

A Hundred Hearts One Hundred Heart Tattoo Designs For Coloring Crafting And Scrapbooking Volume 1

Thomas Berger’s debut novel of a young man tumultuously coming of age in postwar Germany
Carlo Reinhart, a young American army medic stationed in Germany, confronts a disturbing new world following the end of World War II. Living in Berlin, a city fractured into barricaded sectors by the occupying powers, Reinhart begins to drive himself mad with memories of the evils he has witnessed and questions about how the atrocities took place. When he meets an idealistic Jew named Nathan Schild, Reinhart’s turmoil grows more acute. Schild works for both the Americans and the Russians, and he becomes a flashpoint for Reinhart’s anguish over the world’s vast contradictions. When Schild’s escapades lead to a powerful turning point, Reinhart is forced to come to terms with life’s ambiguities as well as with his own evolving identity. This ebook features an illustrated biography of Thomas Berger including rare images and never-before-seen documents from the author’s personal collection.

During the Second World War, the Japanese government stirred the people to support its war effort with the image of ‘One hundred million hearts beating as one human bullet to defeat the enemy.’ Kerri Sakamoto, winner of the Commonwealth Writers’ Prize and the Japan-Canada Literary Award for her first novel The Electrical Field, draws on this wartime propaganda in her second novel as she casts light on a fascinating figure from wartime Japan: the kamikaze pilot. These devout young men offered their lives to fly planes into enemy artillery; both human sacrifice and deadly weapon. A cherry blossom painted on the sides of the bomber symbolized the beauty and ephemerality of nature. Coming back alive from a sacred mission was shameful failure. To succeed meant transformation into an eternal flower — reincarnation — as the plane exploded like a fiery blossom in the sky. In One Hundred Million Hearts, Miyo is a young Canadian woman who has been cared for all her life by her uncommunicative but devoted Japanese-Canadian father. Her mother died soon after her birth, and a disfigurement prevented the left side of her body from developing the same way as the right, causing her to be reliant on her father’s help. One day, commuting to work by subway when he can no longer drive her around, she is accidentally caught in the train doors, and rescued by a man who quickly professes his love for her. The joy of this nurturing and joyful relationship removes her from the almost claustrophobic shelter of home, but as she grows distant from her father, his strength begins to fade; until one day she receives the terrible news of his death. It is only then that she discovers his secret past. The woman he always called his girlfriend was in fact his wife; they had a daughter in Japan, but gave her up for adoption. Now the daughter, Hana, is an artist in Tokyo. Amazed that she has a half-sister, Miyo travels there to meet her. Hana is bitter about being abandoned by her father, and has thrown herself into her work with almost destructive intensity. Through Hana, Miyo learns more of their father’s hidden past. Though born in Canada, he was sent to university in Japan; in 1943, Japan was losing the war and the army began conscripting even students. He volunteered as a kamikaze pilot; yet he survived. Hana’s obsession with their father’s wartime history takes the shape of huge paintings of flowers adorned with the faces of kamikaze pilots and the red threads that one thousand schoolgirls sewed onto the white sash of every pilot that made this suicidal mission. “If only he had not hoarded his secrets,” thinks Miyo as she struggles to understand modern Japan and her father’s past. Why did he not fulfill his ultimate sacrifice, but live to care for her? The reader is drawn into the daily struggles of each of the characters and their rich interior lives through a lyrical portrait of Japanese life that has been compared to David Guterson’s Snow Falling on Cedars and Arthur Golden’s Memoirs of a Geisha. The Montreal Gazette said Kerri Sakamoto has created in Miyo “a marvelously complex, compelling character who is transformed...to a woman who runs and dances and loves, not in innocence, but in full, terrifying knowledge.”

