Why do decisions in universities take so long and involve so many people? Why isn't growth a priority for colleges? Why can't faculty be managed like any other employees? How can alumni work more effectively with campus leaders? As leaders in higher education with years of experience working with business executives, governing boards, faculty, consultants, and alumni, James W. Dean Jr. and Deborah Y. Clarke have noticed that these questions often arise, revealing that many business-based partners have a limited understanding of academic institutions. This book offers practical guidance for those who seek to invest in and help enhance higher education. Dean and Clarke advocate for the distinctive missions and structures that make universities unique among American enterprises. And while they acknowledge the challenges often faced when working with academic institutions, they argue that understanding institutional mission is essential to improving the effectiveness of business leaders

who engage in higher education. Presenting numerous real-world insights and drawing from interviews with a range of stakeholders, Dean and Clarke chart a path for building and sustaining relationships that work to strengthen higher education.

A New York Times Bestseller "A rich portrait of the urban poor, drawn not from statistics but from vivid tales of their lives and his, and how they intertwined." —The Economist "A sensitive, sympathetic, unpatronizing portrayal of lives that are ususally ignored or lumped into ill-defined stereotype." —Finanical Times Foreword by Stephen J. Dubner, coauthor of Freakonomics When first-year graduate student Sudhir Venkatesh walked into an abandoned building in one of Chicago's most notorious housing projects, he hoped to find a few people willing to take a multiple-choice survey on urban poverty--and impress his professors with his boldness. He never imagined that as a result of this assignment he would befriend a gang leader named JT and spend the better part of a decade embedded inside the projects under JT's protection. From a privileged position of unprecedented access, Venkatesh observed JT and the rest of his gang as they operated their crack-selling business, made peace with their neighbors,

evaded the law, and rose up or fell within the ranks of the gang's complex hierarchical structure. Examining the morally ambiguous, highly intricate, and often corrupt struggle to survive in an urban war zone, *Gang Leader for a Day* also tells the story of the complicated friendship that develops between Venkatesh and JT--two young and ambitious men a universe apart. Sudhir Venkatesh's latest book *Floating City: A Rogue Sociologist Lost and Found in New York's Underground Economy*—a memoir of sociological investigation revealing the true face of America's most diverse city—is also published by Penguin Press.

Innovation in technology means that almost anyone can make an independent film these days. Although this may be good news for aspiring filmmakers, it also means that the oversupply of independent films on the market has caused acquisition prices to dramatically decrease. As a result, producers and investors rarely recover their initial investment in the films they make. But don't be discouraged! Use this book to learn the realities of the market in advance and map out a winning distribution plan. This comprehensive manual for filmmakers and producers dedicated to film distribution and the marketplace could mean the difference between getting your film out to the public and keeping it "in the can." Learn how to sell your movie to a studio, a cable network, a video distributor, or international buyers. Self-distribution and other alternatives to traditional distribution are also considered. As well, you'll hear some success stories from producers and hear directly from buyers what they are seeking. Stacey Parks has worked with dozens of hungry filmmakers to get their films a distribution deal and knows how frustrating the whole process can be. Let her tell you how you can take control of your filmmaking career and start getting your work seen by audiences with a few little-known distribution secrets. Features include: * Interviews and case studies with producers and distributors * Ten Ways to Market Your Film for Self-Distribution * Sales Projections per Territory * Distribution Resource Listings * Negotiation tips for distribution agreements * Sample
