

Traffic Officer's Companion

Over the years law enforcement agencies throughout America have acquired a blemished reputation for the occasional enforcement contact that society has considered to be a crime perpetrated against citizens, whether innocent or not. Even the California Highway Patrol has endured an unfortunate criminal act, when one of its own murdered an innocent woman in San Diego during the Christmas Season of 1986. By writing this book, it is my intention to contribute to the reparation of the tarnished reputations of all American law enforcement agencies. I write this book now after 25 years, since my retirement from the California Highway Patrol. I had always intended to document the testimonials of my many close encounters of a God kind and of the literal hundreds of salvation experiences that I was privileged enjoy. This book contains just a few, and I might add that these are the most memorable. It has been nearly two decades since I last spoke of them. But this in no means diminishes their impact and spiritual import, since anything of the spirit is timeless and therefore eternal, even as God, Himself. It is my sincere prayer for you that your

heart will be stirred towards Godliness as you read of my memoirs and that as you do so, your soul will be refreshed with His love and goodness! As to the names of those individuals involved, I intentionally used fictitious names, partial names or initials for privacy purposes. However with permission, I have given notable mention of my good friend and brother in arms, State Traffic Officer, Allen Wilkerson. Respectfully Submitted, Ed Marr, STO (retired)

This volume offers a comprehensive account of drink-driving, breaking fresh ground in its detailed historical exposition and contemporary policy review and also in its radical conclusions concerning society's ambivalent attitude to the drinking driver.

Traffic citations are big business, providing billions of dollars annually to municipal corporations. Police are incentivized to unlawfully pull over and detain drivers, seize and search their belongings, and ask interrogating questions, all in the the hope of finding excuses to issue fine-generating infractions. Society has been conditioned to accept violations to their individual rights that in past generations wouldn't have been tolerated. The author reveals that traffic enforcement has become a nationwide racketeering scam. With a deft understanding of natural law and the Constitution, the author shows how police officers routinely ignore individuals' rights, while traffic courts actively disregard due process for the sake of revenue. The chilling reality is that the misapplication of motor vehicle

codes is representative of a greater trend towards eliminating our rights in general. Our government is vitiating its people; the sovereign are being transformed into subjects. Its time for Americans to resist totalitarianism: whether at the capitol, in the courts, or on our highways. As one of "We the people," I humbly implore you to read this book and spend time comprehending its implications. As Thomas Jefferson said, "If a nation expects to be ignorant and free in a state of civilization, they expect what never was nor ever will be."

This study investigates issues relative to assessing and addressing risks to officer safety. The study was conducted over a 3-year period and addressed 40 distinct cases of serious assaults on law enforcement officers. The cases involved 52 victim officers and 42 offenders. Routine, repetitive tasks emerged as a continuing threat to officer safety. Traffic stops, searches, and use of handcuffs are examples of tasks that should be second nature to officers but presented problems to the victims in the cases studied. Officers cited training as critical to the actions they took to protect themselves. Post-assault trauma and recovery proved to be areas that perhaps have not received appropriate attention from the law enforcement community. Many of the victim officers in the study displayed an uncommon "will to survive," an attitude many officers attributed to their survival

training. This article reports extensive information on the victims, offenders, and incidents studied, and identifies specific areas where law enforcement training and procedures may be improved. Figures, tables, appendixes, references.

Police work isnt for everyone. Those who choose to answer the call seldom realize what they are getting themselves into.

Theyre drawn to the excitement, the pursuit of justice, and the thrill of the chase. Once in uniform, they are confronted by the worst humanity has to offer, departments that seem designed to frustrate rather than support their officers, and friends and family incapable of understanding what theyre going through.

Being a cop is an incredibly rewarding way of life, but only if you can keep your head straight. This book aims to help you do just that. Inside youll find 365 inspirational passages from history's greats. Each passage is accompanied by modern analysis from a street cops perspective. Its nothing fancy, just frank observations honed over almost two decades of working the road. Whether you are considering a career in police work, or if you are already on the job, this book is for you. Although misdemeanors may be minor offenses, they are of major importance to defendants, victims, and the courts. Many of these crimes are hardly trivial, and the penalties imposed are often severe. That's why Minnesota Misdemeanors: DWI, Traffic, Criminal, and Ordinance Offenses is the authoritative text for practicing attorneys involved in this swiftly changing area of the law. Minnesota Misdemeanors: DWI, Traffic, Criminal, and Ordinance Offenses provides comprehensive coverage of the procedural issues involved in pretrial, trial, and appellate practice for offenses ranging from enhanced gross misdemeanors to drunk driving to traffic violations. Since the admission of evidence is critical to the outcome of these trials, Minnesota Misdemeanors: DWI, Traffic, Criminal, and Ordinance Offenses provides extensive background on the complex body of law limiting the gathering and use of evidence in criminal cases, emphasizing the constitutional requirements for arrest, search and seizure, stop and frisk, confessions and admissions, and other issues.
