Searching for the Perfect “Top” Beach Whatever your idea of the perfect Seaside Escape, the Philippines is well placed to provide the answer. It is a 1,800 km / 1,200 m long archipelago of 7,107 tropical islands, every one offering the chance to get away – soft sand beaches with crystalline waters protected by brilliant coral reefs, sheltered by swaying palm trees. The big island of Luzon, the largest of the lot, has the widest variety of escapes. Luzon is well known for its magnificent inland attractions – from Manila, the country’s capital, to mountainous rice terraces and spectacular volcanoes – but it remains a tropical island with 5,000 km / 3,000 miles of coastline – indented with bays and coves – plus 100s of smaller, off-shore islands – all harbouring wonderful Top Beaches. Manila makes the logical starting point for visits to all of these Top Beaches because it is the first port of call for most visitors to the country and the starting point for a network of roads which reach every corner of the island. Wolf presents a fresh perspective on children’s unpleasant behavior and the surprisingly simple method for dealing with it. Using numerous examples of effective and ineffective parent-child interactions, he offers practical advice on a wide range of basic issues, from tantrums and back talk, to getting children off the school in the morning and eliminating sibling fights. 20 drawings.

"A gal has to look out for herself after all" Clara Grey's parents once said that the world was a dark and dangerous place. There was more truth than fiction to those words. There were things that lurked in the shadows which defied the laws of nature: perversions that fed on the dead, terrorised the living, or escaped the chill touch of the grave. Clara is a member of the Tower, a religious order of hunters who work outside the confines of the Church. As keepers of the arcane, her order takes an active role to counter these threats. The life of a hunter can be short, and many disappear before their training is completed. So, what does it take to succeed against all odds? Explore Clara's origin, a child born before the dawn of the twentieth century. Witness her rigorous training, how she faces adversity, and fights in the Great War to become the derring-do wielding flapper she is. Throughout her tale, keep in mind that no matter the threat, a gal has to look out for herself after all.

Cuba is more than just an exploration of culture, tourism and people. It's actually an excellent place to visit when it comes to historical significance from past to present, for generations to come. For instance, Cuban society is rich in influences, although Cuban customs greatly vary which is dependent on certain cultural influences. This country is in fact located in the stunning Caribbean that comprises the mainland of Cuba called Isla de la Juventud, along with other archipelagos.Havana is actually the capital of Cuba, and is known to be the largest city. On the nearby islands, you will see the Caicos Islands, Turks, and Bahamas on the northeastern part while the US is seen from the northern part of Cuba. Haiti is on the southeastern part, Jamaica and Cayman Islands on the south, and Mexico to the west. The country was also dwelled in by Amerindian clans prior to Christopher Columbus' landing in 1492. Yet, Cuba continued to serve as a settlement for Spaniards until the onset of 1898's Spanish American war. Consequently, it achieved "nominal independence" as a US colony in the year 1902. The flimsy state suffered radical politics as well as social conflict despite the efforts of the people to strengthen their democratic system. Hence, Cuba was run by Fulgencio Batista's dictatorship in 1952. Up to date, with the increasing popularity of this tourist destination in the beautiful island of the Caribbean, Cuba strives to offer a great relaxation and a vacation paradise to those who want to fulfill an ultimate escape with the entire family. For people who love to explore the beauty of the Caribbean peninsula, this is the best place to visit for an unforgettable holiday experience.

During the 1860s, the Oregon and Santa Fe westward out of Independence Missouri were busy travel corridors providing seasonal business for wagon master, Clifford Stokes and his scout, Scott Buchanan. The wagon journey begins along the south fork of the Platte River where potential danger threatens from two unknown groups flanking the wagons while remaining hidden from view! One group is a Kiowa raiding party, the others are fleeing bank robbers in need of provisions. A traveling daughter bound for San Francisco becomes attracted to two men, a suave newspaper man where she is going, and a growing interest in the wagon scout in his element on the frontier. When tragedy strikes, a young worker on the wagon train studying for the ministry answers those difficult questions, why God uses life over death as His tool because of human rebellion. Woven within the novel are different human personalities including social prejudices, a powerful magnet as the story unfolds.

My wife and I had the good fortune to be able to visit my mother several times at her assisted-living facility during her last years. While the church-run facility did an excellent job of looking after my mother during her final years, I was struck by the eventual transition of the residents from vibrant participants to frail elderly fringe beings. Within the four-month intervals between our visits, there could sometimes be stunning differences in the appearance and behavior of the residents we had come to know personally. Over the course of each passing year, multiple residents would either be moved to the adjoining nursing wing, go home to their families, and/or pass away. We witnessed how the natural aging process brought physical decline and social withdrawal to so many of the residents, despite the sincere efforts of the staff. My hope is that this book spreads awareness of the sad and inevitable ending so many seniors face. Too many spend the last years of their lives alone before taking their worldly accomplishments and contributions quietly to their grave, so often unacknowledged or underappreciated. Seniors are our personal history and most precious human resource. We, as a society, will be far richer if we love, listen to, and learn from them.

*This dissertation examines the social context of underage drinking in terms of crime, mental disorder and social disability. The perception of risk and awareness of Maltese young people plays a significant role in the study. Through this study, it was found out that underage drinking in Malta is a problem and that students have misconception about Laws on alcohol. It was also established that the Law in Malta is neither being supported by the community nor strictly enforced. The study has reviewed the literature, which documented the importance, nature and extent of underage alcohol use in Malta. During the course of study, it was determined that young people are subjected to excessive pressure from school, parents, peers and/or other social reasons. The literature review has shown that if a person abuses alcohol, he or she might become an alcoholic. Whilst drinking may be seen as normative and socialised behaviour, binge drinking in young people is linked to risk-taking, sex, fights, accidental injuries, suicide, deaths and crime. The literature also revealed that the younger a person begins to drink, the greater the chance he or she will develop a problem with alcohol later in life. Based on the study being conducted, suggestions and recommendations are proposed on the wide range of strategies - from stricter enforcement of the Laws, relating to the sale of alcohol to minors; to prevention, treatment, rehabilitation and after-care.*
