This volume presents over 200 selected original artworks from the collection of Betsy Beinecke Shirley, one of the great collectors of American children's literature. Shirley gathered an authoritative collection of books, original illustrations, manuscripts, as well as drawings and paintings from such children's classics as 'Treasure Island' and 'Eloise.' The artwork in Shirley's collection guides the reader on a tour through the stages of childhood reading, this volume begins with ABC's and nursery books. It continues through adventure stories, magazines, and more, then concludes with a miscellany section of odds and ends. The images demonstrate how children's books evolved, from the nation's first days of independence to modern times. Artists whose works are represented include many of the favorites, among them Ludwig Bemelmans, Maurice Sendak, A.B. Frost, Wanda Gag, Peter Newell, N.C. Wyeth, Tony Sarg, Robert Lawson, and Johnny Gruelle.

Observe...Interpet...Apply People with Bibles don't always know how to use them. They're good at absorbing and repeating material from sermons, commentaries, and blogs, but they miss the fullness and joy that comes from studying the Bible for themselves. The power to change the world is available, but it goes untapped. Though study aids are helpful, imagine if your primary ministry curriculum was Scripture itself. You could study the Bible, teach people how to study it themselves, and expect those folks to lead their own Bible studies with their neighbors, coworkers, and friends. Each year, you'd see an increasing number of men and women wield the sword of the Spirit, piercing hearts and drawing the lost to Jesus. Ordinary people can learn to study the Bible. These people may not have been to seminary. They don't have much free time. But they love Jesus and want to be more like him. They want to know him. Knowable Word offers a foundation on why and how to study the Bible. Using a running study of the first chapter of Genesis, it illustrates how to observe, interpret, and apply the Scripture-and gives the vision behind each step. It also shows how to read each Bible passage in light of salvation history. But besides being just a how-to on Bible study, it fuels the desire to learn and

grow through studying the Scriptures. This book will appeal to three kinds of people: 1. Beginners who love God and his Word 2. Mature Christians who want to improve their Bible study skills 3. Leaders who long not only to teach but also to equip Knowable Word offers what each group needs: a sensible Bible study method. By learning to observe, interpret, and apply, ordinary people will grow extraordinarily close to Jesus Christ as they learn to study his knowable Word.

In 1949, Rosamond Halsey Carr, a young fashion illustrator living in New York City, accompanied her dashing hunter-explorer husband to what was then the Belgian Congo. When the marriage fell apart, she decided to stay on in neighboring Rwanda, as the manager of a flower plantation. Land of a Thousand Hills is Carr's thrilling memoir of her life in Rwanda—a love affair with a country and a people that has spanned half a century. During those years, she has experienced everything from stalking leopards to rampaging elephants, drought, the mysterious murder of her friend Dian Fossey, and near-bankruptcy. She has chugged up the Congo River on a paddle-wheel steamboat, been serenaded by pygmies, and witnessed firsthand the collapse of colonialism. Following 1994's Hutu-Tutsi genocide, Carr turned her plantation into a shelter for the lost and orphaned children—work she continues to this day, at the age of eighty-seven.

In 2004, the Academy Award-nominated movie Hotel Rwanda lionized hotel manager Paul Rusesabagina for single-handedly saving the lives of all who sought refuge in the Hotel des Milles Collines during Rwanda's genocide against the Tutsi in 1994. Because of the film, the real-life Rusesabagina has been compared to Oskar Schindler, but unbeknownst to the public, the hotel's refugees don't endorse Rusesabagina's version of the events. In the wake of Hotel Rwanda's international success, Rusesabagina is one of the most well-known Rwandans and now the smiling face of the very Hutu Power groups who drove the genocide. He is accused by the Rwandan prosecutor general of being a genocide negationist and funding the terrorist group Democratic Forces for the Liberation of Rwanda (FDLR). In Inside the Hotel Rwanda, survivor Edouard Kayihura tells his own personal story of what life was really like during those harrowing 100 days within the walls of that infamous hotel and offers the testimonies of others who survived there, from Hutu and Tutsi to UN

peacekeepers. Kayihura tells of his life in a divided society and his journey to the place he believed would be safe from slaughter. Inside the Hotel Rwanda exposes Paul Rusesabagina as a profiteering, politically ambitious Hutu Power sympathizer who extorted money from those who sought refuge, threatening to send those who did not pay to the genocidaires, despite pleas from the hotel's corporate ownership to stop. Inside the Hotel Rwanda is at once a memoir, a critical deconstruction of a heralded Hollywood movie alleged to be factual, and a political analysis aimed at exposing a falsely created hero using his fame to be a political force, spouting the same ethnic apartheid that caused the genocide two decades ago.

