Successful Silicon Valley real estate developer and wealth creator Roy Goble shares the surprising lessons he learned as a boy working in his family junkyard. Skillfully uniting the teachings of Jesus with the sometimes messy realities of leading people and getting things done, Salvaged helps leaders at all levels discover powerful opportunities to follow Jesus in the real world—and in surprisingly simple ways. Working in his dad ' s junkyard as a kid, Roy had no idea what his future held: an incredibly successful career in commercial real estate, as well as founding and leading multiple ministries, churches, and nonprofits across the globe. So when Roy talks about what it means to follow Jesus daily as a leader, people pay attention. Entrepreneurs, pastors, and managers who learn to lead from Roy won ' t parrot his jargon or practice his " system " —these men and women will simply know how to lead better. After a no-nonsense and compelling introduction, Roy delivers 31 of his most surprising, memorable, and practical leadership lessons, many of which are culled from his junkyard days. Each focuses on a personal " junkyard " story, leadership lesson, and comparable Bible passage perfect for daily study. A growth and action section is included after each chapter that gets to the heart of the lesson through thought-provoking questions with action steps designed to be immediately put into practice.

Can we design organizations in a way that creates a space where employees, the organization, and the larger community all thrive? And if so, where can we go for inspiration to help us achieve this goal? In a time of volatile and complex uncertainty, it is time to learn the lessons that nature has compiled from 3.8 billion years of research and development. Nature is an interdependent, dynamic and living system – just like today ' s organizations and communities. Kathleen Allen uses nature as a model, mentor, and muse to rethink how leadership is practiced today. Leading from the Roots takes nature as a source of inspiration to help organizations see a new way of leading and designing workplace structure, applying the generous framework found in mature ecologies to human organizations. Kathleen Allen helps shift assumptions, practices, structures, and processes of organizations to become more resilient and nourishing for all, and, along the way, design the way out of workplace dysfunction and drama. " Leading from the Roots provides a powerful new way of thinking about organizations as living systems and delivers practical leadership frameworks for individuals to learn how to unleash the energy and create innovative, effective teams. -Anne Bonepare, CEO Apthority This book is a must read for organizational leaders who are not only committed to their mission, but equally to creating a workplace that attracts and retains the brightest and the best professionals fully enabled to meet that mission. -Caryl Stern, President & CEO UNICEF USA

Extreme adventure and elite leadership meet in this spellbinding account of a veteran Fortune 200 executive's quest to conquer the legendary Seven Summits--the highest mountains on every continent. Are there truly business leadership lessons you can learn at 28,000 feet? Well, put it this way--on the mountain, with hurricane-force gales, extreme exposure, and falling ice-blocks the size of a house, if you don't learn some lessons, and learn them fast, you simply die. At a time when the rat race has millions of people feeling trapped, discouraged, and drained, Ascend boldly declares you can embrace the challenge of living your dream.

For the 100th anniversary of the Race to the South Pole, a fresh look at what Shackleton's legendary Antarctic adventure can teach us about true leadership. Stranded in the frozen Antarctic sea for nearly two years, Sir Ernest Shackleton and his team of 27 polar explorers endured extreme temperatures, hazardous ice, dwindling food, and complete isolation. Despite these seemingly insurmountable obstacles, the group remained cohesive, congenial, and mercifully alive—a fact that speaks not just to luck but to an unparalleled feat of leadership. Drawing on this amazing story, Leading at The Edge demonstrates the importance of a strong leader in times of adversity, uncertainty, and change. The book reveals 10 timeless leadership lessons that show readers how to: • Instill optimism while staying grounded in reality • Have the courage to step up to risks worth taking • Consistently reinforce the team message • Set a personal example • Find something to celebrate and something to laugh about • Never give up. Part adventure tale, part leadership guide, the second edition features additional lessons, new case studies of the strategies in action, tools to uncover and resolve conflicts, and expanded resources. An updated epilogue compares the leadership styles of the famous polar explorers Shackleton, Amundsen, and Scott. Today's leaders have much to learn from this gripping account of survival against all odds. Leading at The Edge will help them bring order to chaos—and achieve success in the face of adversity.

