Part of a new six-volume series of the best in classic horror, selected by Academy Award-winning director of The Shape of Water Guillermo del Toro Filmmaker and longtime horror literature fan Guillermo del Toro serves as the curator for the Penguin Horror series, a new collection of classic tales and poems by masters of the genre. Included here are some of del Toro's favorites, from Mary Shelley's Frankenstein and Ray Russell's short story "Sardonicus," considered by Stephen King to be "perhaps the finest example of the modern Gothic ever written," to Shirley Jackson's The Haunting of Hill House and stories by Ray Bradbury, Joyce Carol Oates, Ted Klein, and Robert E. Howard. Featuring original cover art by Penguin Art Director Paul Buckley, these stunningly creepy deluxe hardcovers will be perfect additions to the shelves of horror, sci-fi, fantasy, and paranormal aficionados everywhere. The Thing on the Doorstep and Other Weird Stories Howard Phillips Lovecraft's unique contribution to American literature was a melding of traditional supernaturalism (derived chiefly from Edgar Allan Poe) with the genre of science fiction that emerged in the early 1920s. The Thing on the Doorstep and Other Weird Stories brings together a dozen of the master's tales—from his early short stories "Under the Pyramids" (originally ghostwritten for Harry Houdini) and "The Music of Erich Zann" (which Lovecraft ranked second among his own favorites) through his more fully developed works, "The Dunwich Horror," "The Case of Charles Dexter Ward," and "At the Mountains of Madness." The book presents the definitive corrected texts of these works, along with Lovecraft critic and biographer S. T. Joshi's illuminating introduction and notes to each story.

Daniel Upton, the story's narrator, begins by telling that he has killed his best friend, Edward Derby, and that he hopes his account will prove that he is not a murderer.

It is true that I have sent six bullets through the head of my best friend, and yet I hope to show by this statement that I am not his murderer. At first I shall be called a madman madder than the man shot in his cell at the Arkham Sanitarium. Later some of my readers will weigh each statement, correlate it with the known facts, and ask themselves how I could have believed otherwise than I did after facing the evidence of that horror that thing on the doorstep. Until then I also saw nothing but madness in the wild tales I have acted on. Even now I ask myself whether I was misled or whether I am not mad after all. I do not know but others have strange things to tell of Edward and I of Edward and Asenath Derby, and even the Asenath Derby, and even the stolid police are at their wits' ends stolid police are at their wits' ends to account for that last terrible to account for that last terrible visit. They have tried weakly to visit. They have tried weakly to concoct a theory of a ghastly jest concoct a theory of a ghastly jest or warning by discharged or warning by discharged servants, yet they know in their hearts that the truth is something infinitely more terrible and infinitely more terrible and incredible. So I say that I have not murdered Edward Derby. Rather murdered Edward Derby. Rather have I avenged him, and in so have I avenged him, and in so doing purged the earth of a horror whose survival might have loosed untold terrors on all mankind. untold terrors on all mankind. There are black zones of shadow black zones of shadow close to our daily paths, and now close to our daily paths, and now and then some evil soul breaks a passage through. When that passage through. When that happens, the man who knows happens, the man who knows must strike before reckoning the consequences.

Lovecraft has yet to be surpassed as the twentieth century's greatest practitioner of the classic horror tale." -Stephen King Frequently imitated and widely influential, Howard Phillips Lovecraft reinvented the horror genre in the 1920s, discarding ghosts and witches and instead envisioning mankind as a tiny outpost of dwindling sanity in a chaotic and malevolent universe. "The Thing on the Doorstep" is a short story written by H.P. Lovecraft, part of the Cthulhu Mythos universe of horror fiction. It was written in August 1933, and first published in the January 1937 issue of *Weird Tales*. Daniel Upton, the story's narrator, begins by telling that he has killed his best friend, Edward Derby, and that he hopes his account will prove that he is not a murderer ...

