

The Lost Fleet: Oblivion's Light: A Slaver Wars Novel

Jutland was the only major fleet engagement to take place during the First World War, and indeed the only time in history in which columns of great dreadnought battleships fought each other. In spite of terrible losses of life, the battle did nothing to change the strategic situation in northern European waters, in fact it simply confirmed Britains command of the seas and her ability to enforce it. Germanys downfall.

Lia, a genetically-engineered human bomb, is sent to the New Sol Space Station in order to destroy it, but when her internal clock malfunctions, she must find a way to diffuse the bomb within her and attempt to live a normal, human life.

The war with the profoundly alien Arduans has ended, and the Arduans have come to call humanity their allies. Most of them—the Arduan warrior caste refuses to accept defeat. Now known as the Kaituni, they are waging a war of extermination against all members of the pan-Sentient Union, human and Arduan alike. What's more, the Kaituni have an unexpected weapon in their arsenal: the alien Arachnids, once thought driven to extinction. The Kaituni drive the Arachnid fleet ahead of them, inflicting untold damage. The war has been marked by retreat on the side of the pan-Sentient Union. It seems the best they can do is minimize their losses. But now the Arachnids and the Kaituni are at the doorstep to the Heart Worlds, Sol, and Earth: Alpha Centauri. The odds look bleak. But Admiral Ian Trevaune and Commodore Ohsian Wethermore have faced down long odds in the past. It's time to take a stand, for Earth, for humanity. . . . and for the pan-Sentient Union! Captain Jean Luc Picard accepts a courageous mission which he soon finds could be a deadly trap in this Star Trek: The Next Generation novel. In 1893 a time-traveling Jean-Luc Picard encountered a long-lived alien named Guinan, who was posing as a human to learn Earth's customs. During this "first encounter," Picard saved Guinan's life, a favor she would never forget. Five centuries later, Captain Picard, now commander of the Starship Enterprise™, brought Guinan aboard as the ship's "bartender." The hope was that her wisdom and inner peace would provide a moral grounding for Picard's crew as they experienced the dangers of space. Because he hadn't yet made his trip through time, Picard had no knowledge of his nineteenth-century meeting with Guinan. But he did remember a different first encounter with the mysterious Eî-Aurian—a tumultuous adventure in which Picard and Guinan would risk their lives in a maze of interplanetary intrigue, with the future of the known universe at stake. This is the story of that fateful meeting, and of a Guinan very different from the woman we think we know—a person wracked by pain and longing, shaken to the roots of her soul. A Guinan who yearns for oblivion.

This is a no-holds-barred memoir, who presents himself as an indomitable and unapologetic scoundrel. Rafael Obris da Silva was an owner of the historic Chateau Maurice in Macau until 1995, when he moved to Lisbon with his family.

For centuries, the Daegon waited. They plotted. And now they are ready to strike. The core worlds of settled space enjoy a tenuous peace, unaware and ill prepared for the threat building beyond the furthest reaches of humanity. The star kingdom of Albion stands as a shining light of justice and mercy in a harsh galaxy, and they will be the first to suffer the Daegon's Fury. Defying his low born status, and despite his self-doubt, Commodore Thomas Gage has risen through the ranks by sheer grit and determination, defending Albion from brutal pirate clans. And when the onslaught comes, Gage and his fleet may be Albion's last hope for freedom. A new military science-fiction series for fans of Honor Harrington, Earth Alone and Old Man's War from the author of the best-selling Ember War Saga.

Germany's High Seas Fleet in the World War

The Slaver Wars: Galactic Conflict

During the year between July 1588, when the Spanish Armada set sail from Spain and July 1589, when the survivors of the English counterpart of this fleet, the little-known English Armada, reached port in England, two of history's worst naval catastrophes took place. A great deal of attention has been dedicated to the former and precious little to the latter. This book presents a full-scale account of an event which has been neglected for more than four centuries. It reconstructs the military operations day by day for the first time, taking apart the established notion that, with the defeat of the Spanish Armada, England achieved maritime supremacy and the decay of Spain began. This book clearly and in a rigorously documented fashion shows how the defeat of the English Armada counterbalanced that of the Spanish, frustrating England's intention of seizing Philip II's American empire and changing the tide of the war.

Two more years have passed for the Lost Fleets trapped in the Triangulum Galaxy. It's becoming more apparent with each passing day that the Dyson Sphere of the Simulins must be destroyed if Fleet Admiral Jeremy Strong and his people want to survive. Rear Admiral Kathryn Barnes sets out on a mission of discovery seeking allies against the Simulins. What she finds threatens to increase the conflict between the Lost Fleets and the Simulins to a whole new level. Can she make it safely back to Gaia with her discovery, which could change the entire war in the Lost Fleets favor? Admiral Race Tolsen is assigned a new mission in the home galaxy. Simulin ships have been detected in Shari space, and the Federation needs to know why. Race is sent to the Shari Empire with the knowledge that if his small task force is discovered it could lead to a new galactic war.

The companion volume to The Earth Chronicles series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who work from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

Naval Warfare 1919-45 is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two. Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world, this book ranges far and wide: sweeping across all naval theatres and those powers performing major, as well as minor, roles within them. Armed with the latest material from an extensive set of sources, Malcolm H. Murfett has written an absorbing as well as a comprehensive reference work. He demonstrates that superior equipment and the best intelligence, ominous power and systematic planning, vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea. Sometimes the narrow difference between victory and defeat hinges on those infinite variables: the individual's performance under acute pressure and sheer luck. Naval Warfare 1919-45 is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public.

'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this plight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germony. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the emprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.
