Out," he will take us to the most extraordinary location of all—inside the mind. Growing up can be a bumpy road, and it's no exception for Riley, who is uprooted from her Midwest life when her father starts a new job in San Francisco. Like all of us, Riley is guided by her emotions – Joy, Fear, Anger, Disgust, and Sadness. The emotions live in Headquarters, the control center inside Riley's mind, where they help advise her through everyday life. As Riley and her emotions struggle to adjust to a new life in San Francisco, turmoil ensues in Headquarters. Although Joy, Riley's main and most important emotion, tries to keep things positive, the emotions conflict on how best to navigate a new city, house and school. In this groundbreaking and illuminating film, Pixar Animation Studios examines the extraordinary depths of the mind and the powers of emotion and imagination. The Art of Inside Out provides an exclusive look into the artistic exploration that went into the making of this vibrant film. Featuring concept art—including sketches, collages, color scripts, and much more—and opening with a foreword by actress Amy Poehler and introduction by the film's writer and director Pete Docter, this is the ultimate behind-the-scenes experience of the making of this landmark film. Highlights the life and accomplishments of the famous cartoonist who created Mickey Mouse, Snow White and the Seven Dwarfs, and Bambi and was the owner of Walt Disney Studios and Disneyland.

"Drawn to life is a two volume collection of the legendary lectures from long-time Disney animator Walt Stanchfield. For over twenty years, Walt helped breathe life into the new golden age of animation with these teachings at the Walt Disney Animation Studios and influenced such talented artists as Tim Burton, Brad Bird, Glen Keane, and John Lasseter. These writings represent the quintessential refresher for fine artists and film professionals, and it is a vital tutorial for students who are now poised to be part of another new generation in the art form."--Back cover.

Walt Disney once said of Marc Davis, "Marc can do story, he can do character, he can animate, he can design shows for me. All I have to do is tell him what I want and it's there! He's my Renaissance man." As such, Davis touched nearly every aspect of The Walt Disney Company during his

tenure. He began as an animator, whose supporting work on Snow White and the Seven Dwarfs and Bambi inspired Walt to promote him to full animator. In the ensuing years, Davis breathed life into a bevy of iconic Disney characters, including Cinderella, Alice (in Wonderland), Tinker Bell, Maleficent, and Cruella De Vil. Then, in 1962, Walt Disney transferred the versatile Davis to the Imagineering department to help plan and design attractions for Disneyland and the 1964 65 New York World's Fair. While at Imagineering, Davis conceived of designs for such classic attractions as Jungle Cruise, Pirates of the Caribbean, and Haunted Mansion. As Davis had so many talents and hats, it is only fitting that this tribute be composed by a multitude of talented writers. Experts in fine art, animation, Imagineering, and filmmaking have come together to honor Davis's contributions to their realms. Each chapter is accompanied by a wealth of artwork, much of which was offered up by Alice Davis exclusively for this book. This volume is both the biography and the portfolio of a man who was, on any given day, animator, Imagineer, world traveler, philanthropist, husband, and teacher.

The fascinating history of the art of animation focuses on the pioneering team of William Hanna and Joseph Barbera, whose innovative techniques and such memorable characters as Yogi Bear and Fred Flintstone created an empire of television animations. Established in October 1923, the Ink & Paint Department set up shop at the first Disney studios on Kingswell Avenue in Los Angeles before moving to the Disney Hyperion Studio, and finally to the Burbank Studios in 1940. At the height of production, the staff was comprised primarily of women, numbering more than 250 artists and technicians. Today, this vital division continues with a small number of talented artists who keep the hand-made magic alive, even with the advent of 3-D animation. In this glossy volume, featuring never-before-seen photos, artwork, and detailed accounts, the process, techniques, and contributions of the women—and men—who defined the Walt Disney Studio's legendary Ink & Paint Department over the years are carefully explored, preserved, and shared for future generations.

From award-winning author Tonya Bolden comes a biography of the first Black woman elected to the U.S. House of Representatives and the first Black woman to run for president with a major political party: Shirley Chisholm. Before there was Barack Obama, before there was Kamala Harris, there was Fighting Shirley Chisholm. A daughter of Barbadian immigrants, Chisholm developed her political chops in Brooklyn in the 1950s and went on to become the first Black woman elected to the U.S. House of Representatives. This "pepper pot," as she was known, was not afraid to speak up for what she thought was right. While fighting for a better life for her constituents in New York's 12th Congressional District, Chisholm routinely fought against sexism and racism in her own life and defied the norms of the time. As the first Black woman in the House

and the first Black woman to seek the presidential nomination from a major political party, Shirley Chisholm laid the groundwork for those who would come after her. Extensively researched and reviewed by experts, this inspiring biography traces Chisholm's journey from her childhood in a small flat in Brooklyn where she read books with her sisters to Brooklyn College where she got her first taste of politics. Readers will cheer Chisholm on to victory from the campaign trail to the hallowed halls of the U.S. Capitol, where she fought for fair wages, equal rights, and an end to the Vietnam War. And while the presidential campaign trail in 1972 did not end in victory, Shirley Chisholm shows us how you can change a country when you speak up and speak out.

Gorgeous never-before-published photographs and fascinating personal memories celebrate the half-a-century career of Disney Legend Ub Iwerks, a self-taught animator who became the first to animate Mickey and Minnie Mouse and an exceptional draftsman, prolific innovator, and all-around technical genius who directly collaborated with Walt Disney to create some of the most loved moments throughout film and theme parks. Even before the creation of Mickey, Walt established a reputation as a technical leader in Hollywood and frequently relied on the counsel, expertise, ingenuity, and creativity of a kindred spirit, lifelong friend, and fellow virtuoso: Ub Iwerks. Up till now, Ub and his many technical inventions and techniques have been largely unknown by the general public. His illustrious career consisted of dozens of innovative contributions, large and small, to both animated and live-action motion pictures, as well as the fields of optics, film processes, and special effects. He was also the major force behind the design of special cameras, projectors, electronics,