A gripping account of four explorers adrift in an unknown land and the harrowing journey that took them across North America 270 years before Lewis and Clark
One part Heart of Darkness, one part Lewis and Clark, Brutal Journey tells the story of a group of explorers who came to the new world on the heels of Cortés; bound for glory, only four of four hundred would survive. Eight years and some five thousand miles later, three Spaniards and a black Moroccan wandered out of the wilderness to the north of the Rio Grande and into Cortes' gold-drenched Mexico. The four survivors of the Narváez expedition brought nothing back from their sojourn other than their story, but what a tale it was. They had become killers and cannibals, torturers and torture victims, slavers and enslaved. They became faith healers, arms dealers, canoe thieves, spider eaters, and finally, when there were only the four of them left in the high Texas desert, they became itinerate messiahs. They became, in other words, whatever it took to stay alive long enough to inch their way toward Mexico, the only place where they were certain they would find an outpost of the Spanish empire. The journey of the Cabeza De Vaca expedition is one of the greatest survival epics in the history of American exploration. By drawing on the accounts of the first explorers and the most recent findings of archaeologists and academic historians, Paul Schneider offers a thrilling and authentic narrative to replace a legend of North American exploration.

Laura Caxton vowed never to face them again. The horror of what the vampires did is too close, the wounds too fresh. But when Jameson Arkeley, broken and barely recognizable, comes to her with an unfathomable, unholy discovery, her resolve crumbles. Arkeley leads Caxton to a tomb in Gettysburg recently excavated by a local archaeology professor. While the town, with its legendary role in the Civil War’s worst battle, is no stranger to cemeteries, this one is remarkably, eerily different. In it lie 100 coffins—99 of them occupied by vampires, who, luckily, are missing their hearts.

But one of the coffins is empty and smashed to pieces. Who is the missing vampire? Does he have access to the 99 hearts that, if placed back in the bodies of their owners, could reanimate an entire bloodthirsty army? How did the vampires end up there, undisturbed and undiscovered for 150 years? The answer lies in Civil War documents that contain sinister secrets about the newly found coffins—secrets that Laura Caxton is about to uncover as she is thrown into a deadly, gruesome mission of saving an entire town from a mass invasion of the undead. . . .

These fun-filled chapter books mix school, monsters, and common kid problems with hilarious results. You'll scream with laughter!

One Hundred Hearts

Gary Mackay is a Hearts legend who has played more games for the Tynecastle club than anyone else in history. He fulfilled his boyhood dream of turning out for the boys in maroon in the early 1980s and continues his love affair with Hearts to this day. Here he selects his Hearts Dream Team made up of the greatest players ever to pull on the famous maroon jersey. Packed full of stories from his time at the club and other Tynecastle tales, it is a fascinating read for Hearts fans of all ages. There is serious debate about Gary’s choices from some well-known Hearts fans such as actor Ken Stott, the man who played Ian Rankin’s Edinburgh detective Rebus and appeared in the movie The Hobbit; respected ITN reporter Martin Geissler who has reported from some of the world’s most dangerous wars; 1990 Grand Slam rugby hero John Jeffrey and senior political figures such as First Minister Alex Salmond; Tory MSP David McLetchie; Lord George Foulkes of Cumnock and Charlie Falconer, who was the Lord Chancellor in the Labour Government of Tony Blair.

The unbelievable true story of artist Thomas Kinkade, self-described “Painter of Light,” and the dramatic rise—and fall—of his billion-dollar gallery and licensing business. He was just one man, but Thomas Kinkade ultimately made more money from his art than every other artist in the history of the world combined. His sentimental paintings of babbling brooks, rural churches surrounded by brilliant fall foliage, and idyllic countryside cottages were so popular in the 1990s that one out of every twenty homes in America owned one of his prints. With the help of two partners—a former vacuum-cleaner salesman and an ambitious junior accountant who fancied himself a businessman—Kinkade turned his art into a billion-dollar gallery and licensing business that traded on the NYSE before it collapsed in 2006 amid fraud accusations. One part a fascinating business story about the rise, and demise, of a financial empire born out of divine inspiration, one part a dramatic biography, Billion Dollar Painter is the account of three nobodies who made it big. One of them was a man who, despite being a devout Christian who believed his artwork was a spiritual force that could cure the sick and comfort the poor in spirit, could not save his art empire, or himself. Eric Kuskey, former colleague of Thomas Kinkade’s and close friend until the artist’s death in 2012, tells Kinkade’s story for the first time—from his art’s humble beginnings on a sidewalk in Carmel, California, to his five-house compound in Monte Sereno. It’s a tale of addiction and grief, of losing control, and ultimately, of the price of our dreams.

