at some point in our lives. And a lot of us think that means keeping our money “safe” in savings accounts, and not investing it. But not doing so has an opportunity cost that will lead to opportunities lost—the ability to pay for a college education, own a home, change careers to pursue a dream, or retire. Alice Finn wants to change how you think about your money, no matter how much or little you have. In Smart Women Love Money, Finn paves the way forward by showing you that the power of investing is the last frontier of feminism. Drawing on more than twenty years of experience as a successful

wealth management adviser, Finn shares five simple and proven strategies for a woman at any stage of her life, whether starting a career, home raising children, or heading up a major corporation. Finn's Five Life-changing Rules of Investing will secure your financial future: 1. Invest in Stocks for the Long Run: Get the magic of compounding working for you, starting now. 2. Allocate your Assets: Strategize your investing to get the most of your returns. 3. Implement with Index Funds: Take advantage of "passive" investing with simple, low-cost, and diverse funds. 4. Rebalance Regularly: Sell high and

buy low without much effort, to keep you on track toward your goals. 5. Keep Your Fees Low: Uncover hidden fees so you don't lose half of your wealth to Wall Street. Finn will also provide the tools you need to achieve long-term success no matter what the markets are doing or what the headlines say. So even in the face of uncertainty— such as the possible dumping of the fiduciary rule (requiring financial advisers to act in their client's best interests) by the Trump administration—Smart Women Love Money will help you protect yourself and all of your assets for your future. What does a woman want to do when she retires? Travel? Pursue hobbies? Spend time with friends and family? We all have dreams about what those days will be like. But when it comes to turning those dreams into reality, women's retirement confidence and know-how is low. According to a 2012 survey, 92 percent of women of all ages in this country don't feel they're educated enough to reach their retirement savings goals. For the woman who doesn't know where to start or would like a knowledgeable guide who speaks her language, financial expert Mary Hunt offers a comprehensive but approachable

Whether she feels entitled to retire at age 65, hopes she'll be able to stop working someday, or is convinced she'll never be able to retire, every woman will find real help in these pages. With her signature no-nonsense, energetic style, Hunt assures women that it's only too late if they don't start now. She clearly covers every aspect of retirement planning during every season of a woman's life, giving women the confidence they need to shape their futures. Christmas may be the most wonderful time of the year, but it's also one of the most

But you don't have to overspend or go into debt to have a fabulous holiday. Financial expert Mary Hunt shows readers how. She helps readers assess their financial situation, commit to no new debt, and think creatively about their gift list. With Mary's guidance, readers will identify what has caused them to overspend in the past and

acceptance, one day at time.

In Confidence Culture, Shani Orgad and Rosalind Gill argue that imperatives directed at women to “love your body” and “believe in yourself” imply that psychological blocks rather than entrenched social injustices hold women back. Interrogating the prominence of confidence in contemporary discourse about body image, workplace, relationships, motherhood, and international development, Orgad and Gill draw on Foucault’s notion of technologies of self to demonstrate how “confidence culture” demands of women

near-constant introspection and vigilance in the service of self-improvement. They argue that while confidence messaging may feel good, it does not address structural and systemic oppression. Rather, confidence culture suggests that women—along with people of color, the disabled, and other marginalized groups—are responsible for their own conditions. Rejecting confidence culture's remaking of feminism along individualistic and neoliberal lines, Orgad and Gill explore alternative articulations of feminism that go beyond the confidence imperative.