**“An interactive and empowering book” to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans “are affected by serious diseases and health conditions at far greater rates than other Americans.” In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. Reclaiming Our Health begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, “I wrote this book to empower our community to solve our own health problems and save our own lives.”**

One couple's inspiring memoir of healing a Rwandan village, raising a family near the old killing fields, and building a restaurant named Heaven. Newlyweds Josh and Alissa were at a party and received a challenge that shook them to the core: do you think you can really make a difference? Especially in a place like Rwanda, where the scars of genocide linger and poverty is rampant? While Josh worked hard bringing food and health care to the country's rural villages, Alissa was determined to put their foodie expertise to work. The couple opened Heaven, a gourmet restaurant overlooking Kigali, which became an instant success. Remarkably, they found that between helping youth marry their own local ingredients with gourmet recipes (and mix up "the best guacamole in Africa") and teaching them how to help themselves, they created much-needed jobs while showing that genocide's survivors really could work together. While first a memoir of love, adventure, and family, A THOUSAND HILLS TO HEAVEN also provides a remarkable view of how, through health, jobs, and economic growth, our foreign aid programs can be quickly remodeled and work to end poverty worldwide.

New York Times bestselling author Sandra Hill continues her sexy Deadly Angels series, as a Viking vangel's otherworldly mission pairs him with a beautiful chef who whets his thousand-year-old appetite . . . Once guilty of the deadly sin of gluttony, thousand-year-old Viking vampire angel Cnut Sigurdsson is now a lean, mean, vampire-devil fighting machine. His new side-job? No biggie: just ridding the world of a threat called ISIS while keeping the evil Lucipires (demon vampires) at bay. So when chef Andrea Stewart hires him to rescue her sister from a cult recruiting terrorists at a Montana dude ranch, vangel turns cowboy. Yeehaw! The too-tempting mortal insists on accompanying him, surprising Cnut with her bravery at every turn. But with terrorists stalking the ranch in demonoid form, Cnut tele- transports Andrea and himself out of danger-accidentally into the 10th Century Norselands. Suddenly, they have to find their way back to the future to save her family and the world . . . and to satisfy their insatiable attraction.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and

Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Proven ways to create a more loving family Research proves that happy families are good for health, longevity, peace of mind, productivity, and success. He provides a "positive psychology" way of solving family problems through strategy and leadership, including knowing and accepting who you are, taking a leadership role in loving and united relationships, building a network of support in extended families and communities, and making quality time for fun, adventures, holidays, and rituals.

Baking Cakes in Kigali

**Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.**

Fallen angels have trespassed into Heaven for the first time in eternity. Prepared for battle, Heaven's General and the most powerful Archangel, Michaela, opens Heaven's gates to confront the fallen. In Purgatory, it's not a battle she finds, but a betrayal of the worst kind. One simple mistake with a thousand consequences. Framed for the fallen's attack on Heaven, Michaela is left for dead in a dark cave on Earth, where Clark, an unlikely pink-haired ally with a penchant for Jack Daniels, finds her. With the help of her new friends and Gabriel, an Archangel whose friendship blurs into something more, Michaela must prove her innocence. The holy angels have a plan for Heaven, and it may prove to be the End of Days.

Embark on a global adventure to descend into a salt mine, knead bread, harvest olives, and pluck fresh figs. What you discover will forever change the way you read the Bible--and approach every meal. Also includes delicious recipes. One of America's most beloved teachers and writers, Margaret Feinberg, goes on a remarkable journey to unearth God's perspective on food. She writes that since the opening of creation, God, the Master Chef, seeds the world with pomegranates and passionfruit, beans and greens and tangerines. When the Israelites wander in the desert for forty years, God, the Pastry Chef, delivers the sweet bread of heaven. After arriving in the Promised Land, God reveals himself as Barbecue Master, delighting in meat sacrifices. Like his Foodie Father, Jesus throws the disciples an unforgettable two-course farewell supper to be repeated until his return. This groundbreaking book provides a culinary exploration of Scripture. You'll descend 400 feet below ground into the frosty white caverns of a salt mine, fish on the Sea of Galilee, bake fresh matzo at Yale University, ferry to a remote island in Croatia to harvest olives, spend time with a Texas butcher known as "the meat apostle," and wander a California farm with one of the world's premier fig farmers. With each visit, Margaret asks, "How do you read these Scriptures, not as theologians, but in light of what you do every day?" Their answers will forever change the way you read the Bible--and approach every meal. Taste and See is a delicious read that includes dozens of recipes for those who, like Margaret, believe some of life's richest moments are

spent savoring a meal with those you love. Perhaps God's foodie focus is meant to do more than satisfy our bellies. It's meant to heal our souls, as we learn to taste and see the goodness of God together. After all, food is God's love made edible. See you around the table!

Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.

