

A Sight For Sore Eyes

Ruth Rendell

Queens across the ages have had children and ruled, but none of them were a Fairy Queen ruling from a trailer park. Struggling to balance life as a mom and a queen, Grace Ann Bryant leans on those who she trusts the most to protect her children. Astor, who returned from Summer with her, is a full-time nanny for Aydan and Winnie while Levi becomes Grace's constant shadow. She's decided to take back the Otherworld. Before she even sets her plan in motion, a dead human shows up within the protective wards of Shady Grove. The eyeless corpse sets off a curse that pits longtime friends against

each other. Petty arguments escalate quickly, and the town begins to tear itself apart from the inside. All the while, someone is leaving haunting objects around town for Grace. Holding it together, she pushes back her grief, again and again, focusing on her children and Shady Grove. Side-by-side, Grace, and Levi search out the culprit who enacted the curse as she waits for Levi to tell her what happened to him while in the Otherworld. The Evil Eye has come to Shady Grove, and the Queen of the Exiles will discover the truth about Levi's scars and face their maker in a curse-charged battle. Sight for Sore Eyes is about the things you can see, the things you can't see, and the things you refuse to see. Will Levi and Grace

In this flamboyant fiction novel, Louisiana Governor Huey "Kingfish" Long, one of Franklin Roosevelt's political rivals, details a political fantasy in which he is president of the United States. Through imaginary conversations with men of power, he presents his aspirations, including the "Share Our Wealth" plan, created in 1934 under the motto "Every Man a King" and how he would enact the program if elected in 1936. The plan proposed new wealth redistribution measures in the form of a net asset tax on corporations and individuals to curb the poverty and homelessness endemic nationwide during the Great Depression. Long visualizes his

inauguration as President of the United States and details his nomination picks for his executive cabinet, including William Edgar Borah as Secretary of State, James J. Couzens as Secretary of the Treasury, and Smedley Butler as Secretary of War. This book was published posthumously in 1935, following Long's assassination on Sunday, September 8, 1935. It is illustrated throughout with political cartoons.

Jock Lewis was supposed to have died in a terrible train crash at Paddington. Minty, his girlfriend, received a letter telling her so. But, curiously, the police haven't been in touch. And Jock has borrowed all her savings. Zillah also got a letter informing her that her husband, Jerry Leach, was dead. Something about it struck her as suspicious, but she chooses not to mention her doubts to her fiancé, an up-and-coming Conservative Member of Parliament. Fiona, a successful banker, met Jeff Leigh before the Paddington crash. And although he never seemed to have a job, and borrowed money from her, she is utterly devoted to him -- and can't understand why he suddenly

disappeared. As the novel progresses, it slowly becomes apparent how the lives of these women might be connected, and how they may figure into a series of vicious stabbing deaths that have shocked and terrified the citizens of London. With consummate skill, Ruth Rendell pulls the colourful strands of this harrowing story ever tighter, increasing the tension page by page.

Deborah Freedman ' s masterful new picture book is at once an introduction to the pieces of a house, a cozy story to share and explore, and a dreamy meditation on the magic of our homes and our world. Before there was this house, there were stones, and mud, and a

colossal oak tree— three hugs around and as high as the blue. What was your home, once? This poetically simple, thought-provoking, and gorgeously illustrated book invites readers to think about where things come from and what nature provides.

A Sight for Sore Eyes tells three stories, and for the longest time, the reader has no inkling of how they will come together. The first is a story of a little girl who has been scolded and sent to her room when her mother is brutally murdered; as Francine grows up, she is haunted by the experience, and it is years before she even speaks. Secondly, we become privy to the life of a young man, Teddy, born of

unthinking young parents, who grows up almost completely ignored. Free of societal mores, he becomes a sociopath, who eventually discovers that killing can be an effective way to get what he wants. Thirdly, we meet Harriet, who from an early age has learned to use her beauty to make her way in the world. Bored by marriage to a wealthy, much older man, she scans the local newspapers for handymen to perform odd jobs around the house, including services in the bedroom. When these three plots strands finally converge, the result is harrowing and unforgettable. *A Sight for Sore Eyes* is not just the work of a writer at the peak of her craft. It is an

From a stage erected in front of the US Capitol, on April 25, 1993, Michael Callen surveyed the throng: an estimated one million people stretched across the National Mall in the largest public demonstration of queer political solidarity in history. "What a sight," he told the crowd, his earnest Midwestern twang reverberating through loudspeakers. "You're a sight for sore eyes. Being gay is the greatest gift I have

He then launched into a gorgeous rendition of "Love Don't Need a Reason," the AIDS anthem he composed with Marsha Malamet and the late Peter Allen. As Callen finished singing, people stood cheering and flashing the familiar American Sign Language symbol for "I Love You." For they knew the song's sentiment rang true for Callen, who had recently announced his retirement

After the March on Washington, Callen returned to his recently adopted West Coast home, Los Angeles. In the ensuing months, his health rapidly declined, and on 27 December 1993, Callen died of AIDS-related pulmonary Kaposi's sarcoma. It's taken for granted that epic journeys and epics were possible only during the time of the Mahabharata, the Odyssey, or the Iliad. Even more to the point, the heroes of the epics had to, perforce, be men. The eponymous Jasoda of the novel is about to prove how wrong the assumptions are. Emma Finn once dreamed of being a photographer, capturing exotic landscapes and poignant vistas.

Then a series of tragedies tore her life apart. All she craves now is stability-reliable, boring, safe.

Ophthalmologist Asher Stockdale left big-city life when his ex-wife took his young son away. When he met Emma, he pictured her as the centre of his new life in Clarence Bay. So why is he encouraging her to resurrect her old dream and go gallivanting around the globe? Dare he ask her to stay? If Emma goes to India, will she be able to heal, or

When four bodies are discovered in a house in St. John's Wood, former Chief Inspector Wexford is pulled out of retirement to follow a complex trail of clues, only to have his life thrown into turmoil by a devastating personal tragedy.
