The subject of this book is the study of dreaming from a specific point of view, one that provides

File Type PDF A Book Of Dreams

useful and enlightening results: the analysis of the complex patterns of links among the memory sources of dreams. The significance of these patterns is logical and emotional at the same time. This approach is interdisciplinary: it directly

their implications for the study of links among dream sources.

Some meaningful examples of dreams, or metaphors or dreams, that can be found in poetry or motion pictures, are also considered.