The pioneering surgeon Dr. Denton Cooley performed his first human heart transplant in 1968 and astounded the world in 1969 by conducting the first successful implantation of a totally artificial heart in a human being. Over the course of his career, Cooley and his associates performed thousands of open-heart operations and pioneered the use of new surgical procedures. Of all his achievements, however, Cooley was most proud of the Texas Heart Institute, which he founded in 1962 with a mission to use education, research, and improved patient care to decrease the devastating effects of cardiovascular disease. In 100,000 Hearts, Cooley tells about his childhood in Houston, his education at the University of Texas, his medical-school training at the University of Texas Medical Branch in Galveston and Johns Hopkins, and his service in the Army Medical Corps. While at Johns Hopkins, Cooley assisted in a groundbreaking operation to correct an infant’s congenital heart defect, which inspired him to specialize in heart surgery. Cooley’s detailed descriptions of working in the operating room at crucial points in medical history offer a fascinating perspective on the distance medical science traveled in just a few decades.

100 Bible Verses Everyone Should Know by Heart

100 of the most moving and inspiring poems of the last 200 years from around the world, a collection that will comfort and enthrall anyone trapped by grief or loneliness, selected by the award-winning, best-selling, and beloved author of How to Read a Poem Implicit in poetry is the idea that we are enriched by heartbreaks, by the recognition and understanding of suffering--not just our own suffering but also the pain of others. We are not so much diminished as enlarged by grief, by our refusal to vanish, or to let others vanish, without leaving a record. And poets are people who are determined to leave a trace in words, to transform oceanic depths of feeling into art that speaks to others. In 100 Poems to Break Your Heart, poet and advocate Edward Hirsch selects 100 poems, from the nineteenth century to the present, and illuminates them, unpacking context and references to help the reader fully experience the range of emotion and wisdom within these poems. For anyone trying to process grief, loneliness, or fear, this collection of poetry will be your guide in trying times.

DRUM MAJOR is the dramatic story of a reporter that goes to Venezuela investigating the drug cartel, then realizes he cannot get back out of the country. Meanwhile, Estenio's wife, the waspy daughter of a successful businessman, gathers support from Congress, businessmen and the White House in an attempt to free her jailed husband. The story continues as supporters eventually betray them, and friends are murdered. Each chapter alternates the events by the perspective of Estenio & his wife. His imprisonment takes the real world of poverty, power, inhumanity, murder, race, secrets and betrayal, and changes his materialistic ideals as he becomes a drum major for human rights.

On April 7, 2005, an I.E.D. blast in Afghanistan alters the course of Jeremy Merkin’s life forever. Still grieving the loss of his best friend, who was killed by the explosion, and nursing the physical and psychological wounds of the war, Jeremy returns home to find that nothing has changed, and yet everything is different. Living in the basement of a house he shares with his grandparents, mother, and mentally-challenged cousin, Henry, Jeremy smokes marijuana to combat his constant pain. He begins a career as a high school teacher, but memories of the war, the physical limitations caused by his injuries and a criminal accusation threaten to end his teaching career before it’s even begun. After Helen, the matriarch of the family, dies in her sleep, the already-dysfunctional Merkin clan comes unglued. Jeremy contacts his father, who lives in a local mental institution, to seek advice, only to discover that his grandfather has been hiding a dark secret from his family. His discovery of the secret alters the way he sees his family, and himself, forever. Amidst all this chaos, his cousin runs away from home to find his mother in New York City. Knowing Henry can’t possibly survive the trip on his own, Jeremy races across the country to find him. While in New York, Jeremy’s world is altered yet again, as more family secrets are uncovered, this time with dreadful consequences. The Hundred Hearts is a darkly funny story of the courage required to carry on after coming home, and the redemptive power of accepting and revealing our own secrets in order to move forward.
