

When The Gloves Came Off The Powerful Autobiography Of Britain's Playboy Boxer

"When are the 1970s going to begin?" ran the joke during the Presidential campaign of 1976. With his own patented combination of serious journalism and dazzling comedy, Tom Wolfe met the question head-on in these rollicking essays in *Mauve Gloves and Madmen, Clutter and Vine* -- and even provided the 1970s with its name: "The Me Decade."

A team of scholars with backgrounds in criminology, sociology, economics, business, government regulation, and law examine the historical, social, and cultural causes of the 2008 economic crisis. Essays probe the workings of the toxic subprime loan industry, the role of external auditors, the consequences of Wall Street deregulation, the manipulations of alpha hedge fund managers, and the "Ponzi-like" culture of contemporary capitalism. They unravel modern finance's complex schematics and highlight their susceptibility to corruption, fraud, and outright racketeering. They examine the involvement of enablers, including accountants, lawyers, credit rating agencies, and regulatory workers, who failed to protect the public interest and enforce existing checks and balances. While the United States was "ground zero" of the meltdown, the financial crimes of other countries intensified the disaster. Internationally-focused essays consider bad practices in China and the European property markets and draw attention to the far-reaching consequences of transnational money laundering and tax evasion schemes. By approaching the 2008 crisis from the perspective of white collar criminology, contributors build a more general understanding of the collapse and crystallize the multiple human and institutional factors preventing capture of even the worst offenders.

If you work hard enough, if you want it enough, if you're smart and talented and "good enough," you can do anything. Except get pregnant. Her whole life, Lucy Knisley wanted to be a mother. But when it was finally the perfect time, conceiving turned out to be harder than anything she'd ever attempted. Fertility problems were followed by miscarriages, and her eventual successful pregnancy plagued by health issues, up to a dramatic, near-death experience during labor and delivery. This moving, hilarious, and surprisingly informative memoir not only follows Lucy's personal transition into motherhood but also illustrates the history and science of reproductive health from all angles, including curious facts and inspiring (and notorious) figures in medicine and midwifery. Whether you've got kids, want them, or want nothing to do with them, there's something in this graphic memoir to open your mind and heart.

Tapestry for Two: Journey to Us

On 9/11 the U.S. had effectively no counterterrorism doctrine. Fast forward ten years: Osama bin Laden is dead; al Qaeda is organizationally ruined and pinned in the tribal areas of Pakistan and Afghanistan; there has been no major attack on American soil; and while there has been at least one instance of a massive planned attack, it was crushed by the greatest international collaboration of intelligence services seen since the end of the Cold War. It's been a remarkable transformation. Aki Peritz and Eric Rosenbach have experienced first-hand the monumental strategy changes in our country's counterterrorism strategy within the intelligence, defense, and political communities. In this book, they show how America learned to be very good at taking on the terrorists, often one at a time, in ever more lethally incisive operations. They offer new details behind some headlines from the last decade. They are frank about the mistakes that have been made. And they explain how a concept coined by General Grant during the Civil War has been reinvented in the age of satellite technology to manage a globally distributed foe, allowing the U.S. to find, fix, and finish its enemies.

From the bestselling author of *The Prince of Providence*, a revelatory biography of Rocky Marciano, the greatest heavyweight champion of all time. The son of poor Italian immigrants, with short arms and stubby legs, Rocky Marciano accomplished a feat that eluded legendary heavyweight champions like Joe Louis, Jack Dempsey, Muhammad Ali, and Mike Tyson: He never lost a professional fight. His record was a perfect 49-0. *Unbeaten* is the story of this remarkable champion who overcame injury, doubt, and the schemes of corrupt promoters to win the title in a bloody and epic battle with Jersey Joe Walcott in 1952. Rocky packed a devastating punch with an innocent nickname, "Suzie Q," against which there was no defense. As the champ, he came to know presidents and movie stars – and the organized crime figures who dominated the sport, much to his growing disgust. He may have "stood out in boxing like a rose in a garbage dump," as one sportswriter said, but he also fought his own private demons. In the hands of the award-winning journalist and biographer Mike Stanton, *Unbeaten* is more than just a boxing story. It's a classic American tale of immigrant dreams, exceptional talent wedded to exceptional ambitions, compromises in the service of a greater good, astounding success, disillusionment, and a quest to discover what it all meant. Like *Suzie Q*, it will knock you off your feet.