Cutting Onions shares restaurant executive Bobby Shaw's journey from starting out as an hourly employee at McDonald's to becoming a senior executive in the restaurant industry, what he learned along the way, and how it changed the course of his life and countless others. The importance of culture is referenced by many leaders trying to build an organization, but it isn't always reflected in the day-to-day actions of that organization. This leadership guide chronicles the journey of one leader through one of the most challenging and rewarding industries, eventually inspiring hundreds of other leaders along the way to do more than they ever thought possible. Bobby dives into the challenges he overcame and how, along the way, he learned the importance of building a strong culture in which people wanted more for each other than they wanted for themselves. Cutting Onions tells the story of a restaurant that figured it out and tied the results they achieved right back to their culture, represented by the simple, everyday things that, as all leaders learn, are the most important.

#OwnYourEpic is a culmination of stories and experiences from the perspective of a high school teacher turned principal. Through these stories and experiences, Dr. Jay Dostal shares the leadership lessons he has learned. While his perspective is from the vantage point of an educational administrator, #OwnYourEpic is relatable to all people who are ready to challenge themselves to be vulnerable and real so they can begin to own their epic. Through storytelling, readers are challenged to read, reflect, and write their own stories and experiences in the hope they will develop, write, and share their epic with others. Anyone can tell stories, but writing them down and reflecting on what you have learned from them is the act of taking ownership. By the end of the book, readers will be well on their way to writing their own epic story.

Where is leadership when we need it? What can today's corporate, non-profit, military, and public-service leaders learn from daring decisions that changed history? In Time to Lead, Jan-Benedict Steenkamp presents a fresh examination of history-making leaders by holding a magnifying glass up to a life-changing dilemma each of them faced. What we learn is how powerful the personalities of leaders and their decision-making processes can be in determining the course of human events—and the fates of millions of people. Steenkamp explains how these great men and women arrived at the solutions to the problems they confronted by virtue of their character traits and whether they were foxes or hedgehogs—as in the ancient parable—or, as he further categorizes, eagles or ostriches. Sixteen carefully curated case studies hold powerful lessons that today's leaders can apply in their own professional lives. Readers will recognize Roosevelt, Washington, Mandela, Thatcher, Alexander the Great, and MLK, but other lesser-known leaders, such as Themistocles, Clovis, Peter, Fisher, and Nightingale provide equally valuable insights into how individuals make decisions based upon one of seven leadership styles (adaptive, persuasive, directive, disruptive, authentic, servant, and charismatic) and four personality classifications (hedgehog, fox, eagle, or ostrich). Steenkamp's assessment tools provide seasoned and aspiring leaders alike with the means to not only determine their own individual styles, but how to step up when they inevitably come face-to-face with their own moments of truth. Chapter takeaways, leadership principles, and open-ended, reflective questions will confer encouragement, enrichment, and empowerment on readers when they realize they can utilize the same tactics as these leaders in their own lives. Time to Lead is about great men and women, their actions in leadership that have withstood the test of time, what we can learn from them—and the lessons that are relevant for us here and now.

What this book is not, it is not a leadership academic resource, filled with principles, methodologies, laws or processes - it's a conversation. It's like we sat down and shared stories over an ice-cold beer or chilled tequila on a hot sunny day. It is an unconventional leadership book, an autobiography of lessons learned. By reading this book, you'll be taken on a ride with me through my personal leadership story, I'll call my journey or ride. While you're reading the tales of my woes and cat-howl moments, I'll encourage you to think about your own ride, your stories and how my experiences might offer you some insight into what's happening on your journey. Our specific trades or crafts might be different, don't be too quick to skip over the details of the ride. The lessons are in the stories. Stories make lessons stickier, like lock-tight to a nut & bolt. Challenge yourself to find the similarities that might be happening in your life. Fix what's not working or no longer fits and cat-howl, growl and pound your chest for the stuff you've got dialed-in. Then get out there and pay it forward. Help develop other badass leaders by sharing your lessons learned. Yes, the good, bad and ugly! If you haven't already, I'd love it if you'd Join the Club at www.badassleader.com, so we can keep this thing going and support one another. We're just getting started. #ExpandYourTribe

