For the Hmong people living in overcrowded refugee camps in Thailand, America is a dream: the land of peace and plenty. In 1995, ten years after their arrival at the camp, thirteen-year-old Mai Yang and her grandmother are about to experience that dream. In America, they will be reunited with their only remaining relatives, Mai's uncle and his family. They will discover the privileges of their new life: medical care, abundant food, and an apartment all their own. But Mai will also feel the pressures of life as a teenager. Her cousins, now known as Heather and Lisa, try to help Mai look less like a refugee, but following them means disobeying Grandma and Uncle. From showers and smoke alarms to shopping, dating, and her family's new religion, Mai finds life in America complicated and confusing. Ultimately, she will have to reconcile the old ways with the new, and decide for herself the kind of woman she wants to be. This archetypal immigrant story introduces readers to the fascinating Hmong culture and offers a unique outsider's perspective on our own.

"Loki is a divisive figure in American heathenry and his wife Sigyn is all but forgotten ... why is Loki a problem in American culture? This book will provide varying perspectives from established heathens from both academic and practical standpoints, rituals/devotional practices for honoring Loki and Sigyn, and personal anecdotes and communications from my long, wild ride with the Norse gods"--

Women in the western democratic world have gained many freedoms in recent years. But in some respects, are as trapped by our cultural paradigm as ever. Reenlisted in epic and endless repeat versions of "happily ever after", women have not been well served by the all-pervasive narratives they have been raised with. Part map, part workbook, part friend, *Ariadne's Thread and The Myth of Happily Ever After* provides an overarching narrative across everything women face when staying true to an inner thread of calling. In the *Morland Dynasty* series, the majestic sweep of English history is richly and movingly portrayed through the fictional lives of the Morland family. It is 1788, and in France, as the revolution begins, Henri, the bastard offshoot of the Morland family, strives to protect his family. He binds his daughter Heloise in loveless marriage to a Revolutionary, and allies himself with the vigorous Danton. But in the bloodbath of the Terror and the fall of Danton, Henri goes to the guillotine and Heloise flees to England where she is welcomed warmly by the Morland family. In Yorkshire Jemima's troublesome brood cause her anxiety--especially her youngest, Lucy, who disguises herself as a boy and runs away to sea--but at last she sees three of her children marry and the hope of an heir to Morland Place.

The fourth book in the "outstanding" (Romantic Times) Elemental Assassin fantasy series featuring Gin Blaco, who by day is a waitress at a Tennessee BBQ joint, and by night is a tough female assassin. I'd rather face a dozen lethal assassins any night than deal with something as tricky, convoluted, and fragile as my feelings. But here I am. Gin Blanco, the semi-retired assassin known as the Spider. Hovering outside sexy businessman Owen Grayson's front door like a nervous teenage girl. One thing I like about Owen: he doesn't shy away from my past—or my present. And right now I have a bull's-eye on my forehead. Cold-blooded Fire elemental Mab Monroe has hired one of the smartest assassins in the business to trap me. Elektra LaFleur is skilled and efficient, with deadly electrical elemental magic as potent as my own Ice and Stone powers. Which means there's a fifty-fifty chance one of us won't survive this battle. I intend to kill LaFleur—or die trying—because Mab wants the assassin to take out my baby sister, Detective Bria Coolidge, too. The only problem is, Bria has no idea I'm her long-lost sibling . . . or that I'm the murderer she's been chasing through Ashland for weeks. And what Bria doesn't know just might get us both dead. . . .

It was in Cetinje in August, 1900, that I first picked up a thread of the Balkan tangle, little thinking how deeply enmeshed I should later become, and still less how this tangle would ultimately affect the whole world. Chance, or the Fates, took me Near Eastward. Completely exhausted by constant attendance on an invalid relative, the future stretched before me as endless years of grey monotony, and escape seemed hopeless. The doctor who insisted upon my having two months' holiday every year was kinder than he knew. "Take them in quite a new place," he said. "Get right away no matter where, so long as the change is complete."

Presents the true story of a friendship that has spanned three decades, recounting how the author, a harried sales executive, befriended an eleven-year-old panhandler, changing both of their lives forever.

The word kanuna is an ancient term and is in use today. It is pronounced ""kah-hoo-nah"" and meant ""keeper of the secret."" The word for their secret lore was never found. The role of secrecy had been so strong and so well kept that it may never have been given a name... The name we used, for this reason, was Huna (pronounced ""hoo-nah""), which means ""secret."" Enough basic information will be incorporated in this book to give a working picture of the system of beliefs and practices upon which experimental work has been based. Interspersed with the instructions will be found explanations of the sources of conclusions, of symbols, words, and word-roots familiar to Huna, but which we also found in other religions, mainly Christianity. These will tend to show that the meanings ascribed to Huna are well founded. Huna is compatible with other systems. It interferes with none of them, but makes possible a greater understanding of the old truths. (From the Introduction) Get Your Copy Today!

Marginalized by the scientific age the lessons of the senses have been overtaken by the dominance of language and the information revolution. With *The Five Senses* Serres traces a topology of human perception, writing against the Cartesian tradition and in praise of empiricism, he demonstrates repeatedly, and lyrically, the sterility of systems of knowledge divorced from bodily experience. The fragile empirical world, long resistant to our attempts to contain and catalog it, is disappearing beneath the relentless accumulations of late capitalist society and information technology. Data has replaced sensory pleasure, we are less interested in the taste of a fine wine than in the description on the bottle's label. What are we, and what do we really know, when we have forgotten that our senses can describe a taste more accurately than language ever could? The book won the inaugural Prix Médicis Essai in 1985. The Revelations edition includes an introduction by Steven Connor.