During the winter of 1927-28 officials of the Federal government made a strange and secret investigation of certain conditions in the ancient Massachusetts seaport of Innsmouth. The public first learned of it in February, when a vast series of raids and arrests occurred, followed by the deliberate burning and dynamiting—under suitable precautions—of a large number of crumbling, worm-eaten, and supposedly empty houses along the abandoned waterfront. Uninquiring souls let this occurrence pass as one of the major clashes of the war on liquor. Keener news-followers, however, wondered at the prodigious number of arrests, the abnormally large force of men used in making them, and the secret disposal of the prisoners. No trials, or even definite charges were reported; nor were any of the captives seen thereafter in the regular jails of the nation. There were no statements about disease and concentration camps, and later about dispersal in various naval and military prisons, but nothing positive ever developed. Innsmouth itself was almost depopulated, and it is even now only beginning to show signs of a sluggishly revived existence.

Lovecraft's terrifying tales have influenced generations of horror writers. His otherworldly visions of cosmic horrors, alien beings, and a world not quite our own remain powerful and able to terrify even the most resolute readers. This collection spans the breadth of Lovecraft's literary career, from his early forays into the Dreamlands to the writings of the Cthulhu mythos. H. P. Lovecraft's petrifying yet fascinating stories took their inspiration from a multitude of literary influences, including the mysterious Nights, the capricious deities and heroes of Greek mythology, and the lyrical horrors of the gothic tales told to him by his grandfather. His writing gave voice to the belief that some things in this world that can never be understood. This collection features several of H. P. Lovecraft's most iconic tales, including: The Call of Cthulhu The Whisperer in the Walls The Thing on the Doorstep The Lurking Fear The Shadow Over Innsmouth The Shunned House From Beyond Pickman's Model The Nameless City The Dreams in the Witch House 'Loathsomeness waits and dreams in the deep, and decay spreads over the tottering cities of men. A time will come - but I must not and cannot think!' H. P. Lovecraft was a reclusive scribbler of horror stories for the American pulp magazines that specialized in Gothic and science fiction in the interwar years. He often published in *Weird Tales* and since become the key figure in the slippery genre of 'weird fiction'. Lovecraft developed an extraordinary vision of feeble men driven to the edge of sanity by glimpses of things that have survived from human prehistory or by malevolent extra-terrestrial visitations. The ornate language of his stories builds towards grotesque moments of revelation more than any other writer. This new selection brings together nine of his classic tales, focusing on the 'Cthulhu Mythos', a cycle of stories that develops the mythology of the monstrous creatures who predate human life on earth. It includes the Introduction from Lovecraft's critical essay, 'Supernatural Horror in Literature', in which he gave an important definition of 'weird fiction'. In a fascinating contextual introduction, Roger Luckhurst gives Lovecraft the attention he deserves as a writer who used pulp fiction to explore a remarkable philosophy that shockingly dethrones the mastery of man.

When he died in 1937, destitute and emotionally as well as physically ruined, H. P. Lovecraft had no idea that he would one day be celebrated as the godfather of modern horror. A dark visionary, his work would influence an entire generation of writers, including Stephen King, Clive Barker, Neil Gaiman, and Anne Rice. Now,

the most important tales of this distinctive American storyteller have been collected in a single volume by National Book Award-winning author Joyce Carol Oates. In tales that combine the nineteenth-century gothic sensibility of Edgar Allan Poe with a uniquely daring internal vision, Lovecraft fuses the supernatural and mundane into a terrifying, complex, and exquisitely realized vision, foretelling a psychically troubled century to come. Set in a meticulously described New England landscape, here are harrowing stories that explore the total collapse of sanity beneath the weight of chaotic events—stories of myth and madness that release monsters into our world. Lovecraft's universe is a frightening shadow world where reality and nightmare intertwine, and redemption can come only from below.

On the trip back, Derby tells of Asenath using his body, and suggests that it is in fact Ephraim who resides in the body of Asenath. Before finishing, he has a small seizure and rapidly changes personality, asking Upton to ignore what he might have just said.
