

The Passive Income Myth: How To Create A Stream Of Income From Real Estate, Blogging, Bonds And Stocks Investing Basics

You've seen the book titles. They start with, "How to," and end with some ridiculous promise of a six-figure income or the word, "from home." Search for 'How to make passive income' in Google and you're blasted by more than seven million results. You can practically feel the swindlers screaming out at you from the screen. Making money on your investments is a powerful draw and ripe for all kinds of scams, scoundrels and shysters. But in the fiction, there's a little truth to be found. The truth that more than a few people have built massive success stories through the four most popular strategies. The truth that many of the strategies can be started in your spare time and require little cash to get started. This book is about that truth. The Passive Income Myth is your opportunity to cut through the B.S. and scams to see how money really can be made in four passive income strategies. I have been involved in every strategy described. Knowing what I have picked up over the last twenty years will save you years of time learning and mistakes made. Each strategy can be read separately or as a part of a complete system to put together true passive income potential. In this book you'll learn: - The exact process I used to make more money on blogging that 81% of bloggers in less than a year (page 46) - 5 simple criteria I use to pick dividend stocks that will create stable cash flow forever (page 88) - The fixed-income investment that is replacing bonds as the safety and income investment (page 122) - Sources of special real estate loans with as little as 3.5% down (page 12) - The step-by-step process to value residential real estate (page 16) - How to invest in real estate without the tenant headaches or even touching a property (page 30) - An investment that has nearly doubled the annual return on stocks over the last 20 years, and has another 20 years to go (page 99)

Do you KNOW the Fact and Fiction of Passive Income and Making Money Online? You can start a passion-based business and bring it to the point where you're earning more money for less direct effort on your part. That is the essence of passive income: structuring your business so that you can leverage your time into higher earnings for fewer hours of direct involvement. There are so many websites, seminars, and e-books available on the topic that the information can be overwhelming. Some say you'll be working 60 hours a week because passive income isn't so passive, others claim that you'll become lazy once your

new six-figure income starts rolling in -within the next year to boot! My favorites are the ones that manage to simultaneously claim you'll be working sixty hours a week while also becoming lazy. And, no matter what, the key to all of these programs seems to be happy thoughts, whether they're mixed with hard work or cocktails on the beach. I can assure you, the methods in this book are not going to include promises that money will come floating to you from the sky atop a pink unicorn whose magic is powered by your positive thinking. The unicorn will be purple, obviously. No, unfortunately, the myth about passive income is not true. The Lottery remains the only way to become wealthy by doing nothing. You can take that bet if you want to, but wouldn't you rather bet on yourself instead? Myths are usually based in reality, and the reality is that you can become wealthy by doing something you love. You can't guarantee the lottery, but you can count on yourself. You can create a passion-based business and bring it to the point where you're earning more money for less direct effort on your part. That is the essence of passive income: structuring your business so that you can leverage your time into higher earnings for fewer hours of direct involvement. Before you can do this, however, you have to understand the facts about passive income, among other things. You see, there are all sorts of ways you can create a business in which you're doing fulfilling work while building a good income. However, your income won't be passive unless you are taking a passive role in the business. Depending on what you want to do, it may be a while before you can or want to take a passive role. Even then, the passive role isn't as passive as it sounds.

Create wealth and become financially independent through Profitable Investments Virtually everyone would like to generate wealth, yet very few know how to start doing so. Financial freedom is a concept that has been talked about a lot lately. It is clear that most people want to be financially free, although there is no unanimity when it comes to addressing this issue. I'll explain myself. On the one hand, there are persons who think that being financially free is a myth, a legend, and unattainable, that is, something that would be fine but who doubt that it can be achieved. On the other hand, there are others that claim to have the keys and secrets to achieve it, but when you listen to them, all they offer are obvious things like saving more or not spending on what is not strictly necessary. Finally, there are people who have abandoned their jobs for someone else and have become self-employed, believing that this

