

A Stolen Heart Cimarron Creek Trilogy *Book 1*

From afar, Cimarron Creek seems like an idyllic town tucked in the Texas Hill Country. But when former schoolteacher Lydia Crawford steps onto its dusty streets in 1880, she finds a town with a deep-seated resentment of Northerners--like her. Lydia won't let that get her down, though. All will be well when she's reunited with her fiancé. But when she discovers he has disappeared--and that he left behind a pregnant wife--Lydia is at a loss about what to do next. The handsome sheriff urges her to trust him, but can she trust anyone in this town where secrets are as prevalent as bluebonnets in spring? Bestselling author Amanda Cabot invites readers back into Texas's storied past to experience love and adventure against a backdrop of tension and mystery in this first book in a brand-new series.

Conflict simply is. Believing that we can somehow avoid it can only damage our relationships, but when we learn to integrate our needs and wants with those of others, it can be a catalyst in our relationships for deeper loving care. Dr. David Augsburger's *Caring Enough to Confront* is a classic in Christian peacemaking. It teaches the reader how to build trust, cope with blame and prejudice, and be honest about anger and frustration. Dr.

Augsburger challenges readers to keep in mind that the important issue is not what the conflict is about, but instead how the conflict is handled. He offers a biblically based model for dealing with conflict to teach Christians how to confront with compassion and resolve issues in a healthy and healing way. Whether in family, church or work relationships, *Caring Enough to Confront* gives readers the tools to make the most of every conflict.

Saddle up for a wildly fun ride with the Wilde sisters! Kylie Wilde is the youngest sister--and the most civilized. It's a risk--they are homesteading using the special exemptions they earned serving in the Civil War as "boys"--but Kylie plans to make the most of the years before she can sell her property and return to the luxuries of life back East. Local land agent Aaron Masterson is fascinated with Kylie from the moment her long hair falls from her cap. But now that he knows her secret, can he in good conscience defraud the U.S. government? And when someone tries to force Kylie off her land, does he have any hope of convincing her that marrying him and settling on the frontier is the better option for her future? Joshua Key's critically acclaimed memoir, *The Deserter's Tale*, is the first account from a soldier who deserted from the war in Iraq, and a vivid and damning indictment of how the war is being waged. In spring 2003, young Oklahoman Joshua Key was sent to Ramadi as part of a combat engineer company with the U.S. military. The war he found himself participating in was not the campaign against terrorists and evildoers he had expected. Key saw Iraqi civilians beaten, shot, and killed for little or no provocation. After six months in Iraq, Key was home on leave and knew he could not return. So he took his family and went underground in the United States, finally seeking asylum in Canada. In clear-eyed, compelling prose crafted with the help of award-winning Canadian novelist and journalist Lawrence Hill, *The Deserter's Tale* tells the story of a man who went into the war believing unquestioningly in his government and who was transformed into a person who ethically, morally, and physically could no longer serve his

A hasty marriage to a minister who is heading to the untamed West seemed like an opportunity for a fresh start, but a cholera outbreak along the wagon trail has left Grace a widow in a very precarious position. Having learned natural remedies and midwifery from her mother, Grace seeks an opportunity to use her skills for the benefit of others. So when she and her sisters arrive at the Whitman mission in "Oregon Country," she decides to stay rather than push on. In this heavily illustrated book, Mike Milligan has captured the still developing story of one of those remote, but no longer secluded, corners of the Colorado Plateau. Upstream from Moab on the Colorado River, near the Colorado state line, there is a relatively short, deep canyon that has become one of the most popular river-running destinations in America. The canyon is known as Westwater. Its popularity is largely due to the thrill provided by one of the most dangerous and challenging stretches of white water on the Colorado---Skull Rapid. Near the head of the canyon are the remnants of the tiny town of Westwater, which has had an interesting and eventful history of its own, partly because of the river and canyon, partly because of the railroad that passes through it, and partly because of its remoteness. It has attracted over the years more than its

fair share of colorful characters---government explorers and agents, boosters and get-rich-quick dreamers, cattle and sheep men, outlaws and bootleggers, and, of course, river runners. Mike Milligan, who came to know the area as a river guide, has written a thorough history of this out-of-the-way place. While it has a colorful history that makes its story interesting in and of itself, Westwater's significance derives more from a phenomenon of the modern West--thousands of recreational river runners. They have pushed a backwater place into the foreground of modern popular culture in the West. Westwater seems to represent one common sequence in western history: the late opening of unexplored territories; sporadic, often unsuccessful attempts to develop them; renewed obscurity when development doesn't succeed; their attraction of a marginal society of misfits or loners; and modern rediscovery due to new cultural motives, especially outdoors recreation, which has brought a great number of people into thousands of remote corners of the West. In this work, Edward Buscombe explores the ways in which 'Unforgiven', sticking surprisingly close to the original script by David Webb Peoples, moves between the requirements of the traditional Western, with its generic conventions of revenge and male bravado, and more modern sensitivities.

In this volume, Douglas B. Bamforth offers an archaeological overview of the Great Plains, the vast, open grassland bordered by forests and mountain ranges situated in the heart of North America. Synthesizing a

century of scholarship and new archaeological evidence, he focuses on changes in resource use, continental trade connections, social formations, and warfare over a period of 15,000 years. Bamforth investigates how foragers harvested the grasslands more intensively over time, ultimately turning to maize farming, and examines the persistence of industrial mobile bison hunters in much of the region as farmers lived in communities ranging from hamlets to towns with thousands of occupants. He also explores how social groups formed and changed, migrations of peoples in and out of the Plains, and the conflicts that occurred over time and space. Significantly, Bamforth's volume demonstrates how archaeology can be used as the basis for telling long-term, problem-oriented human history.

Longing for adventure, Priscilla Morton leaves Boston and heads for Texas, never dreaming that the adventure she seeks will leave her badly injured and her parents dead. Priscilla is determined to rebuild her life and make a home for herself in the beautiful

Hill Country. But the bandits who took her parents' lives also destroyed her hope for the future. Ranch foreman Zachary Webster knows what the future holds for him, and it's not a woman like Priscilla. She deserves a cultured East Coast gentleman, not a cowboy who's haunted by memories of his mistakes. The best thing he can do is leave her alone. When necessity draws them together, Priscilla and Zach begin to forge a life that, like the scattered petals of her childhood, is filled with promise. But then the past intrudes, threatening their very existence.

Each sunrise seems to bring fresh reasons for fear. They're talking layoffs at work, slowdowns in the economy, flare-ups in the Middle East, turnovers at headquarters, downturns in the housing market, upswings in global warming.