Leadership in the Life Sciences

From the former secretary of defense and author of the acclaimed #1 best-selling memoir Duty, a characteristically direct, informed, and urgent assessment of why big institutions are failing us and how smart, committed leadership can effect real improvement regardless of scale. Across the realms of civic and private enterprise alike, bureaucracies vitally impact our security, freedoms, and everyday life. With so much at stake, competence, efficiency, and fiscal prudence are essential, yet Americans know these institutions fall short. Many despair that they are too big and too hard to reform. Robert Gates disagrees. Having led change successfully at three monumental organizations—the CIA, Texas A&M University, and the Department of

Defense—he offers us the ultimate insider's look at how major bureaus, organizations, and companies can be transformed, which is by turns heartening and inspiring and always instructive.

With practical, nuanced advice on tailoring reform to the operative culture (we see how Gates worked within the system to increase diversity at Texas A&M); effecting change within committees; engaging the power of compromise ("In the real world of bureaucratic institutions, you almost never get all you want when you want it"); and listening and responding to your team, Gates brings the full weight of his wisdom, candor, and devotion to civic duty to inspire others to lead desperately needed change.

Lead your business to survival and success by following the example of legendary explorer Ernest Shackleton Sir Ernest Shackleton has been called "the greatest leader that ever came on God's earth, bar none" for saving the lives of the twenty-seven men stranded with him in the Antarctic for almost two years. Because of his courageous actions, he remains to this day a model for great leadership and masterful crisis management. Now, through anecdotes, the diaries of the men in his crew, and Shackleton's own writing, Shackleton's leadership style and time-honored principles are translated for the modern business world. Written by two veteran business observers and illustrated with ship photographer Frank Hurley's masterpieces and other rarely seen photos, this practical book helps today's leaders follow Shackleton's triumphant example. "An important addition to any leader's library." -Seattle Times

How do leaders learn to lead? How do leaders set themselves up for success? This book explores the real-life experiences of a wide variety of leaders from different industries, sectors, and countries to bring to light new lessons on the importance of life-long learning. Consisting primarily of a series of probing interviews, Good Leaders Learn presents the challenges, triumphs, and reflections of 31 senior and high-profile leaders, offering insight into how they learned to lead during their careers. The book pulls important and useful perspectives into a robust theoretical framework that includes the importance of innate curiosity, challenging oneself, risk-taking, and other key elements of good leadership. With practical insights

complemented by the latest leadership research and theory, this book will help current and potential leaders to build a solid foundation of the leadership qualities vital to their continuing success.

What makes a true leader? Is leadership a title? Authority? Charisma? Whatever gets the best results? Today more than ever, Christians need a model of leadership that is based on God's Word, that brings God glory. In Called to Lead, best-selling author, pastor, and teacher John MacArthur explains the characteristics of a leader drawn from one of the Bible's most renowned leaders, the apostle Paul. Focusing on Paul's letters to the church, Called to Lead shows you the twenty-six key qualities of a leader who can achieve results without forfeiting faith and obedience, qualities such as: Trustworthiness Discipline Christlikeness Sincerity Decisiveness Called to Lead presents a compelling, biblically sound explanation of the leadership God

established when Jesus called and commissioned the apostles . . . and when God called you to lead.

FOREWORD BY LEGENDARY DUKE BASKETBALL COACH MIKE KRZYZEWSKI On the Edge is an engaging leadership manual that provides concrete insights garnered from various extreme environments ranging from Mt Everest to the South Pole. By reflecting on the lessons learned from her various expeditions, author Alison Levine makes the case that the leadership principles that apply in extreme adventure sport also apply in today's extreme business environments. Both settings require you to be able to make crucial decisions on the spot when the conditions around you are far from perfect. Your survival -and the survival of your team-depend on it. Featuring a Foreword from legendary Duke University basketball coach Mike Krzyzewski who knows all about leadership, On the Edge provides a framework to help people scale whatever big peaks they aspire to climb-be they literal or figurative-by offering practical, humorous, and often unorthodox advice about how to grow as a leader.

