The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at

The Bible Doesn't Say That explores what the Bible meant before it was misinterpreted over the past 2,000 years. Acclaimed translator and biblical scholar Dr. Joel M. Hoffman walks the reader through dozens of mistranslations, misconceptions, and other misunderstandings about the Bible. In forty short, straightforward chapters, he covers morality, life-style, theology, and biblical imagery, including: \*The Bible doesn't call homosexuality a sin, and it doesn't advocate for the one-man-one-woman model of the family that has been dubbed "biblical." \*The Bible's famous "beat their swords into plowshares" is matched by the

militaristic, "beat your plowshares into swords." \*The often-cited New Testament quotation "God so loved the world" is a mistranslation, as are the titles "Son of Man" and "Son of God." \*The Ten Commandments don't prohibit killing or coveting. What does the Bible say about violence? About the Rapture? About keeping kosher? About marriage and divorce? Hoffman provides answers to all of these and more, succinctly explaining how so many pivotal biblical answers came to be misunderstood.

Transforming outdoor space is one of the hottest home trends today. Landscaping expands living space square footage, makes a property more usable, and keeps homeowners healthier whether they grow vegetables or swim laps. It also makes a neighborhood more aesthetically attractive and community minded. The Garden Bible can help homeowners understand the

challenges of their outdoor space and what they need to do to create their garden and make it thrive. Photographed in rich full-color, this book will teach you how to develop a master plan for your yard. Many garden books explain how to grow specific flowers, care for shrubs, trees and lawn, and construct fences and hardscape. None take a homeowner from the beginning of the process: how to ask a professional the right questions, how to develop a budget, and how to identify and troubleshoot the challenges of their yard—drainage, erosion, privacy, noise, wind, too much or too little sun or shade. The Garden Bible will help you plan and problem solve so that your garden will grow, evolve, and be sustainable for years to come. Few books delve into landscaping style and cost-saving solutions as this insightful, beautifully illustrated book does. Barbara Ballinger, a well-known real estate, design and garden

Showcasing the stories of how almost 30 home owners designed, budgeted and built their landscapes—The Garden Bible shows you that not only is a great garden beautiful to look at, but it's also great for the soul.

Ethics at the Edges of Law makes the case that religious moralists should treat the discipline of law as a valuable conversation partner, rather than reducing it to a vehicle for enforcing judgments about morality and public policy. Religious moralists should treat the secular law as a source of moral wisdom and conceptual insight, in the same way that they treat the discipline of philosophy. Cathleen Kaveny develops her argument by showing how the work of a range of important contemporary figures in Christian ethics, including John Noonan, Stanley Hauerwas, and Margaret Farley, can be enriched and illuminated by

engagement with particular aspects of the American legal tradition. The book is divided into three parts: Part I, "Narratives and Norms," examines how the workings of the legal tradition can shed light on the development of religious and moral traditions. Part II, "Love, Justice, and Law," uses particular legal cases and controversies to advance questions about the relationship of love and justice in Christian ethics. Part III, "Legal Categories and Theological Problems," shows how legal categories and concepts can help reframe and even resolve particular moral controversies within religious communities. Ethics at the Edges of Law jumpstarts a fruitful, mutually engaged conversation between the American legal tradition

“Martha Minow is a voice of moral clarity: a lawyer arguing for forgiveness, a scholar arguing for evidence, a person arguing for compassion. ” —Jill Lepore, author of *These Truths* In an age increasingly defined by accusation and resentment, Martha Minow makes an eloquent, deeply-researched argument in favor of strengthening the role of forgiveness in the administration of law. Through three case studies, Minow addresses such foundational issues as: Who has the right to forgive? Who should be forgiven? And under what terms? The result is as lucid as it is compassionate: A compelling study of the mechanisms of justice by one of this country ' s foremost legal experts.

"This collection of essays by Isaiah M. Gafni reflects over forty years of research on central issues of Jewish history in one of its formative eras. Questions relating to representations of the past, beginning with Josephus but primarily in rabbinic and post-rabbinic literature, represent an axial theme in this volume. Throughout the collection the author addresses the tension between realities on the ground and the historiography that shaped the image of that reality for all subsequent generations. **freedom. The 1970s was a decade of regulatory triumphalism in North America, marked by a surge in consumer, securities, and environmental regulation. Legal scholars predicted the “death of contract” and its replacement by regulation and reliance-based theories of liability. Instead, we have witnessed the reemergence of free bargaining norms. This revival can be attributed to the rise of law-and-economics, which laid bare the intellectual failure of anticontractarian theories. Contract law principles have also been very robust in areas far afield from traditional contract law, and the essays in this volume consider how free bargaining rights might reasonably be extended in tort, property, land-use planning, bankruptcy, and divorce and family law. This book will be of particular interest to legal scholars and specialists in contract law. Economics and public policy planners will also be challenged by its novel arguments. Contributors.**

This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government

systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.
