Counting by 7s meets See You in the Cosmos  
in this heartwarming coming-of-age story  
perfect for the budding geologists and those  
fascinated by the mysteries of the universe.  
Henry has always been fascinated by rocks.  
As a homeschooler, he pours through the R  
volume of the encyclopedia (to help him  
identify the rocks he finds). So, when a  
meteorite falls in his family's field, who  
better to investigate than this rock  
enthusiast--with his best friend, James, and  
his little sister, Birdie, in tow, of course. But  
soon after the meteorite's arrival, the water  
in Henry's small Maine town starts drying  
up. It's not long before news spreads that the  
space rock and Henry's family might be to  
blame. Henry is determined to defend his  
newest discovery, but his knowledge of  
geology could not have prepared him for  
how much this stone from the sky would

*A one-of-a-kind story of heart, humor, and finding one's place in the universe. Prez knows that the best way to keep track of things is to make a list. That's important when you have a grandfather who is constantly forgetting. And it's even more important when your grandfather can't care for you anymore and you have to go live with a foster family out in the country. Prez is still learning to fit in at his new home when he answers the door to meet Sputnik—a kid who is more than a little strange. First, he can hear what Prez is thinking. Second, he looks like a dog to everyone except Prez. Third, he can manipulate the laws of space and time. Sputnik, it turns out is an alien, and he's got*

Debbie Gissoni, aka "The Goddess of Happiness," shows that happiness is a choice that anyone can make, anytime and anywhere. In 44 dynamic entries the author shares her stories, insights, humor, and simple suggestions to bring out the radiant Goddess in every woman.
