrifice hundreds of jobs, and forego their Christmas holiday. At the Adroscoggin Mill in Jay, Maine, twelve hundred workers responded by going on strike from June 1987 to October 1988. Local union members mobilized an army of volunteers but International Paper brought in permanent replacement workers and the strike was ultimately lost. Julius G. Getman tells the story of that strike and its implications—a story of a community changing under pressure; of surprising leaders, strategists, and orators emerging; of lifelong friendships destroyed and new bonds forged. At a time when the role of organized labor is in transition, Getman suggests, this strike has particular significance. He documents the early negotiations, the battle for public opinion, the heroic efforts to maintain solidarity, and the local union's sense of betrayal by its national leadership. With exceptional richness in perspective, Getman includes the memories and informed speculations of union stalwarts, managers, and workers, including those who crossed the picket line, and shows the damage years later to the individuals, the community, and the mill. He demonstrates the law's bias, the company's undervaluing of employees, and the international union's excessive concern with internal politics.

risks her life to save them all from the King's men.

A New York Times bestseller America's unique prosperity is based on its creation of a middle class. In the twentieth century, that middle class provided the workforce, the educated skills, and the demand that gave life to the world's greatest consumer economy. It was innovative and dynamic; it eclipsed old imperial systems and colonial archetypes. It gave rise to a dream: that if you worked hard and followed the rules you would prosper in America, and your children would enjoy a better life than yours. The American dream was the lure to gifted immigrants and the birthright opportunity for every American citizen. It is as important a part of the history of the country as the passing of the Bill of Rights, the outcome of the battle of Gettysburg, or the space program. Incredibly, however, for more than thirty years, government and big business in America have conspired to roll back the American dream. What was once accessible to a wide swath of the population is increasingly open only to a privileged few. The story of how the American middle class has been systematically impoverished and its prospects thwarted in favor of a new ruling elite is at the heart of this extraordinarily timely and revealing book, whose devastating findings from two of the finest investigative reporters in the country will leave you astonished and angry.

The Betrayal of Substance

A “magnificent, brave, tender” novel of post-WWII Russia from the author of *The Siege*—shortlisted for the Orwell Prize and Commonwealth Writers’ Prize (*The Independent on Sunday*). Leningrad 1952. Andrei, a young doctor, and Anna, a nursery school teacher, have forged a life together in the postwar, post-siege wreckage. But they know their happiness is precarious, like that of millions of Russians who must avoid the claws of Stalin’s merciless Ministry of State Security. When Andrei is forced to treat the sick child of a senior secret police officer, his every move is scrutinized, making it painfully clear that his own fate—and that of his family—is bound to the child’s. Trapped in an impossible

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

game of life and death, Andrei and Anna must avoid the whispers and watchful eyes of those who will say and do anything to save themselves . . . With *The Betrayal*, internationally acclaimed author Helen Dunmore “vividly depicts the difficulty of living by principle in a tyrannical society, in which paranoia infects every act, and even ordinary citizens become instruments of terror” (The New Yorker). “An emotionally charged thriller, *The Betrayal* unfolds breathlessly and with great skill. . . . You don’t want to put it down. . . . Elegant yet devastating.” —The Seattle Times “With precise period detail and astute psychological insight, Dunmore brings the last months of Stalin’s reign to life and reminds us why some eras shouldn’t be forgotten.” —Publishers Weekly

In two previous highly regarded books on the U.S. Senate, Ira Shapiro chronicled the institution from its apogee in the 1970s through its decline in the decades since. Now, Shapiro turns his gaze to how the Senate responded to the challenges posed by the Trump administration and its prospects under President Biden. The Founding Fathers gave the US Senate many functions, but it had one fundamental responsibility—its *raison d’etre*: to provide the check against a dangerous president who threatened our democracy. Two hundred and thirty years later, when Donald Trump, a potential authoritarian, finally reached the White House, the Senate should have served as both America’s first and last lines of defense. Instead, we had the nightmare scenario: today’s Senate,

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

reduced through a long period of decline to a hyper-partisan, gridlocked shadow of its former self, was unable to meet its fundamental responsibility. Shapiro documents the pivotal challenges facing the Senate during the Trump administration, arguing that the body's failure to provide leadership represents the most catastrophic failure of government in American history. The last section covers the Senate's performance during President Biden's first year in office and looks forward to the 2022 Senate elections and beyond.

This book has been considered important throughout the human history, and so that this work is never forgotten we have made efforts in its preservation by republishing this book in a modern format for present and future generations. This whole book has been reformatted, retyped and designed. These books are not made of scanned copies of their original work and hence the text is clear and readable.