Maxim Jakubowski has once again compiled a blockbuster collection of the year's most outstanding short crime fiction published in the UK. His aim is always to present the whole breadth of crime, mystery and thriller writing, from gentle stories of detection to puzzling historical labyrinths full of devious characters and sharp social comment about our imperfect society in some savage, and often scary stories. Last year saw a fifth Crime Writers Association Short Story Dagger award for the series - for 'Homework' by Phil Lovesey, whose work features again in this year's collection. There is a new story by Ann Cleeves, whose fictional sleuth Vera Stanhope has created such a buzz in ITV prime-time drama Vera, starring Brenda Blethyn. Making their debut in Best British Crime are many established names such as Reginald Hill, R. J. Ellory, John Lawton and Stuart Neville. Also represented are writers such as L. C. Tyler, Chris Ewan, Ian Ayris, Col Bury, Matt Hilton and Christine Poulson, some of whom have already made a name for themselves, while others are at the start of hugely promising careers.

When a dating app matches two serial killers, they find themselves falling into love or the closest thing that their twisted minds can get. Desperately trying to keep their secret crimes from being exposed, they must deal with not only each other but law enforcement and the demands of their careers. Will they overcome the odds and accept that they are meant for each other?

An inside look at modern-day amateur boxing describes one journalist's obsessive preparation for the Golden Gloves tournament at the age of thirty-two, joining a trainer and his team as he sets out to get himself in shape, and shares his observations of the changing world of amateur boxing.

How They Got Away With It

This book isn't primarily about relationships. There's no romance involved--not even any close friendships. It's mostly about flying machines and their missions. But people are important. After all, pilots fly the machines. There are a lot of characters here that aviation buffs will immediately recognize: Lots of record-setting test pilots, and even some astronauts. Older non-buffs will also see familiar names: an aviation legend, first-ever moon walkers, a couple of popular entertainers, a famous TV-news anchor and even two former presidential candidates. Watch closely, some of them just flash past. Airplanes star in this tale. None of them were perfect, but many of them excelled performing their assigned tasks. North American Aircraft's F-86F was a beautiful machine. But it was also a breathtakingly-good MiG killer. Because of its fine flying qualities, it was fun to fly--a sports car among sedans. Fairchild/Chase Aircraft's C-123B was an outstanding assault transport. It was almost perfect for its mission in Vietnam, but it could be a real handful for any pilot to fly. I have lots of "favorite" airplanes, but Douglas' A-1H Skyraider stands out. There has never been a better attack fighter in terms of accuracy in iron-bomb delivery, weapons load-carrying ability or endurance. Lockheed's F-104A or C models were many pilot's dream machines. Their luster dimmed somewhat for me after I flew them. But they were certainly suitable for training Test Pilot School students to perform zooms and shuttle-aircraft type approaches and landings. I'll stop with these four. There's much more on airplanes inside--about 192,000 words worth. That's a lot to slog

through and you may find some parts too technical or too detailed. Ignore them. There are also many numbers, but most aren't important. Browse for good stuff. If you want more info on some airplane, Google her up.