Across the realms of civic and private enterprise alike, bureaucracies vitally impact our security, freedoms, and everyday life. "What's happened to our leaders and to our leadership?" Based on General Zinni's leadership experiences from the battlefield to the boardroom, Leading the Charge shows a new way through the significant leadership challenges of the 21st century. The times are changing at an ever-increasing velocity. Old systems, organizations, and ways of operating no longer work in our dynamic, complex and increasingly unstable new environment. Out of this chaos and confusion, a new and different leader must emerge. Old systems and methods will no longer work. Leading the Charge is a visionary leadership book that examines the trends that have reshaped our world and the ways in which visionary leaders and organizations can effectively respond. Tomorrow's successful leaders--in all fields, including the military, academia, politics, and business--must know how to create, operate, and thrive in very fluid, flattened, and integrated structures that are remarkably different from the traditional organizations we are used to seeing. They will have to manage rapidly changing technology and flows of information, and create faster and more far-reaching spans of control. Leading the Charge shows the way, and is an incisive and compelling guide to the new world of leadership, one that will prove indispensable for years to come. Organized around "Leading a New World," a revolutionary leadership course General Zinni developed and taught at the Terry Sanford Institute of Public Policy at Duke University, Leading the Charge makes a convincing case that leaders must . . . - change with the times to be relevant. - be ready for crisis mode at any given time. - have a moral compass and the ability to steer the company in the right direction. - be forward thinking, not reactive, to provide innovation and creativity. - develop great leaders.

Learn how to be a leader in your own life and career with expert advice from one of the Navy's elite TOPGUN instructors. During a twenty-year career in uniform, Guy Snodgrass became one of the most skilled fighter pilots in the U.S. Navy, commanding combat jets over some of the most dangerous war zones in the world -- and he did it all using the lessons he learned at the Navy's Fighter Weapons School (TOPGUN). The real-life inspiration for the blockbuster films Top Gun and Top Gun: Maverick, the U.S. Navy Fighter Weapons School trains the top one percent of our nation's fighter pilots. Over the course of twelve weeks, these pilots are drilled on aerial tactics, combat, and skills required to win in any organization. Ordinary people are transformed into world-class leaders. Pilots, like Commander Snodgrass, who remain on staff as TOPGUN instructors, are held to even higher and more demanding standards. In TOPGUN's Top 10, Commander Snodgrass distills some of the most important lessons he's learned and taught over the course of his career into a taut, engaging book for readers of all ages and experience levels. It's the perfect gift for anyone looking to change careers, excel in the workplace, or find their way in the world after college graduation. Smart, practical, and direct, Snodgrass's account of real TOPGUN experience will inspire a new generation of leaders.

10 Leadership Lessons That Help You Inspire, Unite, and Achieve

Great leaders and achievers—the masters and great ones do not owe their success to luck, birth, or mindless risk taking. Rather, insight, achievement, and leadership are not the result of happenstance - but of self-knowledge, training, and hard work. According to the authors great achievers throughout history—from Michelangelo to Einstein, Madame Curie to Bill Gates, Colonel Sanders to General Eisenhower—all have leadership characteristics that can be distilled into 10 key actions for extraordinary success.

For professionals navigating negative corporate karmas, Leadership Lessons from the Bhagavad Gita offers a way forward for overcoming self-defeating habits and managing the mind ' s negative chatter that is often the main obstacle to effective leadership. By promoting a leadership approach of caring for followers, stakeholders and future generations, the book offers hope for harmonious workplace relations and a protected environment. Based on leadership by inspiration as opposed to leadership by control, Leadership Lessons from the Bhagavad Gita provides an alternative to conventional leadership. Particularly, in the times we live, where there is a crisis of faith in leadership, the insights from this book present a vision of linked-leadership—leaders who are linked through loving-connection or bhakti-yoga with themselves (through self-knowledge), with other beings, with nature and with the supreme source. As exemplified by Krishna taking over the reins of Arjuna ' s chariot, the crux of this book is leadership, not as a title or position, but as a commitment to service, excellence and virtuous character that motivates and inspires others to pursue the same. The unique insights from this book will help you make sense of different personality types to motivate others according to their natures and inclinations, which will support you in forming effective teams and creating a harmonious and prosperous organizational culture. In short, this book challenges and equips leaders to step up and cultivate unity and diversity, and achieve sustainable wellbeing and happiness in their organizations.