is the way that will free them from economic problems, which obviously does not have to be the case. What do I think? My position is that financial freedom is a perfectly achievable state and to achieve it, you have to devise and implement a specific strategy that will help you achieve it. I don't think it's a myth, nor do I think it can be achieved by just saving more or by self-employment. It is a reality that you can incorporate into your life if you put yourself to it with the necessary knowledge and teachings. For me, financial freedom is the state in which you live away from worries about money, since you have reached the state in which you have transcended them. Why? Because your level of income is higher than your level of expenses and in this way, you have enough means to live a satisfactory, full and abundant life from an economic point of view. Not only that; ideally, it would be the state in which you can live without what most people would call work, that is, without having to go to a certain place to do some things in exchange for a certain amount of money. And this is because the income you receive, thanks to the system you have established and which you will discover in this book, allows it without major problems. And is that possible? Of course, yes, as you will discover in this book. The strategy to achieve this status is to create a diversified system of passive income that operating in automatic or quasi-automatic mode, provides you with recurring and constant income without the need to be physically present. The key is in the concept of passive income, which Larry K. Halford shared in this guide. Larry K. Halford, an expert in investment will show you simple ways to invest your money to create passive income that once your initial investment has been created, the income is received constantly and periodically without the need to do anything else. You invest your time (or your money) only once and you begin to receive the income for life (or almost). In this book, you will learn: Why you need to invest in investment funds The different types of investment funds you need to know How to invest in investment funds How investment funds work How to invest in index funds And much more.... Are you ready to discover how to invest your money to create wealth and passive income and gain financial freedom? Then take the first step today! You're About To Discover The #1 Secret To Generate Passive Income Streams With This Step-By-Step Tutorial And Proven Business Models, Ideas A passive income is any income you earn without actively engaging in work-related activities. However, a passive income is still work. A major misconception on the subject is that you can set up a passive income today and start making money on autopilot tomorrow. That rarely happens. Most passive income streams, especially those whose nature concentrates on the online space, require that you put in the work now so that later, you may stop working full time. That does not mean you will not work at all; you will. All worthwhile passive income streams require some form of maintenance. With that said, it's easy to understand why many people believe that a passive income means no work at all: because well set up passive income streams can requires as little as a few hours of maintenance work per week or month to continue generating revenue. Take the example of a well set up blog. If you put in the time now into creating great, search engine friendly, evergreen content—say about 100–200 pieces of genuinely good and valuable content which would take a year or more—in a year or two, you can stop actively working on the website or blog every day. You can monetize the traffic coming to the website through various strategies such as affiliate marketing and advertising so that you can generate an income even as you post once or twice per week—some blogs continue to earn a passive income each month even without any maintenance work. As you can see from the above, setting up an online passive income does not mean not working; it simply means putting in the work upfront so that later, you can work less and still generate an income. This passive income definition is the one we shall use as we work through the steps in this guide. This guide shall discuss, in a systematic manner, proven business models and ideas that when well implemented, shall help you create multiple streams of online passive income. Let's begin. Here's Just A Small Preview Of What You'll Learn... Niche or Authority Website or Blog How to Create a Website or Blog That Generates a Passive Income Choose Your Niche Buy a

Don't fall for this diabolical myth about your book! If you already have, you know it hurts. The myth is the idea that you're going to publish this book and you're going to earn passive income, meet influencers and build your email list. Your business will be on autopilot. You're going to make huge royalties, and pretty soon you'll quit your day job and all that stuff. This myth is just not true. The reality is, for most nonfiction authors, your book is not your source of income. It's not going to create passive income you can retire on. You have to understand its true purpose. If this is new to you, it is not your fault. There will be people who let you believe the myth—or even enforce the myth by suggesting you buy their course on how to write a book to make money. The allure will be that you're going to generate instant passive income. That's not the case. Your book is an authority builder. It's a business card. It is also a sales and marketing tool. But it is not your income. Virtual summits do all the things that you thought a book would do and more. They will help you create that much needed income as an author. It's more than just about income though...you will learn: How to attract influencers to speak at your summit, even if you have no email list You need to be an expert on your summit topic, right? Wrong! 7 hidden benefits of hosting a virtual summit How to eliminate doubt when reaching out to potential speakers Where to find the perfect audience for your summit Why marketing to less people creates more attendees Why you should never wait to host a summit until "after you publish your book" The Truth about where summit attendees really come from Say Goodbye to the frustration of small royalties on the backend of your book What to do if you aren't technical, but want to host a summit When