Jacques Ellul is primarily known for his insightful critiques of Western culture. His recent books describe the "new demons" let loose upon the contemporary world by the double-edged achievements of science and industry. But he asserts in this latest book, the critics have gone too far. The West is the victim of a betrayal--that of its own children. Its intellectuals, most notably those of the Left, are necessarily that products of a civilized society. Yet they so loudly reproach this civilization for the atrocities and the destruction of rich local culture which

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

have accompanied its growth that we are deaf to the reasoned voice which proclaims our debts to this Western tradition. When Ellul acknowledges the validity of many of these accusations, in *The Betrayal Of The West* he points out that they are not peculiar to the West, that they are indeed inherent in the growth of any civilization. And Ellul, as an historian, is a lover of civilization. He especially emphasizes the importance of the legacy of our own civilization. We are indebted to the West for our concepts of freedom, equality, and above all, the idea of the individual. In his words, "The West represents values for which there is no substitute. The West is a past, a difference, a shared history, and a shared human project ... The end of the West today would mean the end of any possible civilization." *The Betrayal of the West* explores the need for defense as well as critique of our culture. It explains the origins of the contradiction at the heart of Western Civilization and traces the course of this dialectic in three supreme chapters constructed around metaphors which correspond to the promise, the challenge, and, ultimately, the failure of the political left in Western societies.

### Betrayal

This is a study of global public health. Plague, pollution and prostitution are all examined in turn. The author shows how basic trust in public health systems has collapsed and how our global public health system has been systematically destroyed.

Well-organized collection of over 60 columns on leadership excellence for nurses covering topics such as the challenges of being new on the job, what change really means, managing resistance, developing others in challenging times, and coaching your boss Practical advice based on real circumstances in real healthcare organizations offering true to life examples and successful solutions that apply to nurse leaders at all levels. Emphasis on self-awareness reflecting the extensive research validating that the more self-aware we are, the better leaders we become Concrete and immediate solutions providing uncommon insight and guidance for even the most intractable challenges

This book is about trust: the power when it exists, the problems when it doesn't, the pain when it is betrayed and the opportunities for its renewal. Our purpose in writing this book is to help people at all levels of any organization create, support, and, if necessary, rebuild trust in themselves and with others. This book is about creating more productive, engaging, and rewarding work environments for all, arising from work relationships built on trust, infused with spirit - relationships that inspire leaders and employees alike. The principles, practices, tools, and techniques offered in Trust & Betrayal in the Workplace apply to anyone, in any kind of relationship, at any level of responsibility, and in any kind of setting. Today, more than ever, there is a need for trust in the workplace. Our processes are growing in complexity, the global market poses increased demands on people, and

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

collaboration is needed like never before....Trust takes time to develop; it is easy to lose and hard to regain. It is a fragile yet indispensable element in any relationship. By first trusting in themselves, it is possible for leaders to develop caring, genuine relationships and build trust with their people and for employees to develop effective relationships with one another.

When Reynold Levy became the new president of Lincoln Center in 2002, *New York Magazine* described the situation he walked in to as "a community in deep distress, riven by conflict." Ideas for the redevelopment of Lincoln Center's artistic facilities and public spaces required spending more than 1.2 billion, but there was no clear pathway for how to raise that kind of unprecedented sum. The individual resident organizations that were the key constituents of Lincoln Center -- the Metropolitan Opera, the New York City Opera, the New York Philharmonic, the Juilliard School, and eight others -- could not agree on a common capital plan or fundraising course of action. Instead, intramural rivalries and disputes filled the vacuum. Besides, some of those organizations had daunting problems of their own. Levy tells the inside story of the demise of the New York City Opera, the Metropolitan Opera's need to use as collateral its iconic Chagall tapestries in the face of mounting operating losses, and the New York Philharmonic's dalliance with Carnegie Hall. Yet despite these and other challenges, Levy and the extraordinary civic leaders at his side were able to shape a consensus for the physical modernization of the sixteen-acre campus and raise the money necessary to maintain Lincoln Center as the country's most vibrant performing arts destination. By the time he left, Lincoln Center had prepared itself fully for the next generation of artists and audiences. *They Told Me Not to Take That Job* is more

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

than a memoir of life at the heart of one of the world's most prominent cultural institutions. It is also a case study of leadership and management in action. How Levy and his colleagues triumphantly steered Lincoln Center -- through perhaps the most tumultuous decade of its history to a startling transformation -- is fully captured in his riveting account.

