Demonstrating that non-digital role-plays, such

three distinct genres of playful, participatory and performative forms of engagement with cultural heritage, Mochocki demonstrates how an exploration of

the affordances of each genre can be valuable. Showing that a player's engagement with history or heritage material is always multi-layered, the book clarifies that

the layers may be conceptualised simultaneously as types of heritage authenticity and as types of in-game immersion. It is also made clear that RH, TRPG