In early March 1867, Muir was injured while working at a wagon wheels factory: a tool he was using slipped and struck him in the eye. This accident changed the course of his life. He was confined to a darkened room for six weeks, worried he'd lost his sight forever. When he did recover, the world looked completely different and life had taken on a new meaning for him. Muir later said, "This affliction has driven me to the sweet fields. God has to nearly kill us sometimes, to teach us lessons." From that point on, he

determined to "be true to myself" and follow his dream of exploring and studying plants. A Thousand Mile Walk to the Gulf recounts Muir's walk of approximately 1,000 miles (1,600 km) from Indiana to Florida. He did not follow a specific route, only going by the "wildest, leafiest, and least trodden way I could find." This journal is the earliest of Muir's writings and autobiographically bridges the period between "The Story of my Boyhood and Youth" and "My First Summer in the Sierra." John Muir (1838-1914) was a Scottish-American author and naturalist, who is traditionally considered to be the "Father of the National Parks". Born in Dunbar (East Lothian), he spent his childhood exploring the area, and that is where his love of nature first bloomed. In 1849, his family emigrated to Portage, Wisconsin for religious reasons. At 22, he joined the University of Wisconsin-Madison, from which he never graduated, as he preferred to take a multitude of different classes in the variety of subjects he was interested in, such as chemistry, botany and geology. In 1866, whilst working at an Indianapolis wagon wheel factory, he got into a serious accident and almost lost his sight. When he recovered, he decided to follow his dreams and explore nature. In September 1867, he walked from Kentucky to Florida, later describing the trip in his "A Thousand-Mile Walk to the Gulf." In 1868, he boarded a ship to Cuba, then later on sailed to New York City, from whence he travelled to California. From there, he decided to visit Yosemite, which he had long read about. He was one of the first to infer that the landscape there must have been formed by glaciers, a widely disputed theory at the time. Muir wrote countless essays, books and letters recounting his adventures out in nature, especially in the Sierra Nevada, which have been read by millions. He played a vital role in the preservation of natural areas, and the creations of Yosemite and Sequoia National Park, amongst many others.

The study of electoral realignments is one of the most influential and intellectually stimulating enterprises undertaken by American political scientists. Realignment theory has been seen as a science able to predict changes, and generations of students, journalists, pundits, and political scientists have been trained to be on the lookout for "signs" of new electoral realignments. Now a major political scientist argues that the essential claims of realignment theory are wrong—that American elections, parties, and policymaking are not (and never were) reconfigured according to the realignment calendar. David Mayhew examines fifteen key empirical claims of realignment theory in detail and shows us why each in turn does not hold up under scrutiny. It is time, he insists, to open the field to new ideas. We might, for example, adopt a more nominalistic, skeptical way of thinking about American elections that highlights contingency, short-term election strategies, and valence issues. Or we might examine such broad topics as bellicosity in early American history, or racial questions in much of our electoral history. But we must move on from an old orthodoxy and failed model of illumination.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Ursula K. Le Guin, a classic science fiction novel by Ursula K. Le Guin, one of the greatest writers of the genre, set in a future world where one man's dream shapes the fate of humanity. In a future world racked by violence and environmental catastrophes, George Orr wakes up one day to discover that he has the ability to alter reality. He seeks help from Dr. William Haber, a psychiatrist who immediately grasps the power George wields. Soon George is trying to preserve reality itself as Dr. Haber becomes adept at manipulating George's dreams for his own purposes. The Lathe of Heaven is an eerily accurate novel from award-winning author Ursula K. Le Guin that masterfully addresses the dangers of power and humanity's self-destructiveness and the nature of reality itself. It is a classic of the science fiction genre.

From Jeffrey Gettleman, a Pulitzer Prize-winning New York Times journalist, comes a passionate, revealing story about finding love and finding purpose, set against one of the most turbulent regions in the world. A seasoned war correspondent, Jeffrey Gettleman has covered every major conflict over the past twenty years, from Afghanistan to Iraq to the Congo. For the past decade, he has served as the East Africa bureau chief for the New York Times, fulfilling a teenage dream. At nineteen, Gettleman fell in love, twice. On a do-it-yourself community service trip in college, he went to Africa—a terrifying, exciting, dreamlike part of the world in the throes of change that imprinted itself on his imagination and on his heart. At that same time he also fell in love with a fellow Cornell student—the brightest, classiest, most principled woman he'd ever met. To say that the two opposites was an understatement. She became a criminal lawyer in America; he hungered to return to Africa. For the next decade he wavered between these two abiding passions. A sensually rendered coming-of-age story in the tradition of Barbarian Days, Love, Africa is a tale of love, violence, far-flung adventure, tortuous long-distance relationships, screwing up, forgiveness, parenthood, and happiness that explores the meaning of finding yourself in the most unexpected of places.