**Sometimes the magic inside us isn't meant to be discovered. . . . Orphan, exile, priest, Josan has been posted to a lighthouse on the farthest edge of the kingdom. As a member of the collegium, he once dreamed of making a real contribution to the Learned Brethren, but those dreams died after a mysterious fever shattered him, body and mind. At least that's the story he's been told to explain a past he can't remember. But that past has returned . . . with a vengeance. When Lady Ysobel Flordelis is shipwrecked on Josan's island, this sets in motion an explosive destiny. The Seddonian trade liaison is traveling to Ikaria on official business, but her secret purpose is to revive the revolution brutally crushed years before. Neither Ysobel nor Josan can foresee the significance of their brief meeting. But as Ysobel navigates the elaborate court intrigues in Ikaria, Josan will be forced to leave his island exile and embark on a treacherous journey to unlock the secrets**

**\*\*\*THE INSTANT New York Times, Wall Street Journal, USA Today, and IndieBound BESTSELLER\*\*\* An NPR Book of the Day Picking up where the New York Times bestselling Front Row at the Trump Show left off, this is the explosive look at the aftermath of the election—and the events that followed Donald Trump’s leaving the White House all the way to January 6—from ABC News’ chief Washington correspondent. Nobody is in a better position to tell the story of the shocking final chapter of the Trump show than Jonathan Karl. As the reporter who has known Donald Trump longer than any other White House correspondent, Karl told the story of Trump’s rise in the New York Times bestseller Front Row at the Trump Show. Now he tells the story of Trump’s downfall, complete with riveting behind-the-scenes accounts of some of the darkest days in the history of the American presidency and packed with original reporting and on-the-record interviews with central figures in this drama who are telling their stories for the first time. This is a definitive account of what was really going on during the final weeks and months of the Trump presidency and what it means for the future of the Republican Party, by a reporter who was there for it all. He has been taunted, praised, and vilified by Donald Trump, and now Jonathan Karl finds himself in a singular position to deliver the truth.**

**A Christian Science Monitor Best Book of the Year From the award-winning author of Waiting and War Trash: a riveting tale of espionage and conflicted loyalties that spans half a century in the entwined histories of two countries—China and the United States—and two families. When Lilian Shang, born and raised in America, discovers her father's diary after the death of her parents, she is shocked by the secrets it contains. She knew that her father, Gary, convicted decades ago of being a mole in the CIA, was the most important Chinese spy ever caught. But his diary, an astonishing chronicle of his journey as a Communist intelligence agent, reveals the pain and longing that his double life entailed—and point to a hidden second family that he'd left behind in China. As Lilian follows her father's trail back into the Chinese provinces, she begins to grasp the extent of his dilemma: he is a man torn between loyalty to his motherland and the love he came to feel for his adopted country. She sees how his sense of duty distorted his life, and as she starts to understand that Gary too had been betrayed, Lilian finds that it is up to her to prevent his tragedy from endangering yet another generation of Shangs. A stunning portrait of a multinational family and an unflinching inquiry into the**

Breaking Through Betrayal

Betrayal has a deep fascination. It captures our imagination in part because we have all betrayed or been betrayed, in small or large ways. Despite this there has been little serious work on the subject. It was this absence that inspired this book. As Akerstrom notes, betrayal is something that most people have encountered at some point in their lives. She defines betrayal as a breach of trust, when information is shared beyond an agreed upon boundary of relations, whether that boundary is a pair of friends or a nation. Taking as a point of departure Simmers work on secrets and secrecy, Akerstrom discusses categories of betrayal, and conditions that influence its intensity. Sometimes the betrayer is seen as a hero and at other times a traitor; and sometimes there are competing loyalties. In

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

certain situations, she reminds us, it is difficult to avoid betrayal or the perception of betrayal. Akerstrom discusses strategies people employ to avoid betraying, ranging from not telling, to making sure one does not know about something in the first place. With deft precision, she clarifies distinctions and in the process broadens our understanding. Initially inspired by insights arising from her research on the criminal informer, for which she had done in-depth interviews, Akerstrom supplements these with interviews with policemen. She has also drawn from her experiences in the field of social work, particularly with women's and crime shelters. Using biographies, autobiographies and a broad range of literature related to spies, World War II, the McCarthy era, and recent literature on whistle-blowing, Akerstrom has defined a fascinating theme. While her illustrations are sometimes dramatic, she hopes that readers will perceive obvious parallels with their own experiences. Social psychologists, sociologists, criminologists, and others interested in secrecy, secrets, and those who betray them to others will find this an unusual and absorbing volume. This collection of essays by eminent traditionalists and

contemporary thinkers throws into sharp relief many of the urgent problems of today.

