Ancient myths told of a place called Earth, but the modern world knew it was nonsense. Science knew the Ship was all the Universe, and as long as the sacred Converter was fed, lights would glow and air would flow through the miles of metal corridors. Hugh never questioned these truths until a despised mutie showed him the Control Room and he learned the true nature of the Ship and its mission.

slave of an alien master, who doesn't know how to be human. Against the vast empire, Glen and Elise have nothing to oppose the aliens but their wits, a spaceship, and a handful of allies—an ethereally beautiful alien artist, her equally handsome brother, and a quadruped mob boss protecting her teenage daughter. Together, they must steal a sacred text out from under the Regency's very noses, rescue Elise's father, and hope he can solve the mystery of the Progenitors' whereabouts. If he can, they must pray humanity's salvation can be found on... The Lost Planet.

The soldier turned spy felt desperately lost, alone and out of place. There were no familiar faces. But an intense sense of duty drove him headlong into danger. And yet...and yet...there was something more, something missing that he increasingly wanted to know. So began The Soldier's odyssey in a future time that would change the destiny of the universe.

Last voyage, Captain Maddox entered a distant star system with a Swarm fleet. The sheer numbers were staggering, a 100-1 advantage against all human spacecraft. If the highly aggressive, racist insects gained hyper-spatial tube technology-allowing them to cross a thousand light-years in seconds-it would mean Armageddon for Earth. Star Watch desperately needs something powerful to offset the annihilating Swarm numbers. As if on cue, Professor Ludendorff declares he has discovered the whereabouts of ancient Builder technology, a

Ludendorff has a plan involving androids to lure his arch rival-Methuselah Man Strand-to his doom. The crew of Starship Victory knows nothing of this and thus blindly enters a web of intrigue and danger. The captain will need the AI Galyan, Valerie and Riker like never before. Humanity's hope against the coming Swarm holocaust rests on the outcome. THE LOST PLANET is the sixth book in the LOST STARSHIP SERIES.

Meanwhile, the large cast of compelling characters entertains and the Northwyth legends draw you into their magic.

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and

resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

For the first time in over 75 years, three of the 'lost' plays presented by the famed Group Theatre are now back in print. A huge part of American Theatrical History is now available to the public! The book features '1931-' by Claire and Paul Sifton, and 'Success Story' and 'Gentlewoman' by John Howard Lawson. Foreword by the legendary Estelle Parsons, with additional material by George Bartenieff, Jonathan Chambers, Jeffrey Lawson and Allie Mulholland. '1931-' by Claire & Paul Sifton is the story of Adam, who is fired from his warehouse job at the start of the play. Proud and determined, he sets out to find another job, only to find hundreds of other men in the same situation. Without a paycheck, Adam soon realizes how much he has to lose; health, dignity, hope, and possibly even the

young shop girl he loves. Alternately, it is the story of all the men, young and old in Adam's situation. These are the men who sleep in the parks, beg for coins and even turn to crime when there seems to be no other option. When their story and Adam's comes to a head at the gripping finale, there is only one way left to turn: revolution. One of the preeminent playwrights of the early 20th century, John Howard Lawson was the first playwright to have 2 plays presented by the Group Theatre. SUCCESS STORY is a classic tale of ambition, the American Dream and what actually constitutes "success." Set in the New York advertising agency, we follow the rise of Sol Ginsburg and his struggles for contentment, before and after, the 1929 stockmarket crash. In 1934, The Group presented Mr. Lawson's GENTLEWOMAN. It is the story of socialite, Mrs. Gwyn Ballantine, who falls for the "inspired Bohemian" Rudy Flannigan. After it is discovered her husband has been committing scandalous business deals, Gwyn is tempted to pursue her passions for the poet Flannigan, despite their conflicting social standing. Can she turn her back on her

privileged status and extravagant tastes in the name of love?

Androids used to mingle among us, pretending to be human. Then an alien puppet-master altered their programming. Unknown to us, androids began leaving human society, burning their clothes and peeling off their skin to reveal the chrome-colored bodies underneath. They gathered in a system where a star had exploded, blowing away the atmosphere of a Jupiter-like planet. The supernova had hurled heavy metals against the remaining core. The androids are mining supermetals that can turn ordinary ship weapons and shields into invincible armaments. The altered programming includes human genocide, which will start with a murderous attack on Earth. Luckily, Captain Maddox finds the enemy system.