"Based on extensive interviews with today's . . . corporate leaders, this look at how the best CEOs do their jobs focuses on the mindsets and actions that foster an environment of excellence" --

Clarity in Crisis

Meet your next crisis head on and get through it stronger than ever by using the hard-earned strategies and core principles from Marc Polymeropoulos, a highly decorated, 26-year operations officer with the CIA. Marc Polymeropoulos has had to live with the consequences of decisions made under the most high-stress circumstances you can imagine as a senior intelligence officer in the CIA, retiring from his 26 years of service as one of the CIA's most decorated field officers. Though your crisis situations may not entail international counter terrorism as Marc's did, in our age of social media and a 24-hour news cycle, the consequences of mishandling a crisis can escalate quickly, leaving irreparable damage to a company's reputation and bottom line in its wake. In Clarity in Crisis, Marc shares how true leaders need to lead in and through times of crisis and thrive under conditions of ambiguity, rather than message their way out or duck from hard decisions. This book provides proven strategies and core principles that leaders can apply to meet any crisis head on and lead through it, including: The critical elements to managing crisis, such as knowing who you can always count on to execute under high-stress situations. An understanding of the importance of following and stressing key fundamentals and avoiding shortcuts that often do more harm than good. Implementation guidance from the "Mad Minute" section at the end of each chapter that summarizes key points and action items you can begin applying right away. How to gain confidence that you are ready for the next crisis and embrace any situation with no fear. Far from mere theory, Clarity in Crisis outlines the unique mindset and strategies Marc himself practiced and honed throughout his remarkable career. The core principles outlined in these pages will help you find unshakable clarity in crisis and lead when others want to flee.

"Since the end of the Cold War, the global perception of the United States has progressively morphed from dominant international leader to disorganized entity, seemingly unwilling to accept the mantle of leadership or unable to govern itself effectively. Robert Gates argues that this transformation is the result of the failure of political leaders to understand the complexity of American power, its expansiveness, and its limitations. He makes clear that the successful exercise of power is not limited to the use of military might or the ability to coerce or demand submission, but must encompass as well diplomacy, economics, strategic communications, development assistance, intelligence, technology, ideology, and cyber. By analyzing specific challenges faced by the American government in the post-Cold War period--Iran, Iraq, Afghanistan, North Korea, Syria, Libya, Russia, China and others--Gates deconstructs the ways in which leaders have used the instruments of power available to them. With forthright judgments of the performance of past presidents and their senior-most advisors, first-hand knowledge, and insider stories, Gates argues that U.S. national security in the future will require learning, and abiding by, the lessons of the past, and re-creating those capabilities that the misuse of power has cost the nation."--

Leadership is a noble calling that requires courage. It is not for the faint of heart. Stepping forward and putting yourself on the line takes a toll. Success lies in going inward to explore and expand your emotional intelligence, which is the ability to recognize, understand, and manage your own emotions and the emotions of others. The end result is thriving relationships which are at the core of great leadership. This book was born out of the unique Irish wisdom Irvine Nugent learned growing up in his family's pub in Northern Ireland. Journey through Ireland's rich pub culture and back to the boardrooms and offices of the organizations you lead or manage. In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and persistence. She takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern-day success stories. In this gripping book, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives" (Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to overcome adversity; and so much more. Wittingly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on grit and how it can be used to achieve your goals" (The New York Times).

