The "magic" that once was America died horribly along with most of the Earth's inhabitants when an asteroid crashed into the planet sometime during the twenty-first century. Hundreds of years have passed, and all that remains of the time before are fragmented memories distorted by superstition -- as a tragically reduced populace suffers greatly under the tyranny of a repressive ruling order. But destiny has chosen Dismé Latimer to lead a wasted world out of the darkness ... with a book. Written by a courageous scientist ancestor, it is a sacred, unsettling tome rife with disturbing ideas and revelations ... and an impossible hope that compels a gentle, troubled young woman to abandon her abusive home in search of truth and her true self. But common "wisdom" and lore warn of grave dangers out in the world. Evil is there, a malevolence beyond imagining. And in the depths of the Earth, a gargantuan beast asleep for centuries has begun to stir ...

Creating Great Visitor Experiences

Simple Visitor Log Registry Book Formatted Name Date Time in Sign Time Out Sign: Ideal for Care Homes, Schools, Universities, Hospitals and Establishments where Visitor Entries are Common and are Required for Fire Safety

Understanding the visitor experience provides essential insights into how museums can affect people's lives. Personal drives, group identity, decision-making and meaning-making strategies, memory, and leisure preferences, all enter into the visitor experience, which extends far beyond the walls of the institution both in time and space. Drawing upon a career in studying museum visitors, renowned researcher John Falk attempts to create a predictive model of visitor experience, one that can help museum professionals better meet those visitors' needs. He identifies five key types of visitors who attend museums and then defines the internal processes that drive them there over and over again. Through an understanding of how museums shape and reflect their personal and group identity, Falk is able to show not only how museums can increase their attendance and revenue, but also their meaningfulness to their constituents.

When the museum's visitors are gone for the day, it's time for the kittens to come out and play! This new chapter book series by best-selling author Holly Webb is inspired by tales of real-life museum cats and follows the after-hours adventures of the Museum Kittens. Includes black-and-white illustrations throughout. One stormy night, a little black kitten named Peter appears on the museum steps. Tabby cat Tasha is delighted to show Peter the museum's hallways and secret corners, but her siblings, Bianca and Boris, aren't as happy to welcome the new arrival. Determined to prove that Peter is just as much of a museum kitten as the others, Tasha takes him on a hunt for rats. When there's a mishap in the Dinosaur Gallery, all of the kittens must work together to fix the situation. Can they do it? In this new series from best-selling author, Holly Webb, the Museum Kittens are brave, clever, and never more than a whisker away from adventure! When the museum's visitors are gone for the day, it's time for the kittens to come out and play!

Museum and other non-profit professionals have begun to realize that the complete visitor experience is the key to repeat attendance, successful fundraising, and building audience loyalty. Taking lessons learned by successful experience-shapers in the for-profit world, Stephanie Weaver distills this knowledge for museums and other organizations which depend on visitor satisfaction for success. Is your institution welcoming? Are the bathrooms clean? Does the staff communicate well? Are there enough places to sit? These practical matters may mean more to creating a loyal following than any exhibit or program the institution develops. Weaver breaks the visitor experience down to 8 steps and provides practical guidance to museums and related institutions on how to create optimal visitor experiences for each of them. In a workshop-like format, she uses multiple examples, exercises, and resource links to walk the reader through the process.

Elise is scared of everything - spiders, people, even trees. So she never goes out, night or day. One day a strange thing flies in through the window and lands at her feet. And then there comes a knock at her door. Elise has a visitor.

"A Visitor for Bear has the feel of a classic, and it's so cozy no parent could object to reading it aloud every night." - The New York Times Book Review (starred review) Features an audio read-along!

Bear is quite sure he doesn't like visitors. He even has a sign. So when a mouse taps on his door one day, Bear tells him to leave. But the mouse - who keeps popping up in the most unexpected places - just won't go away! Cheery persistence wears down the curmudgeonly Bear in a wry comedy of manners that ends in a most unlikely friendship.

The way we work will never be the same again. Employees across sectors, verticals and continents are demanding change. Purpose, values and organisational cultures are being challenged. Organisations must adapt to the new reality in which leaders from HR, IT and workplace design will have to collaborate closely to create a space and environment for work which is more caring, more productive and above all, more humane. The book is a call to action for business leaders and organisations to go beyond seeing employees as a means to business performance. In order for companies to thrive and not just survive, the workplace of the future will be one of psychological safety, learning opportunities, connectedness to others, personal development and 'caring' for the planet. It is by allowing employees to bring their whole selves to work that will result in positive wellbeing throughout the workforce and a greater engagement in their work and the company.
