If you can't stand the heat, don't walk into the fire. Danny knew his sophomore year would be stressful . . . but he didn't expect his school to burn down on the first day. To make matters worse (and they were about to get a lot worse), he -- and his three best friends -- receive an email in their inboxes from the principal of their rival, King's Academy, offering full-rides to attend the town's prestigious boarding school. Danny wants nothing to do with King's Academy and says no. Of course his mother says yes. So off he goes to be bullied and picked on for not being part of the popular and rich "in crowd." From day one at King's, Danny encounters hazing, mocking insults from girls at the "popular and pretty" table, and cafeteria food that, for such a prestigious school, tastes as if it were purchased from a military surplus supply warehouse. If he survives, Danny will have to overcome his fears of failure, rejection, and loneliness--all while

Claude Ponti's nimble wordplay and punning, combined with his phantasmagorical and joyful illustrations, create an endearing gem of a book, bound to be a bedtime story favorite. From one of the world's most beloved children's book authors comes a story of a high-spirited flock of friends building an unusual birthday cake. A rabble of soft, golden "chicklets" are awoken one morning to a startling proclamation: they only have ten short days to prepare for their best friend Bertha Daye's party. It's time to get to

work building a larger-than-life castle cake to house and feed the revelers. Made of chocolate scooped out of chocolate mines, “finer than fairy dust” flour from the hillsides, and fruit carried down twigs and stems in the forest, this will be the best—and kookiest—cake of all time. Oodles of distinctive chicklets fill every page, scurrying, fluttering, napping, tumbling, helping, and getting up to no good. When the party day arrives, guests pour into the pastry palace, many of them unmistakable characters from iconic stories’ past, offering a marvelous who’s-who of story-book history.

Can a disease, more importantly, cancer, be a potent tool of self-evolution for both, the person who suffers from it, and his/her caregivers, especially parents? The value of good health is realized when it no more remains with us. The journey to salvage the lost friend can still offer myriad opportunities of redemption and self-discovery. It is up to us how we decide to tread this formidable path leading to self-actualization. Time has made us realize that it is not fair to stereotype a person suffering from cancer from the point of view of cure or recovery. Many a time, such stereotyping comes from our own society, and sometimes, ironically,

from the medical fraternity, for its inability to go beyond a point, after which you feel you are condemned and vegetative. All these negativities passively entrap the patients and their parents in the viciousness of the disease where they die many times before the actual death. This is the worst form of cancer which has plagued our mindset. In the case of Divyansh Atman, the authors' son, it was not so. Divyansh was the embodiment of courage and self-determination in the face of adversities. His life journey shows us how the path of opportunities can still be paved in the middle of adversities. He lived a big and a meaningful life that made a huge impact on the lives of people around him. Cancer can bring in self-evolution, both for the sufferer and his caregivers. An inspirational memoir. A soul stirring account of a young boy who suffered from cancer but lived a life which inspired many. A true story of grit and human strength. To be read by every parent who grieves the

**Master storyteller Stephen King (writing as Richard Bachman) presents this gripping and remarkable New York Times bestselling crime novel about a damaged young man who embarks on an ill-advised kidnapping plot—a work as taut and riveting as anything he has ever written. Once upon a time, a fellow named Richard Bachman wrote Blaze on an Olivetti typewriter, then turned the machine over to Stephen King, who used it to write Carrie. Bachman died in 1985 (“cancer of the pseudonym”), but this last gripping Bachman novel resurfaced after being hidden away for decades—an unforgettable crime story tinged with sadness and suspense. Clayton Blaisdell, Jr., was always a small-time delinquent. None too bright either, thanks to the beatings he got as a kid. But there's only one problem: by the time the deal goes down, Blaze's partner in crime is dead. Or is he?**