Learn key lessons on diversity and inclusion from front-line expert Marc Morial, CEO of the National Urban League and former mayor of New Orleans. Marc Morial knew his calling from a young age was to be a leader in the fight for meaningful change. Growing up in the segregated South, Morial realized an incredible victory as the first African American mayor of New Orleans. Morial was shown that significant change is possible. Less than two decades later in his own mayoral race in New Orleans, Morial built what he christened the "Gumbo Coalition," an incredible mixture of ingredients--African Americans, Whites, Latinos, Asians, business leaders, grassroots community activists, business leaders, clergy, and more. Each ingredient brought its own flavor, creating a dish that was able to reduce crime and rebuild New Orleans's reputation with such power. Now, Morial fights on behalf of the National Urban League to create a community with a voice so strong that nothing can stand in the way of change. He is ready to teach others what he has learned along the way, by showing readers what it means to be a leader who can unite voices and create meaningful change.

With so much at stake, competence, efficiency, and fiscal prudence are essential, yet Americans know these institutions fall short. Many despair that they are too big and too hard to reform. Robert Gates disagrees. Having led change successfully at three monumental organizations -- the CIA, Texas A & M University, and the Department of Defense -- he offers an insider's look at how major bureaus, organizations, and companies can be transformed. Gates includes advice on tailoring reform to the operative culture (we see how Gates worked within the system to increase diversity at Texas A & M); effecting change within committees; engaging the power of compromise ("In the real world of bureaucratic institutions, you almost never get all you want when you want it"); and listening and responding to your team" (ed.).

The healthcare professionals who save and extend our lives are helpless without the medicines and technologies that have revolutionised medical care. But the industry that invents, makes and provides these indispensable tools is transforming under the pressure of ageing populations, globalisation and revolutions in biological and information technology. How this industry adapts and evolves is vitally important to every one of us. This book looks inside the heads and hearts of the people who lead the global pharmaceutical and medical technology industry. It describes how they make sense of their markets and the wider life sciences economy. It reveals what they have learned about how to lead large, complex organisations to compete in dynamic, global markets. Leadership in the Life Sciences is essential reading for anyone working in or with the pharmaceutical and medical technology industry and its halo of supporting companies. Written as ten succinct lessons, it gives the reader unique insight into what the industry ' s leaders are thinking. Covering topics from leadership to organisational culture, from change management to digital disruption and from competitive strategy to value-creation, each chapter distils the accumulated wisdom of those who lead the complex and turbulent life sciences industry.

Leadership transcends growing and developing a team or driving employees towards achieving organizational goals. It entails making yourself and others around you better people. Many more challenges are embedded in leadership, and many have crumbled under extraordinary pressures. In many cases leaders have pressed the self-destruct button by failing to do the right things. Whether you find leadership thrust upon you or you feel you are a born leader, stress and pressures are constant factors in leadership. This is especially true when leading at higher levels. There are times of burnout, chaos, and failure; navigating these challenges as a leader could be challenging in and of itself. However, challenges and failure are simply part of the learning process; the crucible of the journey that is leadership. Motivated with love for humanity and a desire to help everyone around me be better, I have written this book to guide you through those challenging leadership times. I want you to emerge as not just a stronger leader but a better person.

To be a great leader, you must be able to unite people from all backgrounds with seemingly competing agendas to come together under a common cause. Marc Morial, former mayor of New Orleans and current president and CEO of the National Urban League, has been such a leader and shares the lessons he learned along a legendary journey of achievement. Morial knew his calling from a young age--he was meant to be a leader in the fight for meaningful change. Growing up in the segregated South and helping his father realize an incredible victory as the first African American mayor of New Orleans, Morial was shown that, with the right tools, significant change is possible. Less than two decades later, in his own mayoral race in New Orleans, Morial built what he christened the "Gumbo Coalition," an incredible mixture of all of New Orleans's ingredients--African Americans, Whites, Latinos, Asians, business leaders, grassroots community activists, business leaders, clergy, and many more. Each ingredient brought its own flavor, creating a dish that was able to reduce crime and rebuild New Orleans's reputation with such power that the city was able to successfully attract an NBA franchise, multiple Super Bowls, and the Essence Festival, the largest African American event in the nation. Now, Morial fights on behalf of the National Urban League to create a community with a voice so strong that nothing can stand in the way of change. He is ready to teach others what he has learned along the way, by showing readers what it means to be a leader who can unite voices and create meaningful change.