Who they were may catch up to who they are. Will it destroy who they want to become? When Dominic married the woman of his dreams, he thought he'd left his old life of secrets and regrets behind. But what should be a relaxing trip to a familiar Montana dude ranch brings up thoughts of the past, and he can't ignore the fear of what Callie will do if she knows the darker truth that haunts him. Hesitant to repeat his mistakes, he struggles with whether to live with the guilt or bare his soul. Callie is happier than she ever imagined possible. But she has a bombshell secret of her own. She's waiting for the perfect time to tell Dom. In her own words. When she's ready. Except her past steps in and demands to be known. Now! Every choice, good and bad, has brought them to this point, their lives tightly woven together. But when the past ugly truths are revealed, will their love unravel? In 2013, the Colorado Avalanche announced that Joe Sakic, a franchise legend and Hall of Fame center, would be promoted to become the new executive VP of hockey operations. Soon, Sakic was instrumental in the hiring of Patrick Roy, the greatest goaltender in NHL history, a man crucial to the Avalanche's Stanley Cup victories in 1996 and 2001, as Colorado's new coach. This book, a collaborative effort between seasoned sportswriters and authors Terry Frei and Adrian Dater, is an opinionated, interpretive, and in-depth look at Patrick Roy's first season as a National Hockey League coach, and the Avalanche's surprising 2013-14 season.

Some 84 of the 250 Hornets committed by Central Command to Operation Iraqi Freedom (OIF) proudly bore MARINE titling on their rear fuselages. A further 14 were marked with the distinctive kangaroo roundel of the Royal Australian Air Force (RAAF). The exploits achieved by the units that flew these jets into combat is detailed in this volume, the third of three titles published in the *Combat Aircraft* series on what has been dubbed by many TACAIR insiders the 'Hornet's War'. Although the bulk of this book deals with the major hostilities phase of OIF I, which ran from 20 March to 20 April 2003, the decade of pre-war OSW missions and ongoing post-war OIF II operations are also covered in significant detail from the Marine Corps perspective. Profusely illustrated with rare frontline photography and more than 30 specially commissioned colour artworks, this book also features the combat experiences of 24 pilots and Weapons Systems Officers.

The treatment of detainees at Abu Ghraib prison, Guantánamo Bay, and far-flung CIA "black sites" after the attacks of 9/11 included cruelty that defied legal and normative prohibitions in U.S. and international law. The antitorture stance of the United States was brushed aside. Since then, the guarantee of American civil liberties and due process for POWs and detainees has grown muddled, threatening the norms that sustain modern democracies. How the Gloves Came Off considers the legal and political arguments that led to this standoff between civility and chaos and their significant consequences for the strategic interests and standing of the United States. Unpacking the rhetoric surrounding the push for unitary executive action in wartime, How the Gloves Came Off traces the unmaking of the consensus against torture. It implicates U.S. military commanders, high-level government administrators, lawyers, and policy makers from both parties, exposing the ease with which powerful actors manipulated ambiguities to strip detainees of their humanity. By targeting the language and logic that made torture thinkable, this book shows how future decision makers can craft an effective counternarrative and set a new course for U.S. policy toward POWs and detainees. Whether leaders use their influence to reinforce a prohibition of cruelty to prisoners or continue to undermine long-standing international law will determine whether the United States retains a core component of its founding identity.

Recognized from her roles on Survivor, The View, and Fox & Friends, best-selling author Elisabeth Hasselbeck presents a deeply intimate journey of faith, told through the important moments in her life. From designing shoes to surviving Survivor to not surviving The View, Elisabeth Hasselbeck has learned more about standing up for her convictions in the public eye than she ever thought she would when she applied for a reality TV show on a whim almost two decades ago. Through most of those years, Elisabeth strived as if she had to earn the approval of others and of God. But God was gently at work in her to show His point of view--His invitation for her to rest in the calling, rest in His Word, and rest fully in the truth of the gospel. Point of View is an intimate walk of faith, as she writes mom to mom, friend to friend, mother to daughter. From the divisive table at The View to national political platforms to the breakfast table, Elisabeth bares her heart about her failures, her triumphs, and her path of learning lessons the hard way.