"This volume deals with the subject of betrayal, and is appropriate as a self-help aid for clients. It also contains useful suggestions for therapists dealing with those who have experienced betrayal of trust."--Lucy R. Ferguson, Ph.D., member, AFTNC Faculty Member and Dean Emerita, CSPP, Alliant University.

This book examines the problematic relationship between unions and the unemployed in New York City during the 1990's. Historically, trade unions in the U.S. have had an interest in the political mobilization of the jobless to expand unemployment insurance and lessen the threat of lower wages, reduced union density, and weaker bargaining positions for unions. Despite these advantages, trade unions have rarely organized the unemployed, because they represent a potential threat to the organizational control, leadership, and legitimacy of the trade unions themselves. Moreover, the interests of the unemployed conflict directly with those of the securely employed trade unionist. The study identifies union responses to unemployment

## Access Free The Betrayal Of Work: How Low Wage Jobs Fail 30 Million Americans

at local and regional levels and the responses of independent activist organizations. The research suggests that hiring hall unions produce exclusive organizing strategies that have deeper accountability to their members, but with organizing objectives that serve only the narrow interests of core members. By contrast, workplace-based unions typically engender class-oriented unions with narrow accountability to members, but with organizing objectives that extend beyond their immediate members.

"[A] passionate, compelling, and disturbing argument that the ills of democracy in the United States today arise from the default of its elites." —John Gray, *New York Times Book Review* (front-page review) In a front-page review in the *Washington Post Book World*, John Judis wrote: "Political analysts have been poring over exit polls and precinct-level votes to gauge the meaning of last November's election, but they would probably better employ their time reading the late Christopher Lasch's book." And in the *National Review*, Robert Bork says *The Revolt of the Elites* "ranges provocatively [and] insightfully." Controversy has raged around Lasch's targeted attack on the elites, their loss of moral values, and their abandonment of the middle class and poor, for he sets up the media and educational institutions as a large source of the problem. In this spirited work, Lasch calls out for a return to community, schools that teach history not self-esteem, and a return to morality and even the teachings of religion. He does this in a nonpartisan manner, looking to the lessons of American history, and castigating those in power for the ever-widening gap between the economic classes, which has created a crisis in American society. *The Revolt of the Elites and the Betrayal of Democracy* is riveting social commentary.

Examines the formidable challenges facing the middle class, calling for fundamental changes while

surveying the extent of the problem and identifying the people and agencies most responsible. A wide-ranging look at the allure and changing significance of work. With seductions, misunderstandings, and misinformation everywhere, this immensely readable book calls for a new contract--with ourselves. Drawing from history, mythology, literature, pop culture, and practical experience, Ciulla probes the many meanings of work or its meaninglessness and asks: Why are so many of us letting work take over our lives and trying to live in what little time is left? What has happened to the old, unspoken contract between worker and employer? Why are young people not being disloyal when they regularly consider job-changing? Employers can't promise as much to workers as before. Is that because they promise so much to stockholders? Why are there mass layoffs and "downsizing" in a time of unequaled corporate prosperity? And why are the most common lies in business about satisfactory employee performance? The traditional contract between employers and employees is over. This thoughtful and provocative study shows how to replace it by the one we make with ourselves.

The presumed sovereignty of individuals and the facilitating powers of the markets have generated a universal and ethically neutral conception of both social and economic organisation. This groundbreaking text re-examines the purpose of society and the role of economics in it, arguing that the absence of a beneficial natural order calls for the role of the collective in social and economic life to be revisited. Drawing on some key figures marking milestones in the evolution of social and economic thinking, the author offers a critique of mainstream economics as a way of thinking and as a provider of guiding principles for economic and social organisation. Volume I introduces the

reader to the emergence of natural order; considers the internal logic of economics and how it managed to be so persuasive in its recommendation for competitive interactions to govern all aspects of social life in all societies and across them; demonstrates that the economic conception of an order which solves society ' s economic problem is, in fact, an impossibility that turns the natural phenomenon of markets into a problem rather than an ideal; and, addresses the other apparent appeal of markets: their association with the ideas of freedom and justice. This is a bold and foundational new work that offers an original and innovative perspective on economics and its challenges, addressing core areas such as behavioural economics, evolutionary game theory and links between social sciences (anthropology, philosophy) and neurosciences. ”