"The 1950s vintage ocean liner Queen Isabella is making her final voyage before heading to the scrapyards. For the guests on board, among them Christine Thorne, a former journalist turned Maine farmer, it's a chance to experience the bygone mid-20th century era of decadent luxury cruising, complete with fine dining, classic highballs, string quartets, and sophisticated jazz. Smoking is allowed but not cell phones--or children, for that matter. The Isabella sets sail from Long Beach, CA, into calm seas on a two-week retro cruise to Hawaii and back. But this is the second decade of an uncertain new millennium, not the sunny, heedless fifties, and certain disquieting signs of strife and malfunction above and below decks intrude on the festivities. Down in the main galley, Mick Szabo, a battle-weary Hungarian executive sous-chef, watches escalating tensions among the crew. Meanwhile, Miriam Koslow, an elderly Israeli violinist with the Sabra Quartet, becomes increasingly aware of the age-related vulnerabilities of the ship herself and the cynical corners cut by the cruise ship company, Cabaret. When a time of crisis begins, Christine, Mick, and Miriam find themselves facing the unknown together in an unexpected and startling test of their characters."--

A gritty, spirited inside look at the world of amateur boxing today The Golden Gloves tournament is center stage in amateur boxing—a single-elimination contest in which young hopefuls square off in steamy gyms with the boxing elite looking on. Robert Anasi took up boxing in his twenties to keep in shape, attract women, and sharpen his knuckles for the odd bar fight. He thought of entering "the Gloves," but put it off. Finally, at age thirty-two—his last year of eligibility—he vowed to fight, although he was an old man in a sport of teenagers and a light man who had to be even lighter (125 pounds) to fight others his size. So begins Anasi's obsessive preparation for the Golden Gloves. He finds Milton, a wily and abusive trainer, and joins Milton's "Supreme Team": a black teenager who used to deal guns in Harlem, a bus driver with five kids, a hard-hitting woman champion who becomes his sparring partner. Meanwhile, he observes the changing world of amateur boxing, in which investment bankers spar with ex-convicts and everyone dreads a fatal blow to the head. With the Supreme Team, he goes to the tournament, whose outcome, it seems, is rigged, like so much in boxing life today. Robert Anasi tells his story not as a journalist on assignment but as a man in the midst of one of the great adventures of his life. The Gloves, his first book, has the feel of a contemporary classic.

A refreshing memoir of battles and self-belief from one of the NHL's most revered enforcers Shawn Thornton was an unlikely NHL success, to say the least. The Oshawa, Ontario native was picked late in the OHL and later thought he was being pranked when the Toronto Maple Leafs called him to say he'd been selected in the seventh round of the 1997 NHL draft. After years spent working and maturing in the AHL, Thornton would go on to play 14 seasons with the Chicago Blackhawks, Anaheim Ducks, Boston Bruins, and Florida Panthers, winning two Stanley Cups along the way. For the first time, in this candid memoir, Thornton opens up about his life in hockey and beyond, from his early days as an unrated prospect to the leadership lessons he learned in the minors, from the most difficult on-ice brawls to the ecstasy of reaching the sport's most celestial heights. Fans will not want to miss this story of perseverance and finding one's own path.

Unique designs from a knitwear pro. "A mitten-covered thumbs-up to Knitting New Mittens [&] Gloves. It's a nice blend of the classic and the funky" (Go Knit In Your Hat). Growing up in Cape Breton, on Canada's Atlantic coast, knitwear designer Robin Melanson learned early on the importance of gloves and mittens in a harsh winter climate. Now this self-described "mitten and glove aficionado" shares her enthusiasm for these ordinary items by presenting 28 extraordinary ways to make them for year-round style. Featuring gloves, mittens, arm warmers, mitts, and fingerless gloves, this is the second book in a new STC Craft series that introduces innovative approaches to creating popular knitted items. Knitting New Mittens and Gloves combines traditional and untraditional techniques—as well as influences as far-flung as Gothic architecture, Estonian lace, and Wagnerian opera—in a winning collection of patterns for adults and children. From wool mittens filled with unspun fleece and arm warmers with leather laces, to cotton-mesh

fingerless gloves and silk-beaded mitts to be worn as adornments, each design has an unexpected twist. Because they are small, quick to make, and don't require a lot of yarn, mittens and gloves are perfect projects for knitting throughout the year, and they also offer an ideal opportunity for beginning and more seasoned knitters to experiment with new techniques, yarns, and styles. With its fresh, original sensibility, Knitting New Mittens and Gloves will captivate knitters of every level.
